collection

Material flow  
analysis and POM  
(dom and import)  
200K USD?

Definition of e-waste

Product scope

Informal integration

Capacity building, guidance, pilots, research, data collection etc.

# Working Group Formation

- First to identify the working group focal points from government, including right people from each directorate.
- Set date of first working group (first week of June 2025?). How to communicate about it / visibility?
- Lead on the invitations for the first working group meeting (by Komdigi)?
- Hosting of the first working group meeting (by German Embassy or GIZ)?
- Potential participation in first working group: technical and ministries (and embassies for first meeting).
- Possible agenda: validate shopping list defined by ITU, GIZ, Japan (to be further defined end-March).
