

## **BR IFIC 2898 – NEWS**

### **Cessation of SNL Quarterly Publication**

Noting the availability of online tools to query the various databases related to satellite systems and the regular updates to these databases, the Radiocommunication Bureau would like to inform Administrations that it will no longer generate nor publish the **quarterly publication** of the list of space networks and earth stations in the BR IFIC (space services) on DVD-ROM. This quarterly publication will therefore no longer be available on the Bureau's website.

The Radiocommunication Bureau invites Administrations to make use of the online services provided by the Bureau, such as SNL online and SNS Online at <https://www.itu.int/ITU-R/go/space/snl/> and <https://www.itu.int/sns/> respectively, where users can use standard or customized queries for getting access to the complete and up-to-date information on all existing and planned space stations and earth stations.
