# CyberSecurity Cambodia

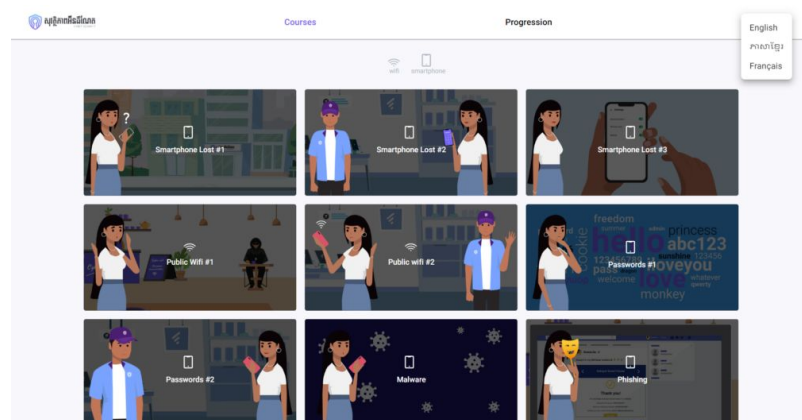

**USD 30,000**

Passerelles Numeriques.

- In this 2021 project, Passerelles Numériques Cambodia (PNC) and The Foundry worked to create playful and accessible online learning content through interactive videos and quizzes on security issues.
- As a result of the project, the Ministry of education integrated the website into its online learning platform which will make it available to students aged from 12 to 18 years in Cambodia.

**Cambodia**

**Status: Completed**

## Lessons learned

- It's important to have a dedicated project manager with the project as their primary focus.

# The Prayuters Library: Bringing Internet connectivity and digital skills to rural populations

**USD \$30,000**  
Open Development Cambodia

**Cambodia**

**2023-2024 – In progress**

This 2023 ISIF Asia project aims to set up Wi-Fi hotspots in the community centres of the provinces of Kratie, Preah Vihear, Steung Treng, and Kampong Thom. It is an extension of the Prayuter's Library in Preah Vihear.

The Prayuters Library will serve as a meeting point for students to learn after their schooling hours and will also serve as a venue for workshops on digital privacy and security.

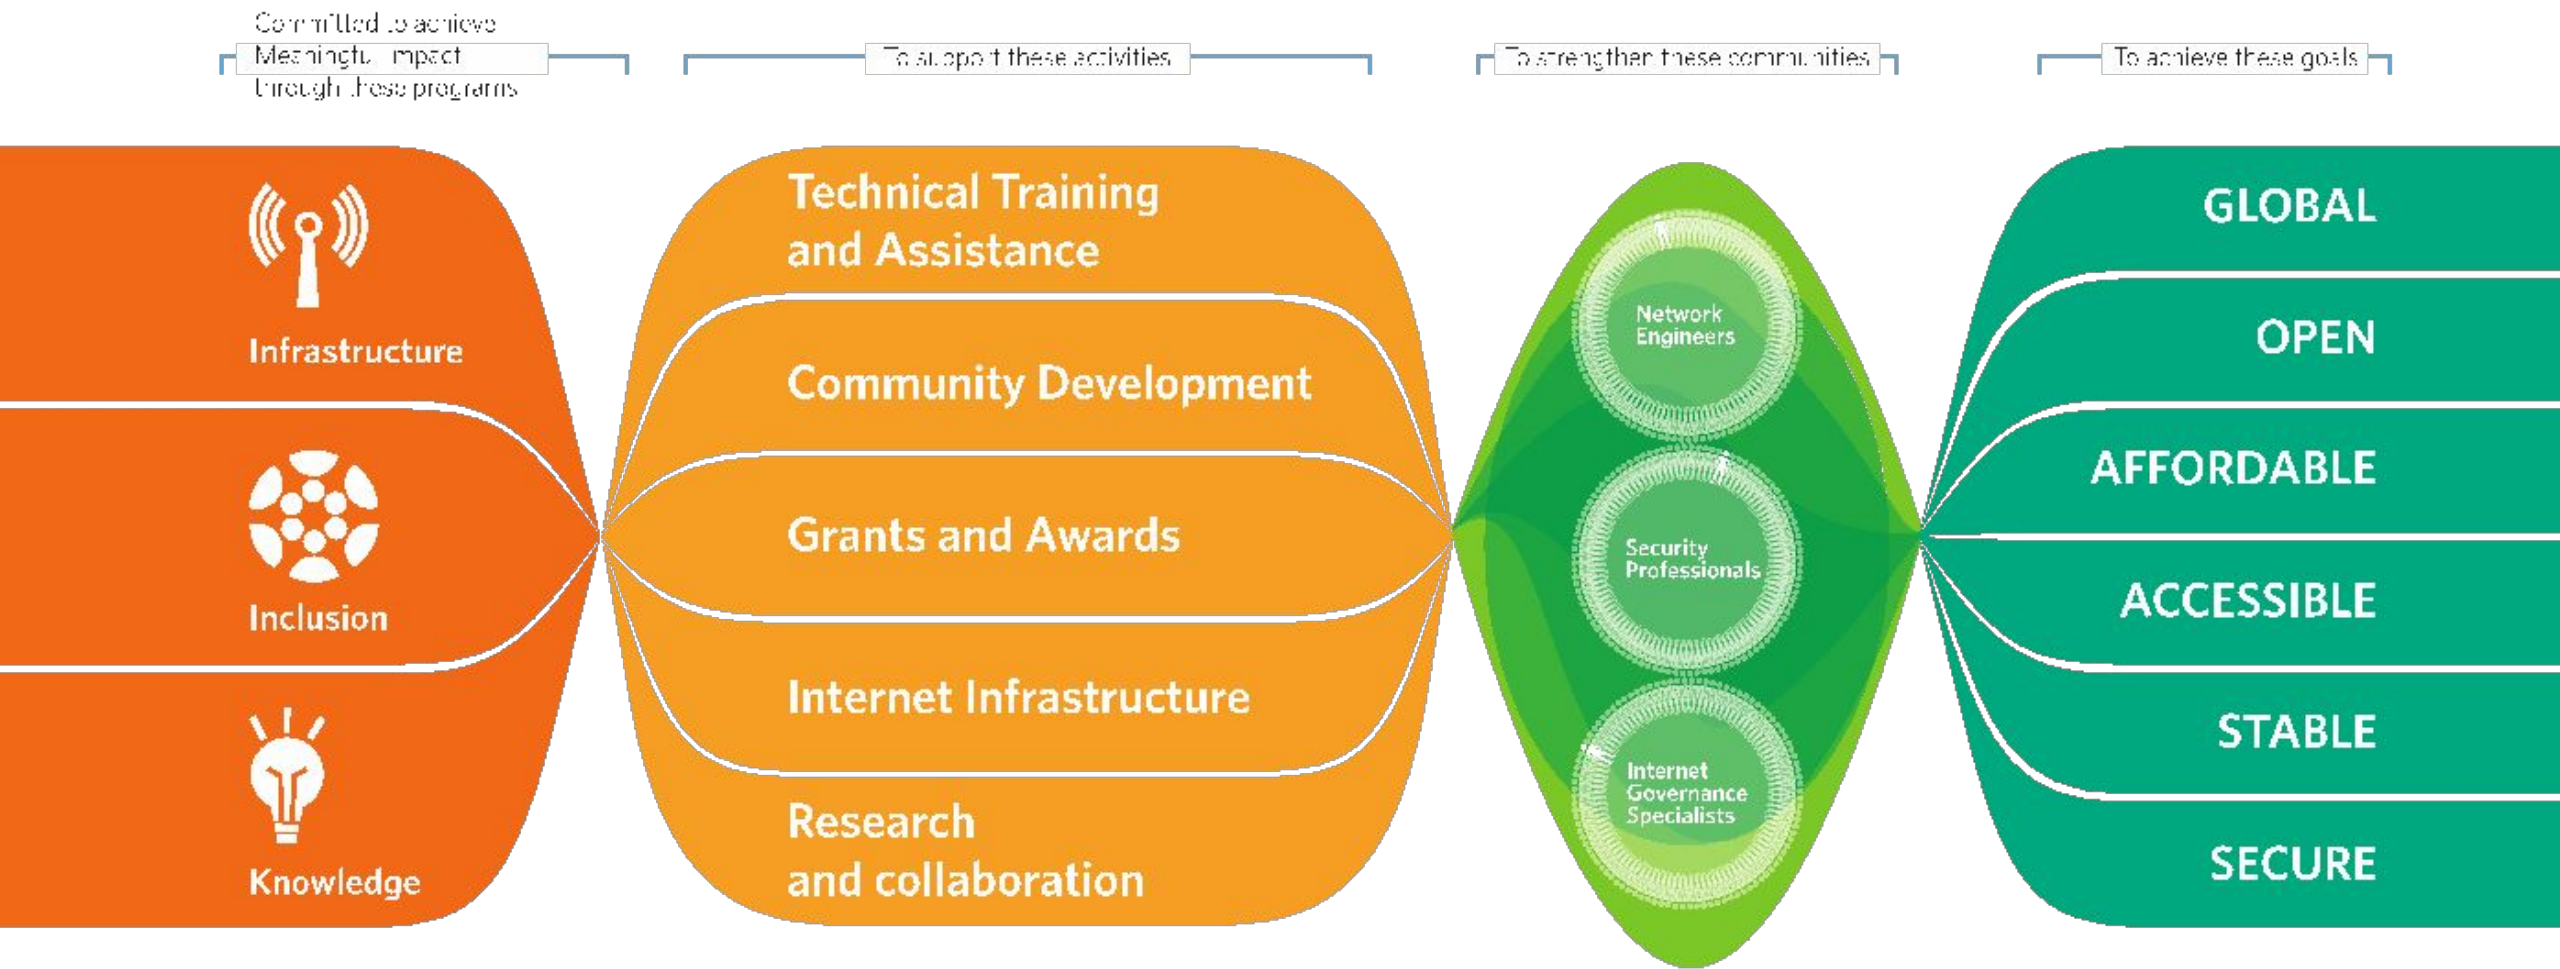

# How we work

## Switch! gender and diversity: 2023 statistics

- 176 participants from six economies: (KH, LA, TL, TH, PH, VN)
- 162 women, 14 gender diverse
