

Daniel Ternald

Daniel is currently working at the International Environmental Technology Centre (IETC) in Osaka, Japan, a branch of the UN Environment Program with a strong focus on waste management. He comes from Gothenburg, Sweden, and has a MSc in Environmental Economics from the University of Gothenburg. As the focal point for e-waste management and recycling at IETC, he is managing and developing e-waste reports and tools, and working with countries in South-East Asia to implement national e-waste management systems and policies.
