

ITUWorkshop

The future of television for Europe

7 November 2024
Geneve, Switzerland

itu.int/en/ITU-R/seminars/Future-of-TV-Europe

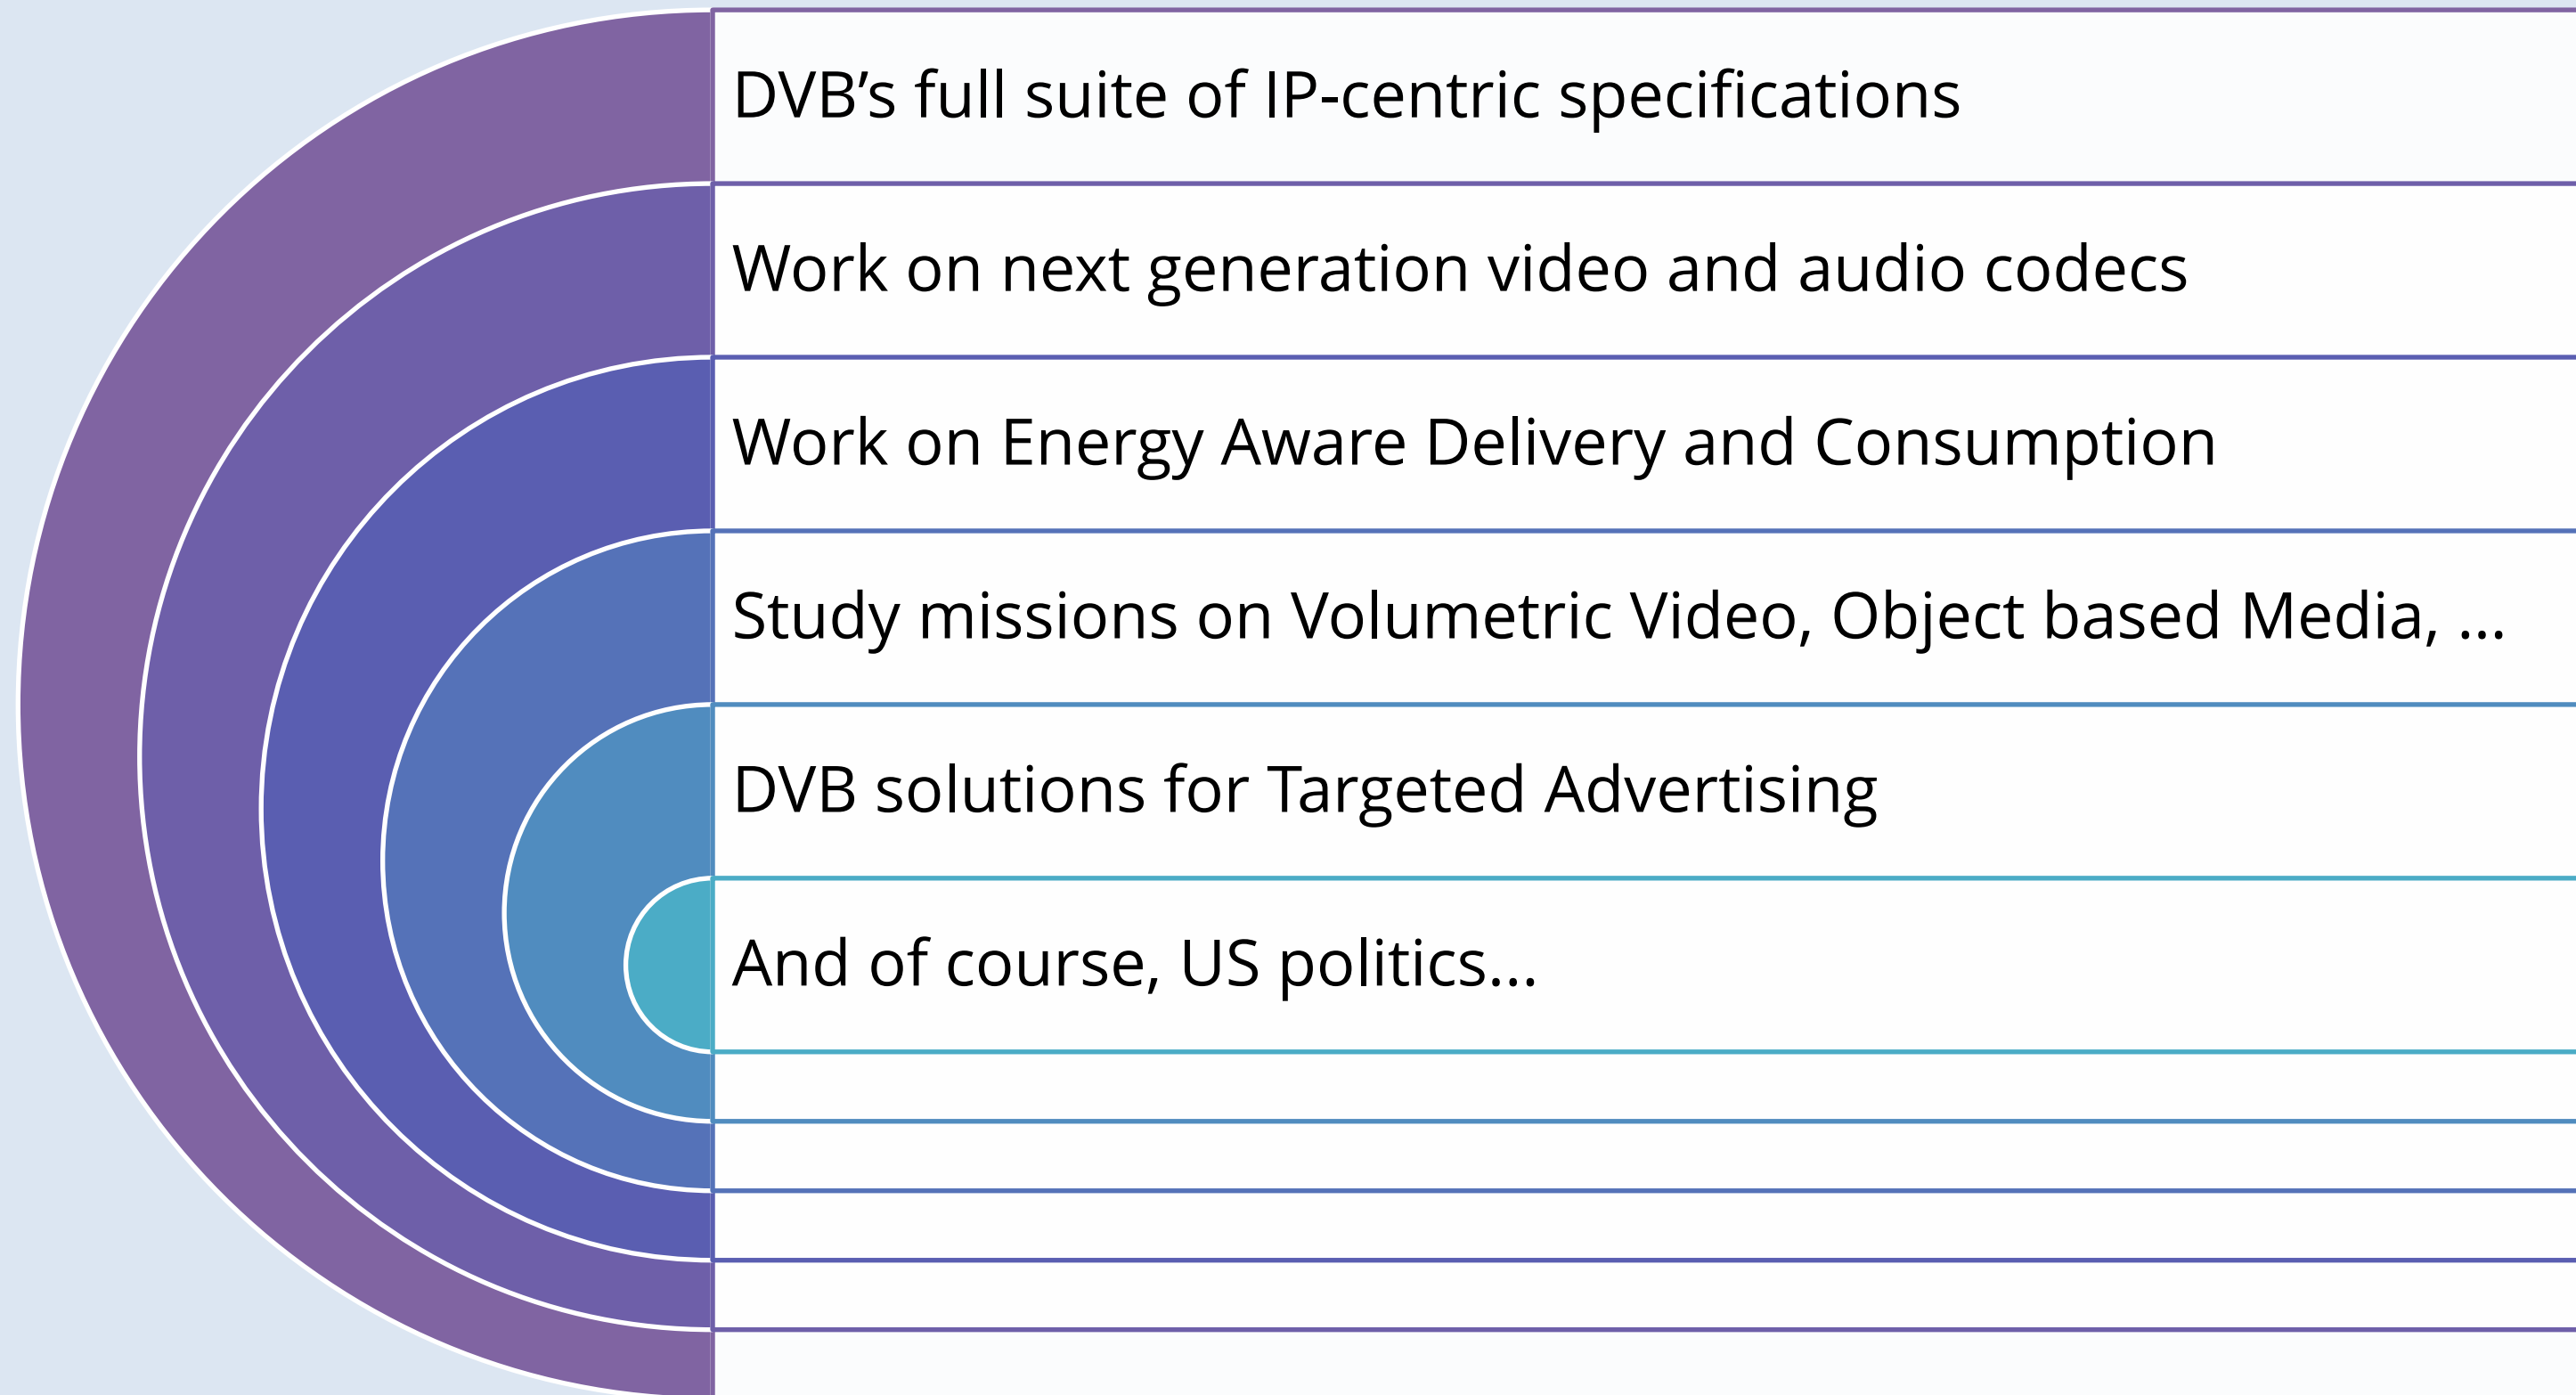

Embrace (network) diversity! DVB-I at the heart of TV's future

Emily Dubs
Head of Technology

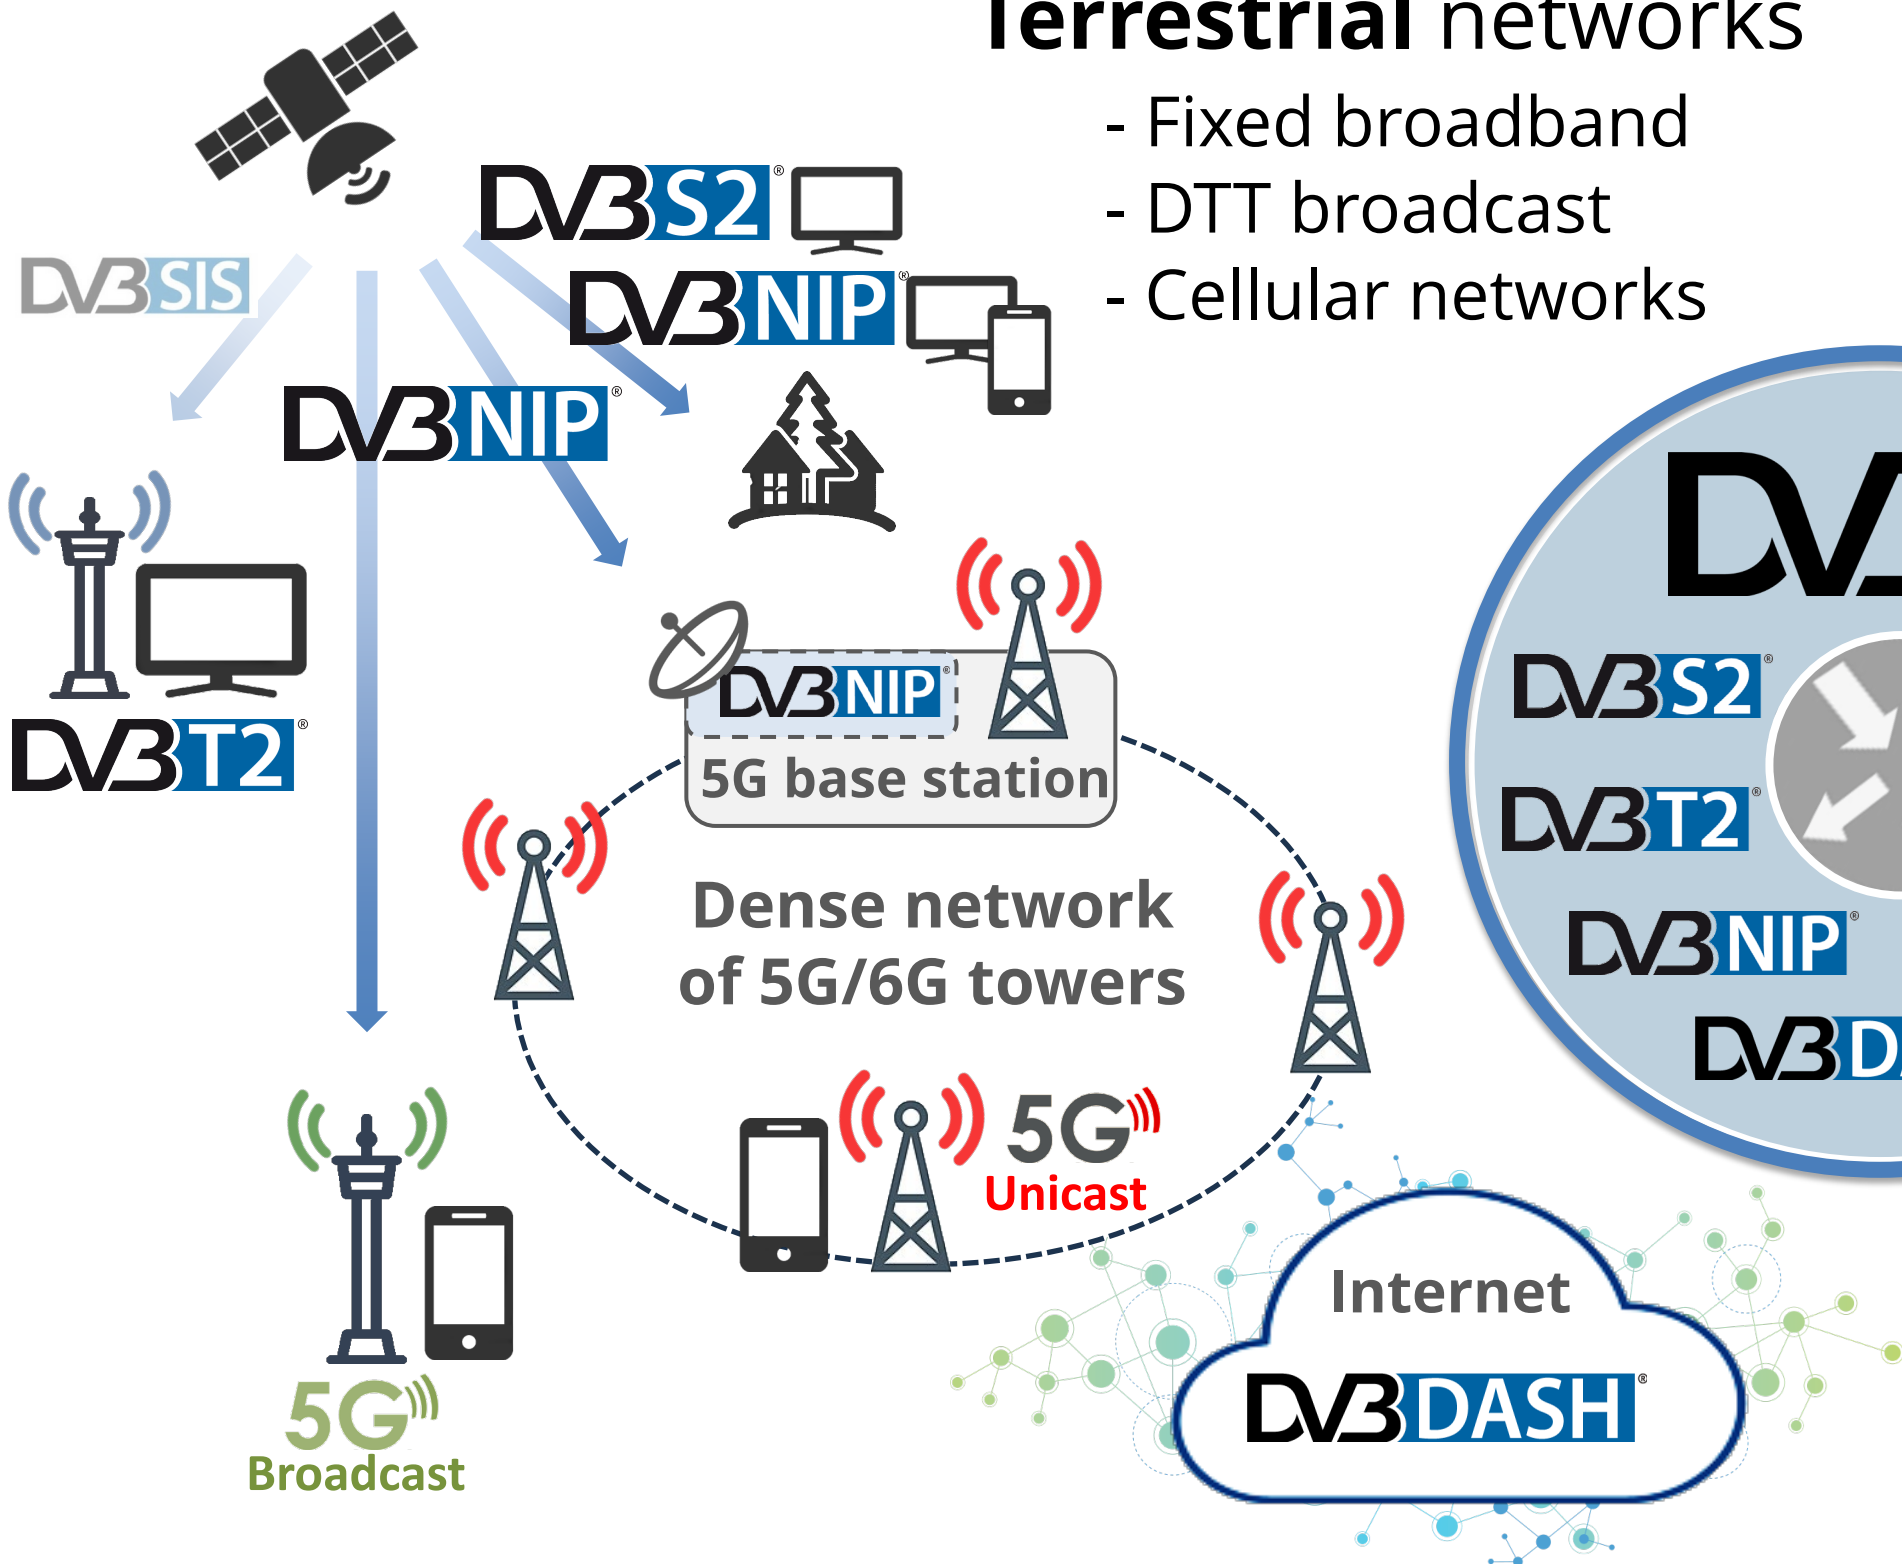

Un-agenda (what I won't talk about)

DVB-I network-agnostic service layer: at the heart of future TV delivery

Satellite feeds & complements
Terrestrial networks

- Fixed broadband
- DTT broadcast
- Cellular networks

DVB-I now supports **5G**
Rel.16 technologies

Some relevant literature

EBU

OPERATING EUROVISION AND EURORADIO

MISSION TO M.A.R.S.

STRATEGY FOR THE COMMUNICATION INFRASTRUCTURE FOR
ESSENTIAL SERVICES

WHITE PAPER

OCTOBER 2024

This publication was created with accessibility tools such as screen readers in mind

How IP-based broadcast meets 5G for resilient and sustainable media distribution

Emily Dubs
