

150 1865
ITU 2015

C&I Nairobi
21 October 2015

ITU Regional Activities

Marcelino TAYOB
Senior Adviser in the ITU/REGIONAL OFFICE
FOR AFRICA

2

International Telecommunications Union (ITU)

- ITU was founded in Paris in 1865 as International Telegraph Union → celebrating 150 years anniversary

150 1865
ITU 2015

- Present name in 1934. UN Agency 1947

Committed to Connecting the World

ITU's Membership

193 **Member States** and Regulatory Bodies

750 **Companies**, Business Associations, NGOs

65 **Universities** & Research Establishments

ITU's Global Presence

5 regional offices, 8 area offices
HQ in Geneva, Switzerland

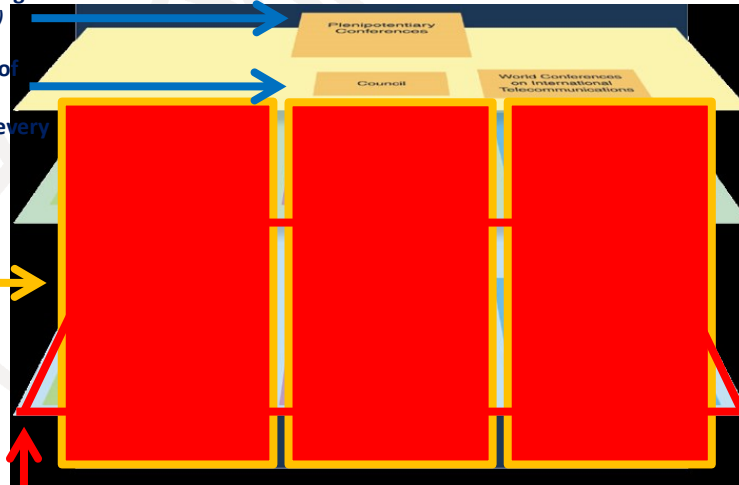

ITU's decision making process...

The PP is the main body
of decision making
(meets every 4 years)

Council is made of
25% of Member
States (elected every
4 years)

Each Sector is
overseen by
Advisory groups
and world
conferences

(This is us, the
ITU Secretariat)

ITU has three core areas of activity

- Managing Spectrum and orbits
- Developing telecommunication Standards
- Promoting ICT Development

plus a set of inter-sectoral activities

facilitated by the ITU General Secretariat

ITU has three core areas of activity

- **Managing Spectrum and orbits**
- Developing telecommunication Standards
- Promoting ICT Development

plus a set of inter-sectoral activities

facilitated by the ITU General Secretariat

Radio-frequency spectrum and satellite orbits are limited natural resources

Un-coordinated use can lead to malfunctioning of telecommunication services

Interferences

Satellite collisions

ITU has three core areas of activity

- Managing Spectrum and orbits
- **Developing telecommunication Standards**
- Promoting ICT Development

plus a set of inter-sectoral activities

facilitated by the ITU General Secretariat

ITU-T promotes **global standards** for innovation:

- ITU standards work conducted in *Study Groups*
- Long and distinguished history of work by engineers on fixed telephony, mobile communications & Internet.
- Producing *recommendations or standards* on globally used technologies e.g. G992.1 on ADSL, G993.1 on VDSL, universal phone charger
- *Private sector & government* work together in partnership
- ITU coordination with *other standards bodies*
- ITU presence at the inception of technologies:
Addressing *new ICT infrastructure paradigms* e.g. NGNs, smart grids.

ITU has three core areas of activity

- Managing Spectrum and orbits
- Developing telecommunication Standards
- **Promoting ICT Development**

plus a set of inter-sectoral activities

facilitated by the ITU General Secretariat

ITU-D works to bridge the digital divide and connect the unconnected

- Measuring the advance of the Information Society (ICT Development Index)
- Assisting developing countries in putting into practice competitive ICT markets
- Building capacity in developing and least developed countries
- Executing agency of UN for ICT projects, working with governments and industry partners
- Mobilizing resources and partners for project implementation

ITU's MANDATE

- Plenipotentiary
- **World Radiocommunication Conference (WRC)**
- **World Telecommunications Standardization Assembly (WTSA)**
- **World Telecommunications Development Conference (WTDC)**

ITU-T Study Groups

Current Study Groups are:

- SG2 - Operational aspects
- SG3 - Economic and policy issues
- SG5 - Environment and climate change
- SG9 - Broadband cable and TV
- SG11 - Protocols and test specifications
- SG12 - Performance, QoS and QoE
- SG13 - Future networks
- SG15 - Transport, Access and Home
- SG16 - Multimedia
- SG17 - Security

[SG20 - IoT and applications, smart cities](#)

ITU-D Study Group

Study group period: 2014-2018
1st Meeting 8-19 September, 2014

Study Group Question 1

Q1/1	Migration to Broadband
Q2/1	Broadband Access Technologies
Q3/1	Cloud Computing
Q4/1	Economic Policies
Q5/1	Rural/ Remote Access
Q6/1	Consumer Protection
Q7/1	Disabilities / Special Needs
Q8/1	Analogue to Digital

ITU-D Study Group

Study group period: 2014-2018

Study Group Question 2

Q1/2	Smart Society
Q2/2	E-Health
Q3/2	Cyber Security
Q4/2	Conformance and Interoperability
Q5/2	Emergency Telecommunications
Q6/2	Climate Change
Q7/2	EMF
Q8/2	E-waste

Summarizing ...

In **ITU-R** we coordinate global wireless communication
(which uses limited resources)

In **ITU-D** we provide assistance to the un-connected

In **ITU-T** we produce interoperable technical ICT standards

In the **GS** we provide intersectoral coordination for the whole organization and represent ITU externally

ITU ACTIVITIES IN AFRICA (FEW EXAMPLES)

- REGIONAL OFFICE SERVES ALL ITU SECTORS AND GENERAL SECRETARIAT
- DEVELOPMENT ACTIVITIES bulk of the work → Managed by BDT
- ITU WORKS IN CLOSE COOPERATION WITH OTHER UN AGENCIES AND REGIONAL AND SUB REGIONAL ORGANIZATIONS

19

ITU's Global Presence

5 regional offices, 8 area offices
HQ in Geneva, Switzerland

20

RA – 15, WRC -15 AND WTSA-16

- ITU worked with and supported African Telecommunications Union (ATU)
 - ❖ in the preparations and coordination of African positions to the WRC-15
 - ❖ Coordination of Digital Terrestrial Broadcasting Migration
 - ❖ Coordination of Digital Dividend in Africa
 - ❖ in the African preparations to WTSA -16 organised in Dakar 7 and 8 September 2015

COOPERATION WITH SUB-REGIONAL ORGANIZATION

- ITU is working with EACO in this C&I Study and Workshop.
 - (Similar activity done last year with SADC. Next year will support ECCA).
- Cooperating with East African Countries and EACO formulating regional projects in the ICT to funded by cooperating partners e.g. China.

REGIONAL INITIATIVES

Regional Initiatives: Dubai Action Plan 2015-2017

Africa

AFR1: Strengthening human and institutional capacity building	6
AFR2: Strengthening and harmonizing policy and regulatory frameworks for the integration of African telecommunication/ICT markets	22
AFR3: Development of broadband access and adoption of broadband	44
AFR4: Spectrum management and transition to digital broadcasting	60
AFR5: Building confidence and security in the use of telecommunications/ICTs	68

Percentage of classroom training (Face to face) and online training in centers of excellence for the period 2010 to 2014.

**Centers of Excellence
Selected for AFRICA Region for 2015-2016 according to WTDC-14 –Resolution 73**

#	Priority Areas Recommended	Recommended Institutions	Country
1	Policy and Regulation	Digital Bridge Institute(DBI)	Nigeria
2	Broadband Access & Digital Broadcasting	Ecole Supérieure Multinationale des Télécommunications (E.S.M.T)	Senegal
3	Cyber security	ESATIC	Ivory Coast
4	Cyber security	University of Rwanda, College of Science and Technology	Rwanda
5	ICT Applications and Services	Centre for Learning, Telkom SA	South Africa
6	Broadband Access & Spectrum Management	AFRALTI	Kenya

2 Committed to Connecting the World  

Geographical modular implementation of priorities

- Reflect **sub-regional heterogeneity** in terms of ICT market development and status of harmonization initiatives in four AU geographical regions

Global	<ul style="list-style-type: none"> Comparison of regional harmonization initiatives (see next slide) Monitoring and evaluation / Regulatory benchmarking Cross-border frequency coordination: harmonized calculation method (HCM) Input to African Union's Open Access guidelines 			
Regional	<p style="text-align: center;">West Africa</p> <ul style="list-style-type: none"> WATRA guidelines on submarine cables 	<p style="text-align: center;">Central Africa</p> <ul style="list-style-type: none"> ECCAS Model Legislation (interco., licensing, USO, etc.) ECCAS and CEMAC Cybersecurity Acts 	<p style="text-align: center;">East Africa</p> <ul style="list-style-type: none"> CERT capacity building for EAC Cost Modeling for COMESA 	<p style="text-align: center;">Southern Africa</p> <ul style="list-style-type: none"> SADC Policy and Legal Framework Review CRASA Universal Service Guideline
National	<p style="text-align: center;">West Africa</p> <ul style="list-style-type: none"> Technical assistance for national implementation of regional model legislation: Transposition of ECOWAS & UEOMA Community Acts 	<p style="text-align: center;">Central Africa</p> <ul style="list-style-type: none"> Transposition of ECCAS Model Laws & CEMAC Directives 	<p style="text-align: center;">East Africa</p> <ul style="list-style-type: none"> Implementation of COMESA Model Law in Member States 	<p style="text-align: center;">Southern Africa</p> <ul style="list-style-type: none"> Implementation of updated SADC framework

AFR2 – IMPLEMENTATION SINCE JANUARY 2015

- NATIONAL BROADBAND PLAN – Guidelines and Model for SADC Region develop and validated.
- Two countries being assisted in the development of their respective Broadband Policy (Namibia and Swaziland)
- Assistance to South Sudan New Regulatory Authority.

Africa Regional Initiative 3: Development of broadband access and adoption of broadband

AFRICA REGIONAL INITIATIVES

(HAP PROGRAMS FOCUS IN THE IMPLEMENTATION OF THE RI)

Development of a broadband infrastructure and achievement of regional interconnectivity and universal access

- Projects to assist countries e.g.
 - ITU/McCaw Foundation wireless broadband. With AfDB, ITU assisted East Africa Community Secretariat to do a gap analysis for bankable project investment
 - With the Korean Government, ITU currently implementing Master Plan for wireless broadband access
 - with the World Bank, the CAB project in CAR, Chad and Cameroon and the interconnection between Chad and Cameroon

33

ITU AND UPU INITIATIVE

- MAKING USE OF RURAL POSTOFFICES TO:
 - SERVE THE COMMUNITY WITH ICT SERVICES
 - BOOST THE POST OFFICE SUSTAINABILITY
- SMALL RURAL ENTERPRENEOUR TO PARTNER WITH POST OFFICE TO USE THE INFRASTRUTURE
- TEST A BUSINESS MODEL ON WHICH MOBILE MONEY TRANSACTION INCLUDING REMITANCE COULD PAY FOR CONNECTIVITY

ARR RI 5: Building confidence and security in the use of telecoms/ICT

Regional development Forum- Dakar

ITU mandate on cybersecurity

2003 – 2005
 WSIS entrusted ITU as sole facilitator for WSIS Action Line C5 -
 “Building Confidence and Security in the use of ICTs”

2007
 Global Cybersecurity Agenda (GCA) was launched by ITU Secretary General
 GCA is a framework for international cooperation in cybersecurity

2008 to date
 ITU Membership endorsed the GCA as the ITU-wide strategy on international cooperation.

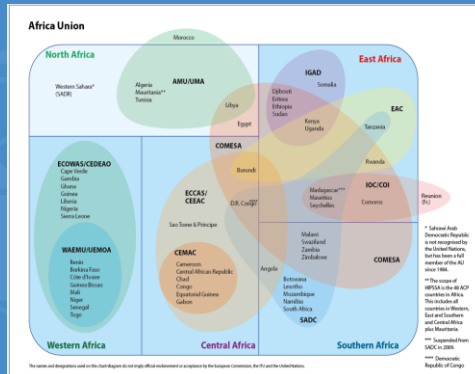

Building confidence and security in the use of ICTs is widely present in **PP and Conferences’** resolutions. In particular WTSAs 12, PP 10 and WTDC 10 produced Resolutions (WTSAs 12 Res 50, 52, 58, PP Res 130, 174, 179, 181 and WTDC 45 and 69) which touch on the most relevant ICT security related issues, from legal to policy, to technical and organization measures.

HIPSSA PROJECT

- Harmonization of the ICT Policies in Sub-Saharan Africa
- Sub-regional programs:
 - 1) East Africa
 - 2) Central Africa
 - 3) Southern Africa
 - 4) West Africa
- Regional Outcomes on Cybersecurity
 - ECOWAS cybersecurity guidelines
 - ECCAS Model Law / CEMAC Directives on Cybersecurity
 - SADC model law on data protection/ e-transactions/cybercrime
- In-Country Technical Assistance

National CIRT Programme in Africa

- Assessments conducted for **24** African countries
- Implementation completed for **7** African countries
- Implementation in progress for Burundi
- First Cyber drill conducted in Zambia end of September with participation of over **16** countries and AFRICACERT Team
- Second Cyber drill conducted in Kigali on the beginning of May with participation of more than 150 participants from 18 countries

COP Programme

The **Child Online Protection (COP) Initiative** aims at bringing together partners from all sectors of the global community to ensure a safe and secure online experience for children everywhere.

Objectives

- Identify risks and vulnerabilities to children in cyberspace;
- Create awareness of the risks and issues through multiple channels;
- Develop practical tools to help governments, organizations and educators minimize risk;
- Share knowledge and experience while facilitating international strategic partnership to define and implement concrete initiatives
