Purpose of BR Databases and Software

Radio Regulations

Incorporate the decisions of the World Radiocommunication Conference
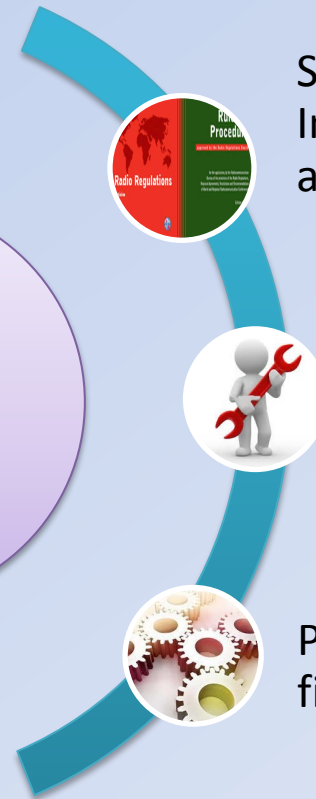

Rules of Procedure

Complement the RR by providing clarification of the application of particular Regulations

BR Space Software And Databases

Streamline the Implementation of the RR and Rules of Procedure

Help you prepare electronic filings according to the RR

Process the electronic filings sent to the BR

Space Network System

  •Delete existing

•Notifications in technical Examination

SNS Databases
## SRS_all.mdb on the BR SPACE IFIC DVD

- **Published every IFIC DVD**
- **Snap-shot of the SNS Master Database**

SNS

Ingres environment

- Coordinations and Notifications in the **Master Register**
- **in Technical Examination**
- **for Advance Publication**
- **for Resolution 49**

SRS

Ms-Access

SNS Databases
IFICnnnn.mdb on the BR IFIC DVD

- **Published every 2 weeks**

- **Part IS** – new frequencies or modifications, cancellations of assignments in the Master Register received by the BR
- **Part IIS** – Updates to the Master Register with Findings
- **Part IIIS** – Notifications returned to ADM with unfavourable findings
- **Special Sections** – Notifications published API/A, CR/C, API/B, CR/D, CR/E, CR/F

SNS Databases
Appendix 30B Database on the BR IFIC DVD

Published on the IFIC

- Appendix 30B
  - Plan, List and Pending Article 6 networks
  - Article 8 of Appendix 30B
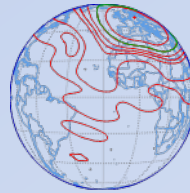

AP30B

Ms-Access

- Download from http://www.itu.int/en/ITU-R/space/plans/Pages/default.aspx

Graphical Data

- **Gims diagrams**
  - **Appendix 4 – GSO and Non GSO Satellites**
 - **Contains Graphical data for both Non-plan and Plan**

- **ESCC Diagrams**
  - **Earth Stations Coordination Contours**

Graphical Data
GIMS Format

- Where to find information on the GXT file format?
  - ➢ Section III Chapter 2 of the Space Preface
- Circular Letter 337

The BR would like you to submit graphical data in the form of the GIMS database. GXT files will no longer be accepted in 2013!
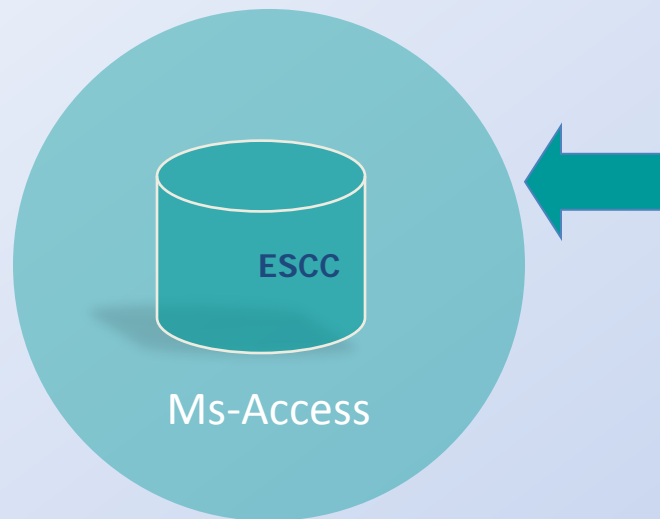

GIMS DB

GXT File Format in Preface

January 1st, 2013
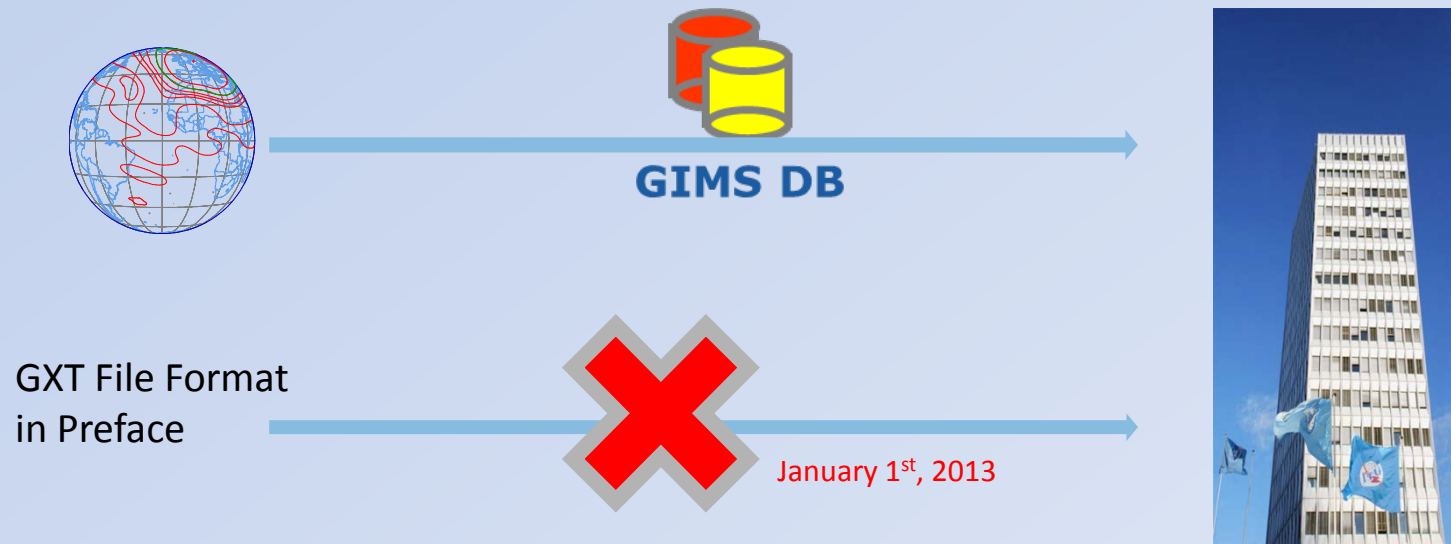

Graphical Data

ESCC Database

Master repository for Earth Station Coordination Contours

Graphical Data for Earth Stations

- **used in-house**
- used by Technical Examination software
- **Available via SNS Online**

Format and Version
- SNS Format and Versioning

SNS Format version 7

- Each World Radio Communication Conference introduces new resolutions and changes to the Radio Regulations

  - **Decisions taken at WRC 2007 : v 6.1** (e.g. AP30B , Sensor Information)
  - **Decisions taken at WRC 2012 : v 7** (e.g. New tables to support the new due diligence procedure for 21-22.4 GHz (RES552), DGSO as new AP4 data)

- Where to find information on the latest V7 SNS Format?
  - Section III of the Space Preface
    Description of the SNS V7 format
