Innovative Regulatory Policies

- The Government is reviewing its policies
 - National ICT Policy
 - Universal Access Policy
- New Strategies for e-Enablement
- Policy Initiatives to be accommodated in the upcoming Amendment to TRBR Act:
 - Innovative Licensing Regime
 - ICT Infrastructure Sharing
 - Content Regulation
 - SIM Card Registration
 - Further mandate the office of the Regulator and to establish boundaries to ensure Multisector collaboration.

Incentive Based Regulation

- Spectrum incentive for 5G development
- Establishing a Licensing Regulatory frame work to boost the uptake of Data, support SME business start up and in the same time as a strategy to reduce the digital gap.

Promoting Affordable Access

- Self Regulation – market force determine price
- Partnership Approach with stakeholders
