**Subject: IPv6 Symposium, Geneva (Switzerland), 10 September 2013**

Dear Sir/Madam,

I am pleased to invite you to the IPv6 Symposium which will take place at ITU Headquarters in Geneva on 10 September 2013 (ITU Montbrillant Building, Room K). This event will be held back-to-back with the Study Group 1 meeting on Question 19-2/1 (Implementation of IP telecommunication services in developing countries).

The World Telecommunication Development Conference, Resolution 63 (Hyderabad, 2010, IP address allocation and encouraging the deployment of IPv6 in the developing countries) instructs the Director of the Telecommunication Development Bureau (BDT) to collaborate closely with relevant entities (e.g. IETF, LIRs, RIRs, the Internet Society, in addition to others), to provide human capacity development, training and other assistance on IPv6.

BDT is organizing this event in close collaboration with Swiss IPv6 Council, in order to discuss, exchange views and experience on Public Policy for Neutrality and IPv6 Implications, on IPv6 transition, Security, Treats and Mitigations including IPv6 Implementation solutions.

The draft agenda as well as practical information can be found in annex.
