ITU – CERT-RO 2018 Conference: The New Global Challenges in Cyber Security

#CERTCON8

The Romanian Computer Incident Response Team (CERT-RO) is pleased to announce the VIIIth edition of the Annual International Conference „The New Global Challenges in Cyber Security” that will take place between **16th – 17th** of October in Bucharest, Romania.

This year the event has a new flagship partner: the International Telecommunication Union (ITU)

As always, we will tap into the New Global Challenges in Cyber Security together with experts from European and International institutions and leading cyber security companies. We will have two full days of presentations, talks and networking opportunities on the 16th and 17th of October and a closed-door session dedicated exclusively to the CSIRT community on the 15th of October.

The topics for this year range from policy developments at European and International level & capacity building tools and initiatives, to the implementation of new technologies in the cyber security field, as well as insights in the global threat landscape.

Please view an outline of the agenda below. Further details will be available soon at www.cert.ro

CERT-RO

Day I [15th of October]. CSIRT closed meeting: Tools, challenges and best practices

Only National, Governmental, Sectoral and Private CSIRTs are invited to take part in this closed door meeting.
