Strategic Considerations

- Future Workforce

- Ubiquitous, secure, and high-quality connectivity and devices for learning
- New hybrid learning models (in-person & remote learning)
- Digital literacy (incl. programming/ coding, computational thinking)
- Teachers' readiness for new learning models and technology

- Current Workforce

- Reskilling and upskilling for digital jobs of tomorrow
- Industry-led skills validation and micro-credentials
- Focus on advanced digital skills (i.e. cloud computing, AI, cybersecurity)
- Support for Small and Medium Enterprises
- Partnership with industry and local employers

Digital (Advanced) Skills are defined now as a combination of technical, analytical, and problem-solving skills.

Digital Europe

- ▶▶ At DIGITALEUROPE we strive for a Europe where no one is left behind.
- ▶▶ Today, 52% of European workers are in need of reskilling.
- ▶▶ In response to the EU Digital Decade vision, the Pact for Skills and the Digital Education Action Plan we have prepared following recommendations:
 - [Stronger Digital Europe – Vision 2025](#)
 - [Key Performance Indicators](#)
 - [Investment Plan](#) – how to spend it!
 - [Recommended Best Practices & Case Studies](#)
 - [Strategic and Operational Recommendations on How to Implement Digital Skills Projects](#)

Thank you!
