Coordination Agreement Capture Tool

Danny Tham

Senior Radiocommunication Engineer

Space Services Department

Radiocommunication Bureau, ITU

danny.tham@itu.int

2-6 December 2024, Geneva, Switzerland

WRC-19 Outcome 1

The Bureau reported difficulties in treating consistently the coordination status information that is provided in cover letters of administration during the notification of their satellite networks to WRC-19

Tool developed for administrations to communicate coordination status in relation to affected administrations at group level

Communicated in CR/483 dated 25 March 2022

Implemented in BR IFIC 2968 in April 2022

WRC-19 Outcome 2

When carrying out examination under RR No. **11.32A** to also take into account coordination agreement status with satellite networks of affected administrations at notice level when such information is provided for the notification of geostationary satellite networks, so that the notifying administration may benefit from the coordination agreements already obtained.

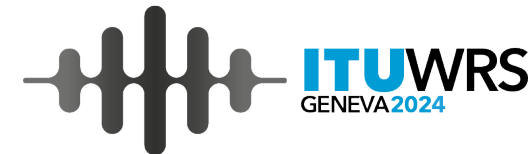

This information is optional

Implemented in BR IFIC 2945 in May 2021

CR/483 dated 25 March 2022

- For notifications or resubmissions received from 1 July 2022, the BR will not take into account in the examination of the notices any additional information provided in cover letters relating to the status of coordination agreements.
- Resubmission of a notification notice will not be considered receivable if it is not submitted through the e-Submission system.

Features of the tool to update coordination status

- Wizards implemented within the BR software SPACECAP
- User friendly interface
 - filters to facilitate maneuverability in notice to capture the coordination status with affected administrations at group level
- Coordination requirements retrieved for more accurate reporting
 - First notification
 - Coordination Request Notice
 - Resubmission
 - Notice returned and published under Part-3S
- Check if coordination requirements is still valid with an affected administration

GeoStationary Notice:1

Notice Station Beam Strapping Noise Gamma

Notice Id: 1 AP4/II and AP4/III (Appendix 4 - Annex 2A) 17.10.2019 Status 01

Notice submitted under/for:

☐ No. 9.6 Coordination ☒ No. 11.2 Notification First Notification

☐ No. 9.11A Applies ☐ Bands 21.4 to 22 GHz Special Procedure

☐ Specific Earth Station Coordination under No. 9.7A ☐ Earth Station Coordination under No. 9.21

☐ Earth Station Coordination between Administrations under No. 9.17

Date: DD.MM.YY 04.07.2019 Administration Serial Nbr

A1f1. Notifying Administration G

A1f3. Intergovernmental Satellite System

A1f2. Notice submitted on behalf of these administrations.

Notice intended for:

☒ Addition ☐ Modification ☐ Suppression

BR Identification No. of Station to be modified/suppressed

Type of Satellite Network or Earth Station

☒ GeoStationary Satellite Network ☐ NonGeoStationary Satellite Network

More...

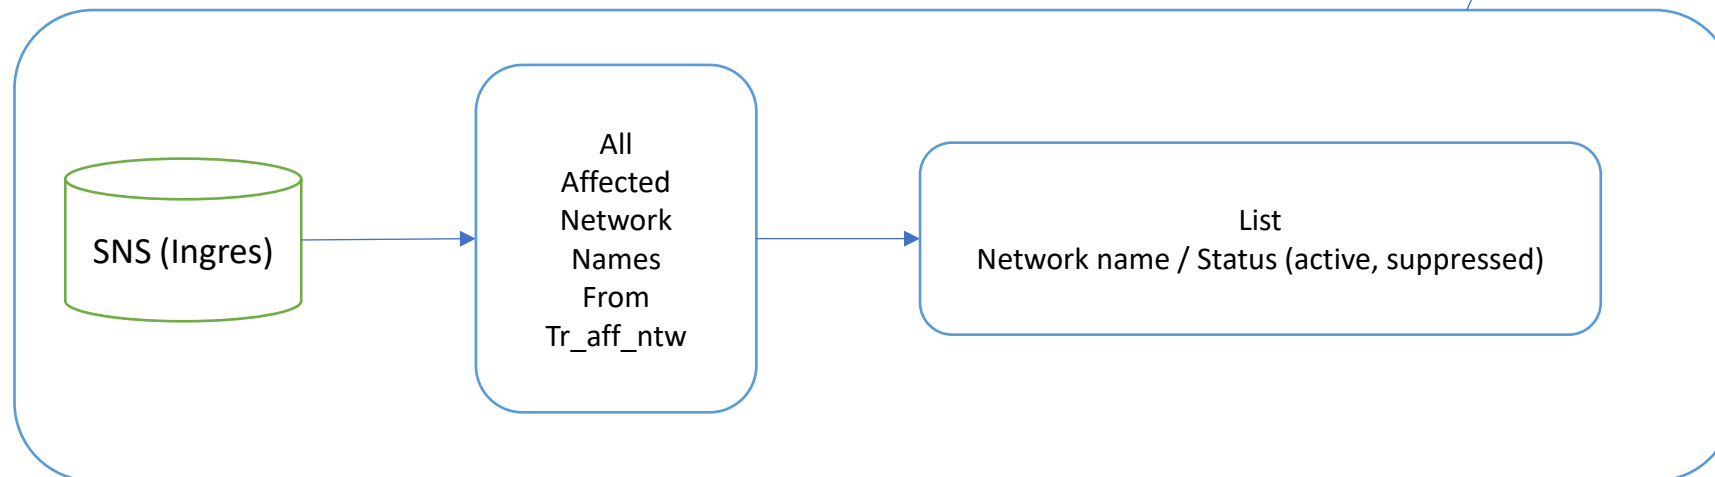

Wizard includes check if coordination requirement is still valid with an affected administration

Implementation

ITU Based Regular Job

Treatment of agreement status with an affected administration at group level

- If the “agreement obtained” status is indicated with an affected administration, the Bureau will
 - consider the coordination procedure has been completed with that administration
 - will not determine whether the satellite networks of the other administration have been suppressed or not
 - give a favourable finding under No.11.32
- If no “agreement obtained” is indicated with respect to an affected administration, the Bureau will
 - consider that coordination has not been obtained with that administration
 - carry out examination to check if there is still coordination requirement with that administration
 - consider that coordination has not been completed with that administration if there is still coordination requirement, and an unfavourable finding under No.11.32 will be given.

- Does not include Article 2A of AP30/30A notification and Planned Services notification

Group Level Agreement Tool User Interface and Features

- **Layout of information in the Group Level Agreement table**
 - **General Information on top**
 - **Provisions tabs**
 - **Grouping of information**
- **Add and remove administration not listed as affected feature**
- **Administration indicated with an asterisk (no longer affected)**

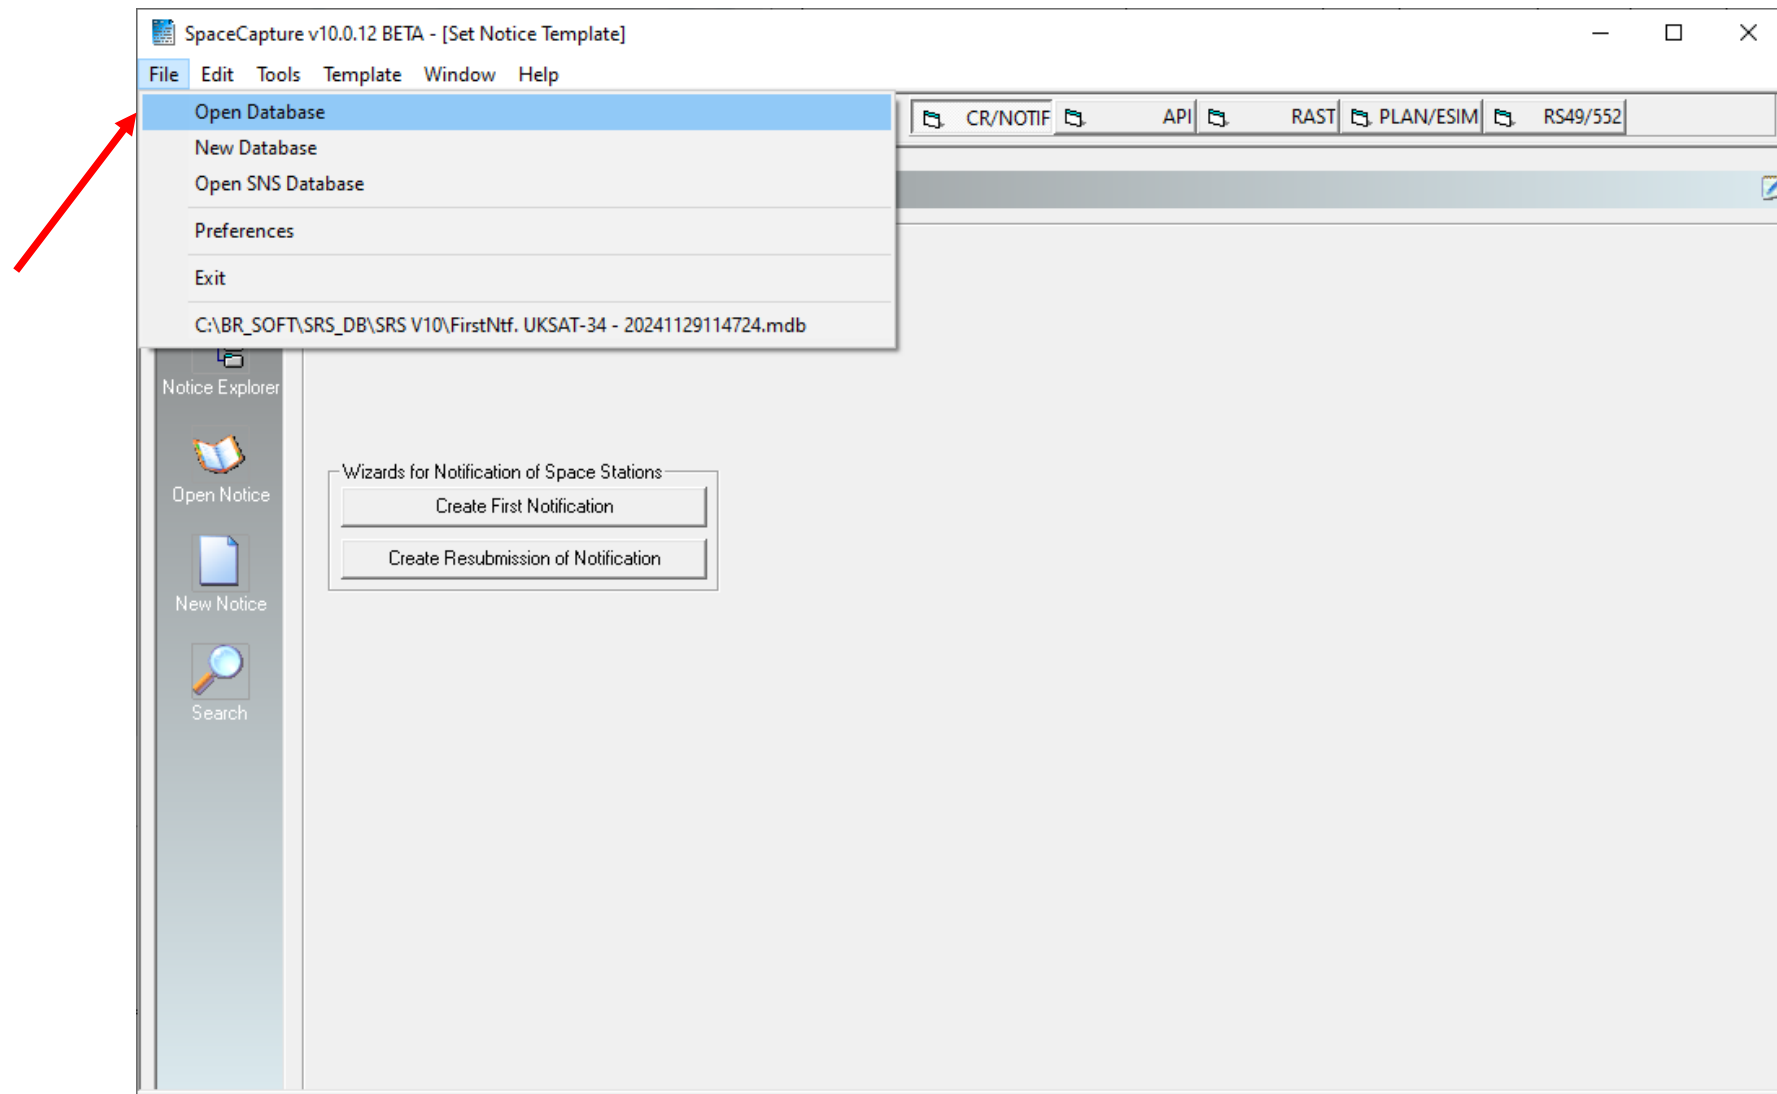

- **Capturing Coordination information**
 - **Groups with affected and not affected administrations**
 - **Vertical agreement Fill**
 - **Horizontal agreement Fill**
 - **Beam Level agreement Fill**
 - **Agreement all groups Fill**

- **Filter Features**
 - **Using filter tool to capture coordination agreements**
 - **beam, the direction of transmission, group id nos., min and max frequencies, service area no. or combination of these parameters**
 - **Clear filter**
- **Save Captured Agreements**
- **Summary report of Captured Coordination Agreements**

CR/NOTIF API RAST PLAN/ESIM RS49/552

GeoStationary Notice:1

Notice	Station	Beam	Strapping	Noise Gamma
--------	---------	------	-----------	-------------

Notice Id: 1 AP4/II and AP4/III (Appendix 4 - Annex 2A) 17.10.2019 Status 01

Notice submitted under/for:

☐ No. 9.6 Coordination ☒ No. 11.2 Notification First Notification

☐ No. 9.11A Applies ☐ Bands 21.4 to 22 GHz Special Procedure

☐ Specific Earth Station Coordination under No. 9.7A ☐ Earth Station Coordination under No. 9.21

☐ Earth Station Coordination between Administrations under No. 9.17

Date: DD.MM.YY 04.07.2019 Administration Serial Nbr

A1f1. Notifying Administration G A1f2. Notice submitted on behalf of these administrations. + x

A1f3. Intergovernmental Satellite System

Notice intended for:

☒ Addition ☐ Modification ☐ Suppression

BR Identification No. of Station to be modified/suppressed

Type of Satellite Network or Earth Station:

☒ GeoStationary Satellite Network ☐ NonGeoStationary Satellite Network

Group Level Agreement Satellite Network List

Launch Wizard?

Do you want to launch Satellite Network List Update Wizard?

Yes

No

Go to TAB Satellite Network List No 9.7

Select from the list those satellite networks with which coordination was completed

BRSIS - Coordination Agreement Capture v9.0.0.17
