The Digital Development Dashboard reports the latest values for selected indicators drawn from three ITU data sets:

- Telecommunication/ICT infrastructure and access data, collected annually through one short and one long questionnaire. These indicators are defined in the ITU Handbook for the Collection of Administrative Data on Telecommunication/ICT infrastructures.

- Price data, collected through an annual questionnaire. Price indicators are also defined in the ITU Handbook for the Collection of Administrative Data on Telecommunication/ICT infrastructures.

- Data on access to and use of ICTs by households and individuals, collected annually through one short and one long questionnaire. These indicators are defined in the Manual for Measuring ICT Access and Use by Households and Individuals.
