

BR IFIC 2824 – NEWS

Implementation of decisions of the World Radiocommunication Conference (Geneva, 2015) (**WRC-15**) related to earth stations on board unmanned aircraft (Resolution **155 (WRC-15)**)

Introduction of a new Class of station symbol **UG**, for earth stations providing unmanned aircraft system control and non-payload communication (UAS CNPC) links.

The updated **Table 3** for the Preface will be available for on-line consultation at <http://www.itu.int/ITU-R/space/preface/index.html> and also on the current **BR IFIC (Space Services) 2824/19.07.2016** and onwards.

The updated BR software package for electronic notification, validation and query of satellite networks (SpaceCap, Spaceval and SpaceQry) with the new symbols will be available for download at <http://www.itu.int/ITU-R/go/space-software/en> and also on the current **BR IFIC (Space Services) 2827/30.08.2016** and onwards.

For more information see the BR Circular Letters **CR/407**
