## Web Dialogue: The Enabling Policy Environment for Effective Disaster Management including for COVID-19 Response

### SPEAKER BIO

---

#### BIOGRAPHY

**Mr Juan M. Roldan** is the founder of the Luxon Consulting Group, LLC, a boutique consulting firm specialized in ICT and Policy. Since 2018 Luxon has led several projects on spectrum planning and licensing, ICT policies and regulatory reform, technologies in education, market analysis of Over-the-top (OTT) communication providers, e-waste and emergency telecommunications in the Americas, Africa and Middle East. Mr. Roldan drafted the ITU Guidelines for National Emergency Telecommunication Plans (NETPs) and has provided advise to several regulators on how to develop NETPs. Mr. Roldan has more than fifteen years of experience in the ICT sector in both public and private organizations. He began his career as an advisor at the Communications Regulatory Commission of Colombia and then as an advisor in the ICT Ministry. In the private sector Mr. Roldan served as the Corporate Affairs Manager in Latin America for Intel Corporation, advocating before governments in Latin America on public policies to increase connectivity and the use of technology to decrease the digital divide. Subsequently he held the position of technical and economic advisor at the consulting firm Telecommunications Management Group, Inc. leading projects related to ICT policies and regulations, competition analysis, spectrum management, e-waste, digital economy and business development, among other topics.
