

Measuring the WSIS Targets

A statistical framework

Released at the
WSIS Forum 2011

- A **response** to the WSIS call to develop indicators and produce official statistics for measuring the information society
- A **concrete list of indicators** to monitor the 10 WSIS targets, which range from connecting villages, schools, and health centers to developing online content and providing people with ICT access
- A **practical tool** for policy makers and data producers in developing countries to monitor and assess information society developments

The report was prepared by the *Partnership on Measuring ICT for Development's* Task Group on Measuring the WSIS Targets under the leadership of ITU, and in consultation with many experts in the field of ICT measurement. It is expected to become the main reference document for the final review of the achievements made towards meeting the WSIS targets in 2015.
