

Apiary Book

Helping beekeepers to make better informed decisions

Our beliefs

- Beekeepers are the **first line of defense** in the mission to protect our planet's honey bees
- In order to address the problems/threats affecting the health of honeybees **all the stakeholders must collaborate**: beekeepers, associations, veterinarians, researchers, authorities

Mission

- to help all beekeepers from around the world
- to make **better informed decisions** based on historical data, current conditions and best practices
- to minimize bee colonies loses, increase productivity
