BIG DATA

Planning to develop standards for then next year

- ❖ O'z DSt _____:2019 Big data. Cloud computing based requirements and capabilities

Based on Recommendation ITU-T Y.3600

- ❖ O'z DSt _____:2019 Big data. Framework and requirements for data exchange

Based on Recommendation ITU-T Y.3601

Internet of Things

Ongoing Research by UNICON.UZ

State Unitary Enterprise Scientific Engineering and Marketing Researches Center – “UNICON.UZ” is conducting research to develop regulations for use of Internet of Things in Uzbekistan:

- ✓ Study and analyze world experience;
- ✓ Investigation telecommunication aspects in Uzbekistan;
- 📶 Investigation radio-frequency aspects in Uzbekistan;
- 🔄 Development of proposal for use of IoT in Uzbekistan.

- ❖ O'z DSt _____:2018 Information technologies. Internet of Things. Terms and definitions

Internet of Things Projects

Young researchers have been working on this research domain

- Temperature, pressure, humidity monitoring system
- Video monitoring system
- Alarm system
- Automatic reaction system in an emergencies
- Smart entrance system
- Remote controlling system: Wi-Fi, Bluetooth,
