# Online gender-based violence

- Takes different forms → requires different solutions
- Technology offers various solutions to counter gender-based violence
- Nationally: legislation, policies, strategies and action plans
- Internationally: inclusion of preventing and eliminating online gender-based violence in all relevant international fora

# Examples on action

- In Finland: National Action Plan for Combating Violence against Women with various measures against online gender-based violence
- In the context of UN Human Rights Council: luncheon “Online and tech-facilitated gender-based violence as a human rights violation”
- At the European Parliament: “Friends of GE AC on Technology and Innovations for Gender Equality” meeting
