

Ashish Narayan

Mr. Ashish Narayan is Programme Coordinator in the ITU Regional Office for Asia and the Pacific. He is responsible for ITU human capacity building work in Asia-Pacific region and is presently the coordinator for the ITU Asia Pacific Centres of Excellence Network. In addition, Mr. Narayan also provides assistances to ITU Members on policies & regulations, digital strategies and implementation (digital agriculture, digital government, digital financial services) and IPv6 migration under ITU's programs in several Asia-Pacific countries.

Prior to the ITU, Mr. Narayan worked as Deputy Advisor in the Telecom Regulatory Authority of India. During his tenure in the TRAI, he worked on key telecom sector reform issues. He began his career with the Tata Telecom, an equipment manufacturer, before moving to the Indian Government Service. He has also worked with the Indian public service broadcaster in the area of broadcast engineering.

Mr. Narayan holds an MBA Degree in International Business and a Bachelor's Degree in Electronics and Telecommunication Engineering.
