Communication problems with the BR registry?

- Official e-mail address for receiving communication from the Bureau in case of communication problems
see CR/366
- The Bureau has been facing difficulties in informing administrations of its actions in application of the Radio Regulations through telefaxes. The telefax could not be successfully sent to some administrations when using the telefax numbers which have been formally communicated to the Bureau. *Under this circumstance, the Bureau has no other option than to send the same information by surface mail.*
- In addition to the surface mail, *the Bureau is ready to send an e-mail with PDF attachment (scanned telefax) to all administrations whose official e-mail address has been communicated to the Bureau* whenever the communication through telefax would not be successful
- *Correspondences to be sent by administrations to the Bureau should continue to use telefax or surface mail* except the cases where a request for electronic format communication is mentioned in the RR or in the RoP

RECEIVABILITY OF THE NOTICES

Establishment of Date of Receipt (1)

- If a notice does not contain all of the mandatory information as defined in the AP 4 of the RR, or for example - the email from ADM is without attached data or a letter with an empty CD-ROM etc..., further processing of the notice will remain in abeyance and a date of receipt will not be established until the missing information is received
- If all mandatory data have been submitted and further clarification is required concerning the correctness of the mandatory data, the Bureau shall request the ADM to provide the clarification within 30 days
- If the information is received within the 30 days period, the original date of receipt is retained, otherwise, a new date of receipt will be established

Establishment of Date of Receipt (2)

- Nevertheless, for replies received within the above period of 30 days, **a new formal date of receipt (and cost recovery)** is established in those cases (or for the concerned part of the network) where the information submitted subsequently is **outside the scope and beyond the objective** of the Bureau's enquiry, if the **new or modified data has impact on the regulatory and technical examination**, irrespective of whether the newly provided information adds new affected administrations or not.

Conclusions 1

- It is and take extremely important to keep track action within the Time Limits for your networks.
- *Valuable time will be lost (and cost recovery fee)* in applying the procedure all over again **if the time limits are not respected**
- BR may send telefax and Circular Telegrams to remind administrations

Conclusions 2

- However, **administrations are strongly encouraged** to keep track of the regulatory Time Limit, **on their own**, without waiting for the reminder from BR
- The Board may not accept non-receipt of reminders as a good reason for consideration.
- The BR is now posting only CTs and **not individual telefaxes** on the WEB in the following address:
