# Use of SMS4DC

- For research purposes
- With the idea of develop integration with monitoring System using web services.
- To improve user interface

SMS4DC mirror database

Experience with SMS4DC

- User interface is not very intuitive
- Learning process is long and a training is recommended (common factor with most SM tools)
- Some easy improvements can be made to enhance user experience
- A web interface will be welcome.

Monitoring system based on SDR

SIMONES

Monitoring System based on Spectrum Analyzer and software

THANK YOU
