Subject **Submission of Information for the Luxembourg satellite network LUX-G7-9-E2 to be taken into account in the 18th Resolution 609 (Rev. WRC-07) Consultation Meeting**

As the notifying administration of the EGNOS satellite network LUX-G7-9-E2, Luxembourg would like to provide the following information to participating administrations in the Resolution 609 process, and those included in the most recent BR list of all Article 9/11 filings for RNSS frequency assignments in the 1164-1215 MHz band:

I. The Luxembourg administration has been actively contributing since the 7th Resolution 609 (Rev. WRC-07) consultation meeting and provided all required data for the LUX-G7-9-E2 satellite network at the 9th Resolution 609 (Rev. WRC-07) consultation meeting.

II. There has not been any change to the data submitted to the 9th Resolution 609 (Rev. WRC-07) consultation meeting and the same data can be considered for the 18th Resolution 609 (Rev. WRC-07) meeting.

III. The satellite frequency assignments in the 1164-1215 MHz band for the LUX-G7-9-E2 network have been brought into operation on 1 June 2014 (the satellite containing the payload with the said frequency bands, ASTRA 5B, has successfully been launched on 22 March 2014). The necessary information for the Notification and Due Diligence has been submitted to the ITU-BR.

The Luxembourg administration hereby meets the requirements as stated in §12b) of the Resolution 609 (WRC-07) Terms of Reference (MOD, Cyberjaya, September 2019) and as such, the LUX-G7-9-E2 satellite network should be considered at the 18th Resolution 609 (Rev. WRC-07) meeting.

Best regards,

On behalf of the Institut Luxembourgeois de Régulation
