TITLE: Development of resilience digital infrastructure in critical situations

DESCRIPTION OF ACTION: [Provide a brief description up to 500 words]

Digital transformation for resilience is an essential change of services in all sectors as health, government, education, public administration, etc. by ensuring them for greater resilience in responding to critical situations, including the COVID-19 pandemic challenges.

In order to establish a sustainable resilience digital infrastructure in all critical situations, we propose a technical assistance of ITU:

- on creating an experience and knowledge sharing platform between countries based on best practices and for exchange knowledge to ensure the knowledge exchange between countries by learning from the Best- Practices and,
- to support Albania and other countries on drafting a guideline on building a resilience digital infrastructure in critical situations.

COUNTRIES in FOCUS: [Name countries to be impacted by this action]

Albania, other countries in the region.
