

Manel Alcaide
CEO & co-founder

We create technology to make life easier for people with hearing loss, and to help public institutions and private companies comply with current accessibility legislation.

466 million
of people
with hearing
problems.

1.1 billion
at risk of
hearing loss.

All buildings open
to the public must
be accessible to
anyone.

Mandatory laws on accessibility for people with hearing loss

2030 Agenda for Sustainable Development.

Countries will mobilise efforts to end all forms of poverty, fight inequalities and tackle climate change, while ensuring that no one is left behind. We work specially under Objective nº 10: Inequality Reduction.

PATENTED

Direct access to Public tenders.

RD 1/2013, November 29, General Law on the rights of persons with disabilities and their social inclusion.

People with disabilities have the right to live independently and to participate fully in all aspects of life. To this end, **public authorities shall adopt the appropriate measures to ensure universal accessibility, on equal terms with other persons, in the environments, processes, goods, products and services, transportation, information and communications, including systems and services, information and communication technologies**, as well as social media and other services and facilities open to the public or for public use, both in urban and rural areas.

Technical Edification Code (RD 314/2006 de 17 de marzo) and Fire Protection Facilities Regulation (RIPCI),

Regarding security and emergency situations, alerts should be visual as well as sound, and visible throughout public and private buildings, if in the space 60 db is exceed, occupants are using auditory protection due to acoustic contamination or have hearing loss.
