To: All administrations on the list provided by the BR per 11 a) of the Terms of Reference adopted by Resolution 609 (Rev. WRC-07) Consultation Meeting

Cc: Director, Radiocommunication Bureau, ITU

Subject: Submission of Information for Japan's Quasi-Zenith Satellite System (QZSS)

References: 1) Resolution 609 (Rev. WRC-07) Consultation Meeting Terms of Reference (MOD, Cyberjaya, September 2019)
2) List of the RNSS ITU publication reference in the frequency band 1164 - 1215 MHz (As of 08.04.2021)

Dear Madam/Sir,

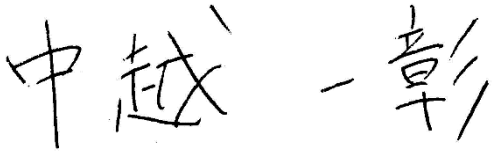

In accordance with the requirements of Resolution 609 (Rev. WRC-07) Consultation Meeting Terms of Reference (MOD, Cyberjaya, September 2019) referenced in above 1) (hereinafter referred to as "the ToR"), the Administration of Japan would present parameters of the Quasi-Zenith Satellite System (QZSS) for consideration at the Eighteenth Resolution 609 (Rev. WRC-07) Consultation Meeting.

This Administration hereby announces that the materials submitted to the Sixteenth Consultation Meeting for the N-SAT-HEO2/QZSS-1/QZSS/QZSS-A satellite systems and the QZSS-GS4/QZSS-GS-A series satellite networks remain applicable for the Eighteenth Consultation Meeting. There have been no material changes in the information previously provided under §11b) and c) of the ToR, and therefore, in accordance with §12 of the ToR, for the purpose of epfd calculations, this Administration need not resubmit this same information as submitted for the Sixteenth Consultation Meeting.

This Administration confirms that the Japanese satellite systems and networks in the List of the RNSS ITU publication reference in the above 2) have satisfied the criteria defined in Annex to Resolution 609 (Rev. WRC-07).

We look forward to a continuing, cooperative and productive Resolution 609 consultation process.

Faithfully yours,

NAKAKOSHI Kazuaki
Director of the International Frequency Policy Office
