# Web Dialogue: The Enabling Policy Environment for Effective Disaster Management including for COVID-19 Response

## SPEAKER BIO

---

### BIOGRAPHY

**Mr Chris Anderson** is an incident management and infrastructure protection expert with three decades of government, military, and private sector experience. He is currently the Principal Advisor for National Security & Emergency Preparedness at CenturyLink.

Mr Anderson previously held a variety of emergency management and national security positions at the Federal Communications Commission and US Department of Homeland Security. Most recently, he served as the FCC's Chief of Operations and Emergency Management, leading the Commission's incident management activities, operations centers, national security coordination, and Continuity of Operations programs. Prior to joining the Commission, Mr. Anderson worked in critical infrastructure protection at the Department of Homeland Security and as a project and program manager for America Online. Mr Anderson began his career with a decade on active duty in the U.S. Navy as a helicopter pilot. Mr Anderson retired from the Navy Reserve in August 2016.

Mr Anderson is a 2010 graduate of the National War College with a master's degree in National Security Strategy; he holds a second master's degree in Management Information Systems. He received his undergraduate degree from the University of Virginia.
