Subject: UAE contribution regarding NSAT01.001 satellite network for the Eighteenth ITU-R Resolution 609 (Rev. WRC-07) Consultation Meeting

References: 1) Our Letter No. TRA/SA/21/1096, dated 10/02/2021
2) BR Letter No. 09C(SPR)O-021-000964, dated 4/3/2021

Dear Sir,

With respect to the above subject matter, the administration of the United Arab Emirates (UAE) would like to provide the required information listed in Resolution 609 (Rev. WRC-07) Consultation Meeting Terms of Reference 11b) and 11c) for our NSAT01.001 satellite network.

The administration of the UAE is pleased to confirm that the NSAT01.001 Satellite Network has satisfied the criteria defined in the Annex to Resolution 609 for the launch of NSAT01.001 satellite before the end of 2021. The satellite will contain a RNSS payload operating in the band of 1164-1215 MHz.

The relevant information can be found in the Attachment enclosed with this letter. The UAE administration hopes that the newly provided information would be considered at the Eighteenth ITU-R Resolution 609 Consultation Meeting.

Please take note that the administration of the United Arab Emirates (UAE) will hopefully submit at the Nineteenth Consultation Meeting in 2022 the required information for the new NSAT01 satellite system, comprising of 96 satellites containing a RNSS payload operating in the band 1164-1215 MHz.

The UAE administration would also like to note that as per the letter referenced in “1” above, Engineer Alina Hasbi has been nominated as the point of contact from the UAE administration for Resolution 609 (Rev. WRC-07) Consultation meeting.

We highly appreciate your cooperation on this matter and please contact us for any further information or clarification.

Best Regards,

Tariq Al-Awadhi
Executive Director Spectrum Affairs
