

BR IFIC 2837 – NEWS

The Radiocommunication Bureau is pleased to inform your Administration that a restructured Space Network System database version 8.0 (SNS 8.0) and an accompanying software package of updated electronic notification software applications (Space Applications Manager (SAM), capture (SpaceCap), query (SpaceQry), conversion (SRSCovert), GIBC, publication (SpacePub) and validation (SpaceVal)) of BRsoft version 8.0 (BRsoft 8.0), fully reflecting all the modifications and additions made by WRC-15 to Appendix 4, is available in the current BR IFIC 2836.

Software in: \BR_Soft

Databases in \Databases

As from 1 January 2017, administrations are required to use the new BRsoft 8.0 when submitting space service notices to the Bureau under Articles 9 and 11 and Appendices 30, 30A and 30B of the Radio Regulations, Resolutions 49, 552 and 553.

For more information see circular letter [CR/411](#) of 1 December 2016.

In accordance with Resolution 55 (REV.WRC-15), “*as-received*” notices will be made available only on the ITU website, and no more on the BRIFIC DVD.

Please be informed that, notices received as of 1.1.2017 will no longer be available on the BRIFIC DVD, and will be made available only on the ITU website – **SNL Part C**:
