ITU Cyber Drill - ALERT (Applied Learning for Emergency Response Teams) for CIS Region *Baku, Republic of Azerbaijan, 3-7 September 2018*

Event venue: [Excelsior Hotel, Heydar Aliyev Avenue 2, Baku, Azerbaijan](#)

DRAFT AGENDA

Training by Dr. Melanie Rieback from FIRST

Abstract: TRANSITS-I courses are aimed at new or potential computer security incident response team (CSIRT) personnel who wish to gain a good grounding in the main aspects of working in such a team. They cover basic incident handling and response techniques, operational practices, organisational and legal issues. Trainees get a unique opportunity to mix with their peers and discuss security issues in a secure and trusted environment, while being tutored by leading members of the European CSIRT community.

TRANSITS-I courses are open to individuals currently working for a CSIRT or network security related organisation, and to those with bona-fide interest in establishing a CSIRT. Applications are welcome from commercial, governmental, law enforcement and military organisations, as well as national research and education networking organisations (NRENs) and research and education institutes.

3 September 2018, Monday

08:30-09:00	Registration
