## I. GENERAL INFORMATION

TITLE OF THE PROJECT:	«CONNECT SCHOOLS»		
The purpose of the project:	Expanding access to information and communication technologies, training in modern information technology and improvement of practical skills of teachers in rural schools.		
Tasks:	Organize short-term training courses for teachers in rural schools by the method of programming.		
TITLE OF THE COURSE:	"The course of training teachers in rural schools on the basics of algorithms and programming"		
The purpose of organizing refresher course:	The purpose of the course is to train teachers in rural schools programming skills, develop logically correct and efficient algorithms, programs.		
Expected learning outcomes:	1) Formation of skills of the principles of construction of algorithms, basic algorithmic structures, systems programming; 2) Formation of skills of construction of algorithms and programming in programming languages; 3) Formation of skills of work with modern software development tools.		
DATE OF COURSE:			
Start Date:		06.04.2015	
The End Date:		10.04.2015	
Duration:		5 days	
Evaluation Date:		10.04.2015

## II. COURSE CONTENT

### 2.1. Technical environments for training

Organized outreach courses for rural schools teachers of Osh regions districts of the Kyrgyz Republic. Classes were held in, which has a modern material and technical base, equipped with multimedia classrooms and a computer with Internet access.

## 2.2. Course program

13.30-15.00	<b>Testing. Questioning</b>	
15.00-16.00	<b>Presentation of certificates</b>	

There were 2 Coffee Breaks where participants could ask teachers and discuss about class and exchange experience between each other.

All practical and theoretical classes' tutorials were printed and provided to course students, also were shared soft copies of video class materials (see Appendix 2).

On the end of class all participants were tested by test program for knowledge level checking where questions relate with program topics.

Comment Book was created for course participants. Each student should leave opinion about course and give own suggestion according course, teachers, teaching methods and organization of training.

### Results of the survey at the beginning of the course

The results of the questionnaire to rate indicate that:

- 1) 23.5% of the participants took part in previous courses held within project "Connect a School";
- 2) 53% of the participants was engaged on Basic programming language;
- 3) almost all of the participants did not work in PascalABC;
- 4) rural schools are not provided with textbooks on programming in the Kyrgyz language.

## Results of the survey at the end of the course

№ n/n	What topics are not necessary for you, and what topics are you more like and want?	Are all the topics of the course have been passed?	You enjoyed the level of the course? Your opinion about the course	Do you want to participate in the course of the next level? If so, on what?
1	All subjects are needed	Yes	The course is held at a high level. I got a lot of useful information.	Yes, I want to participate in courses on MS Access, MS SQL Server
2	There was so unnecessary. All themes are very much needed	Yes	The course is held at a high level, practical exercises helped to master the course al approach to each student	Yes, I want to participate in courses
3	All themes are necessary and useful for me	Yes	Classes are held at high level and I really enjoyed teaching methods trainers	Yes, I want to participate in courses on programming
4	All themes are necessary and actual	Yes	In a short time could increase the level of qualification	Yes, I want to participate in courses on programming
5	All passed topics we really need	Yes	I have received a lot of useful information available on the Kyrgyz language	I learned a lot, and want to participate in future courses of this level
6	All passed topics needed	Yes	I want to note the excellent teaching quality of teachers	I want to participate in courses on object-oriented programming
7	All passed topics needed	Yes	The course is held at a high level, especially liked the handouts, which also include electronic textbooks in the Kyrgyz language	Yes, I would like to participate in courses on programming languages
8	No unnecessary topics	Yes	We got a lot of useful information available on the Kyrgyz language, as there are no textbooks in Kyrgyz	Yes, I would like to participate in courses organized you
9	All themes are very necessary to us	Yes	Trainers show their professionalism, liked their attitude and individual approach to each	Yes, I would like to participate in courses on site creation and hosting

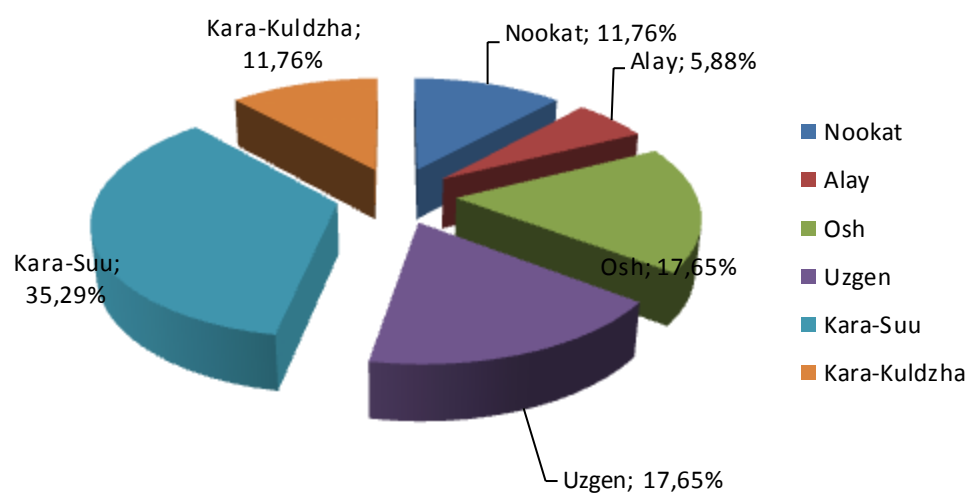

10	All themes are very necessary to us	Yes	I want to continue the course, I liked these courses	I would like to participate in courses on database creation
11	All passed topics needed	Yes	Trainers showed their professionalism liked their attitude, and individual attention to each	Yes, I would like to participate in courses on Excel, Word
12	All themes need	Yes	In rural schools do not have the conditions to improve the knowledge of teachers, so these courses are so necessary for rural schools	Yes, I would like to participate in courses on internet programming
13	All themes are very necessary to us	Yes	In rural schools do not have the conditions to improve the knowledge of teachers, so these courses are so necessary for rural schools	Yes, I want to participate in all courses on MySQL, SQL Server
14	All themes are necessary and useful for me	Yes	The course is held at a high level, I want to express my gratitude to our coaches	Yes, I want to participate in all the courses the next level
15	All themes are necessary and useful for me	Yes	The course is held at a high level, practical exercises helped to master the course	Yes, I want to participate in all courses next level
16	All themes are necessary and useful for me	Yes	The course is held at a high level, I want to express my gratitude to our coaches	Yes, I want to participate in all courses next level
17	All themes are necessary and useful for me	Yes	Classes are held at high level and I really enjoyed teaching methods trainers	Yes, I want to participate in courses on programming

As shown by the results of the questionnaire after the course, participants noted the high level of courses, thanked the organizers of the course and wish to participate in courses on software engineering.

### 2.3. List of Participants

There were 17 rural teachers from Osh regions districts of the Kyrgyz Republic and 13 of them were women:
