

ITU RED-AFRICA REGIONAL ECONOMIC DIALOGUE FOR AFRICA: Meaningful and Affordable Digital Connectivity for Africa

Thierno Mountaga Diarra
Principal IT Solutions Architect
ICT Operations
African Development Bank (ADB)

Thierno Mountaga DIARRA Principal IT Solutions Architect, ICT Operations, African Development Bank Thierno M. DIARRA is an IT Solutions Architect, working for the ICT Operations Unit of the African Development Bank. He has a background in Software Development and Large Enterprise Solutions Implementation across various industries. Along with identifying and setting up financial models and carrying out financial and economic analyses for digital projects and programs for African countries, Thierno provides internal IT advisory services to ensure appropriate IT solutions are identified and make recommendations on prospective project designs leveraging digital technologies and services. His scope of expertise in the recent years has focused in particular on the take-up and impact of the Fourth Industrial Revolution in Africa and the ways to unlock its potential for the continent's economy and its growing youth.
