Carla Valverde

**Economic Analysis and Telecommunications Markets Manager
Ministry of Science, Innovation, Technology and
Telecommunications Costa Rica MCITT**

Carla Valverde is Manager of Economic Analysis and Telecommunications Markets at the Ministry of Science, Innovation, Technology and Telecommunications of Costa Rica. In her current role, she leads the team in charge of research in economics, statistics, and finance.

She has 13 years of experience in the ICT/Telecommunications sector, during which she has developed research on impact of taxes on telecommunications services on the GDP, broadband for universal access, gender digital divide, cultural practices through ICTs, e-waste, among other topics. She has also worked on the definition and evaluation of public policies in

telecommunications.

At the Ministry, she also collaborates as an advisor on topics of her expertise addressed in international organizations such as the International Telecommunications Union (ITU), the Organisation for Economic Co-operation and Development (OECD), the Inter-American Telecommunications Commission (CITEL), and the Regional Technical Telecommunications Commission (COMTELCA).

Ms. Valverde has worked in the public, private and academic sectors, and has been an Economics Lecturer in several universities. She holds a BSc. in Economics from the University of Costa Rica, and a MSc. in Development Studies, with a major in Development Economics and a minor in Quantitative Analysis of Policies, from the Institute of Social Studies, The Netherlands.
