**Subject: ITU Regional Radiocommunication Seminar 2019 for CIS and neighbouring countries
(RRS-19-CIS), Tashkent, Uzbekistan, 10-14 June 2019**

Madam, Sir,

I am pleased to inform you that, at the kind offer of the [Ministry for Development of Information Technologies and Communications](#) (MITC) of the Republic of Uzbekistan, the [International Telecommunication Union](#) (ITU), is organizing the [Regional Radiocommunication Seminar 2019 for CIS and neighbouring countries](#) (RRS-19-CIS), in collaboration with the [Regional Commonwealth in the field of Communications](#) (RCC) to be held in Tashkent from 10 to 14 June 2019.

The RRS-19-CIS will be organized in three parts (see Annex):

- Plenary Session

The first part of the seminar (half day) will cover ITU-R structure, ITU Radio Regulations (RR), preparations to the World Radiocommunication Conference (WRC), an introduction to the activities of the ITU-R Study Groups and some other general issues.

- Workshops

During the following part (three and a half days), workshops will be carried out on the application of regulatory procedures for space and terrestrial services, including coordination, notification and examination of frequency assignments, as well as on the use of the BR software, databases and electronic publications.

- Forum

The Seminar will conclude with a one day Forum on: *“Trends in Spectrum Management and Emerging Radiocommunication Technologies”*.

In addition, a pre-seminar web tutorial will be available on the Seminar's website with the basic concepts of spectrum management at national and international levels and other related information to assist in the preparation of the participants to the seminar.

Website

All relevant information regarding the event (agenda, registration, visas, practical information, etc.) will be available on the Seminar's webpage: www.itu.int/go/ITU-R/RRS-19-CIS. As this information may be updated or complemented without notice, it is recommended that you visit the webpage regularly.

Languages

The Seminar will be held in Russian, please note that some software tools will be in English only.

Format

The Seminar will be conducted in a "paperless" environment, i.e. the Seminar documentation will be available on the website. Participants are required to bring their laptops, performing the set of minimal specifications detailed on the Seminar's website.

Registration

Member States, ITU-R Sector Members, Associates and Academia from CIS and neighbouring countries are invited to attend the Seminar. Its attendance is free of charge for their representatives. Registration for this event is carried out exclusively online, through their respective designated focal point (DFP). The list of DFPs for ITU-R activities, including this Seminar, is available at the indicated website. Advance registration of all participants is strongly advised. Unannounced participants might face further delays at the on-site registration desk. For those Member States/Sector Members wishing to modify the indicated DFP or for any further information, please contact the ITU-R Delegate Registration Unit at ITU-R.Registration@itu.int.

Venue, Accommodation and Visas

Information on the Seminar venue, accommodation, visa matters and other practical arrangements are provided on the "General Information" document, available at the Seminar's website. Please note that citizens of some countries are required to obtain a visa in order to enter Uzbekistan. Please refer to instructions in this regard in the above-mentioned documents.

Fellowships

Recognizing the difficulties faced by low-income countries, the ITU offers one partial fellowship per eligible country of the CIS Region and neighbouring countries, with priority given to requests coming from least developed countries (LDCs). Fellowships should be requested by designated focal points during the online registration process (see "Registration" above) and must be submitted before 17 May 2019.

Yours faithfully,

Mario Maniewicz

Annex: 1

- Copies: - Mr Nurudin N. Mukhitdinov, Director General, Executive Committee of the Regional Commonwealth in the field of Communications (RCC)
- Ms Doreen Bogdan-Martin, Director, Telecommunication Development Bureau, ITU
- Mr Kirill Oparin, Head of Regional Office for CIS, ITU

Annex: Draft Programme
 ITU Regional Radiocommunication Seminar 2019 for CIS and neighbouring countries (RSS-19-CIS)
 Tashkent, Uzbekistan, 10-14 June 2019

Timeline	Seminar		Workshop		Forum Friday 14 Registration
	Monday 10	Tuesday 11	Wednesday 12	Thursday 13	
9:00 a.m. to 10:30 a.m.	<p>Registration</p> <p>Opening Ceremony: ITU, RCC, MITC Uzbekistan ITU and ITU-R at a Glance: ITU, ITU-R, WRC, RA, RAG, RRB, BR, SGs ITU-R Study Groups: SGs and WPs Working Methods, ITU-R Publications, ITU-R Research Tool</p>	<p>Terrestrial Services: Regulatory Framework Overview of terrestrial services BR Web site - Terrestrial Services International Monitoring Harmful Interference</p>	<p>Terrestrial Services: Exercises on preparation of Fixed and Mobile notices / Broadcasting notices</p>	<p>Space Services: Earth Stations - Coordination and Notification (Capturing of Earth Station for coordination Creation of Earth Station coordination contours)</p>	<p>Opening Ceremony: ITU, RCC, MITC Uzbekistan Trends in Broadband Radiocommunication Technologies IMT-Advanced (4G), IMT-2020 (5G), IoT Criteria and methods for ensuring EMC between systems of various mobile standards</p>
10:30 a.m. to 11:00 a.m.	<i>Coffee Break</i>				
11:00 a.m. to 12:30 p.m.	<p>Radio Regulations (RR): Main Concepts / Table of Frequency Allocations RR and National SM / RR Tools World Radio Conference (WRC): Main Concepts; Structure WRC Preparation Process WRC-19 Agenda Terrestrial Services WRC-19 Agenda Space Services</p>	<p>Terrestrial Services: FXM Plans Broadcasting Plans Terrestrial Notification BR IFIC (Terrestrial Services)</p>	<p>Terrestrial Services: Broadcasting Stations GE06 Agreement and Software Tools</p>	<p>Space Services: Regulatory / Technical Examinations of AP30/30A/30B submissions Regulatory / Technical Examinations of non- planned services</p>	<p>Digital Terrestrial TV (DTT) and Digital Dividend (DD) Regional Status</p>
12:30 p.m. to 01:30 p.m.	<i>Lunch Break</i>				
01:30 p.m. to 03:00 p.m.	<p>Space Services: Overview of Coordination and Notification Procedures (Non-Planned Space Services) Space FSS and BSS Plans</p>	<p>Beginning of the workshop (Terrestrial Services): TerRaQ TerRaNotices BR IFIC Installation WSFAT</p>	<p>Terrestrial Services: Broadcasting Stations GE84 Agreement and Software Tools Broadcasting Web Tools, e-MIFR</p>	<p>Space Services: Processing, Validation and Modification of AP30/30A/30B submissions Harmful Interference</p>	<p>New Satellite Systems and trends using Small Satellites Organization and procedures for radiomonitoring of space services</p>
03:00 p.m. to 03:30 p.m.	<i>Coffee Break</i>				
03:30 p.m. to 05:00 p.m.	<p>Space Services: Introduction to BR Space Software and Databases Harmful Interference (SIIRS) Receivability of Space Notices and e-submission (Resolution 908) BRIFIC (Space Services) and Preface</p>	<p>Terrestrial Services: Exercises on preparation of Fixed and Mobile notices</p>	<p>Space Services: Commenting procedures on satellite Special Sections (Exercise on SpaceCom)</p>	<p>Space Services: Examination of AP30B/A6B e-Submission Exercise</p>	<p>New Radio Technologies and spectrum management methods, Radiomonitoring by drone Interference protection of radioastronomy in the millimeter band (example of radioastronomy station on the Suff Plateau - presentation from Uzbekistan) Round table discussion</p>
