KOMDIGI

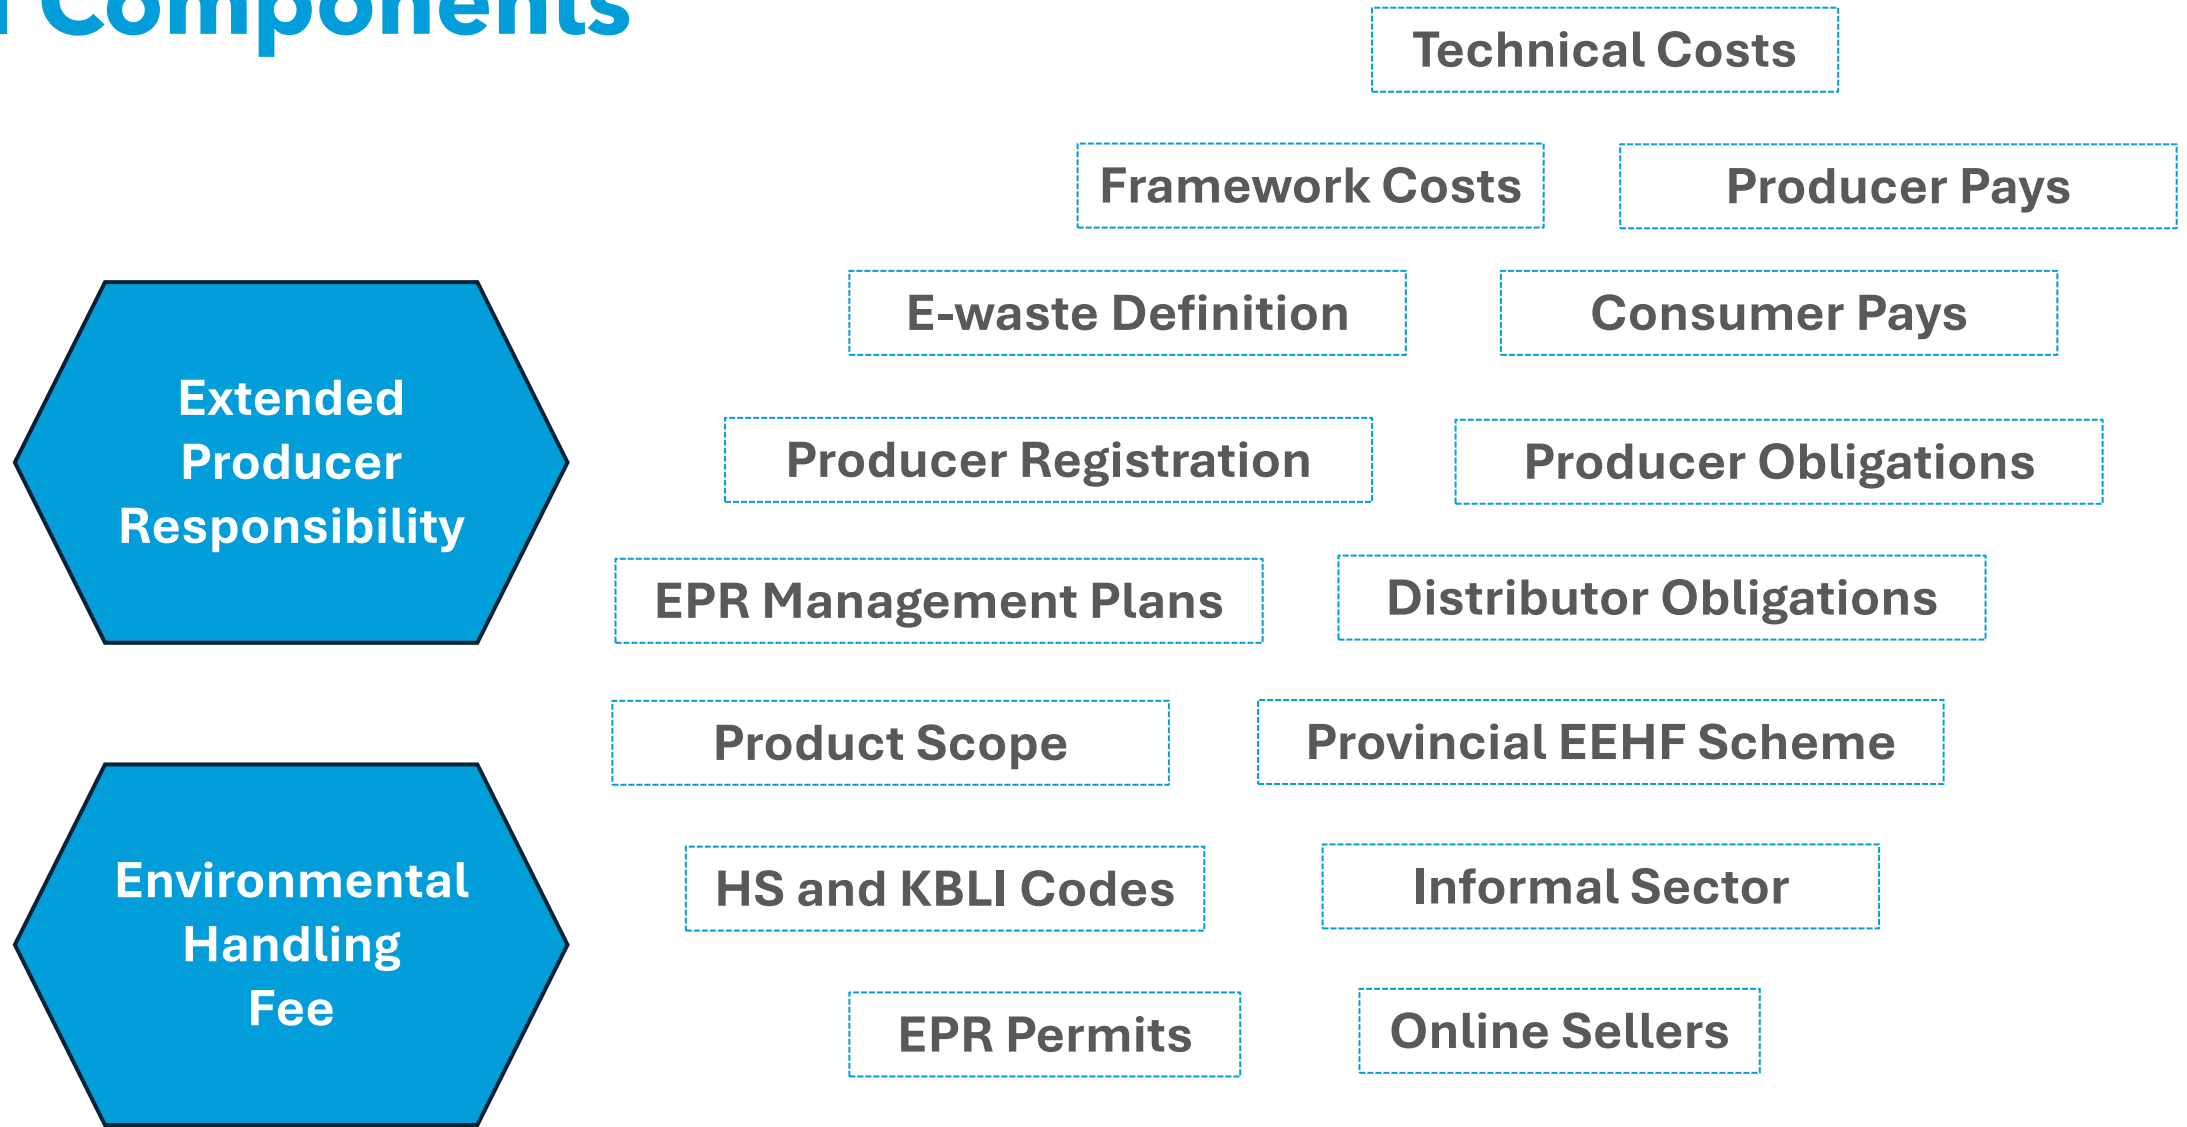

Kementerian Komunikasi dan Digital
Republik Indonesia

Project Status

Initial Components

Components Status

Immediate Political-Level Questions

- Who pays for e-waste management (consumer or producer or shared)?
- Who manages the fees collected from consumers, producers or both?
- Should the financial and organisational mechanism for e-waste be provincially-led or should it be centrally-led?
- Will the existing regulations be revised to fit the new e-waste system or will new regulations be developed?
- Informal sector size, boosting formal recycling capacity. Are Sampah and Limbah effective?

Lower-Level Technical Priorities

- Improvement in definition of e-waste.
- Revamp of EEE product scope for EPR.
- Registration of producers with EPR, roles and responsibilities of producers.
- The above for domestic distributors.
- Scope and allocation of TCs and FCs, including material flows.
- Fee implementer / operational mechanism.
- Informal sector integration.
- EPR obligations, mgmt. plans and permits.

Multi-Stakeholder Effort

Entity	Involvement
KLHK	Regulation of e-waste.
Komdigi	Electronics / ICT sector.
Bappenas	Circular economy.
Ministry of Home Affairs	Provincial level.
Ministry of Finance / Customs	Import and financials.
BRIN	Research requirements.
BPD LH	Fund management.
Ministry of Industry	Domestic producers
Ministry of Trade	Trade of electronics.
Ministry of Law	Legal alignment.

Coordinated Approach

- 1) **Involvement of UK, Japan and Germany; three levels of coordination:**
 - Embassy level.
 - Ministry level.
 - Technical level.
- 2) **“Shopping list” of activities and clear phased next steps needed.**
- 3) **Continue with designing system before embarking on regulatory change.**
- 4) **Assigned and consistent ministry / department focal points.**
- 5) **Lead / joint-lead / lead and supporting political driving ministries:**
 - KLHK, Komdigi, Bappenas?
