Implementation of Resolution 907 (Rev.WRC-15) - Availability of a trial version of the application "e-Communications"

The Radiocommunication Bureau is pleased to inform the ITU-R membership of the publication of Circular Letter CR/447 *Implementation of Resolution 907 (Rev.WRC-15) - Availability of a trial version of the application "e-Communications"* on 1st August 2019. This Circular Letter announces that the online application "e-Communications" is now available for beta testing by administrations until 30th September 2019.

In response to Resolution **907** (Rev.WRC-15), an online communication platform "e- Communications" has been developed to allow administrations to send and receive all types of administrative correspondences related to Space Services through an online interface.

Users can access this online application at the following webpage: <https://www.itu.int/ITU-R/go/space-communications>.

Please note that all existing users registered with the "e-Submission for Satellite Network Filings" with Administration Manager or Administration user role as of 30 July 2019 have been automatically added to the test "e-Communications" system with the same roles.

Please participate in the testing of this system and take a moment to get familiar with it by referring to the [Step by Step Guide](#).

For more detailed information, please see [Circular letter CR/447](#).
