How to make the world into a better place.

ONE TECHNOLOGICAL WORLD

World In Sign
Germany ™

Facts.

- Germany – 83.000 deaf and 13 million people hard of hearing

- Europe – (about) 2 million people deaf and about 50 million who are hard of hearing.

- Worldwide – 70 million people for whom a sign language is their native language.

PROBLEM

Ensuring communication between hearing and

deaf people in many situations daily.

Lack of capacity of interpreters.

Finding solutions.

➢ European and worldwide equal standard for the use of all people with disabilities and non-disabilities
➢ Effective use of sign language interpreter and written interpreter
➢ Deaf and Hearing working in a team & equal together
