ITU-R Working Party 5D
Workshop on IMT-2020
Munich, Germany
4 October 2017

Background

- Trans-Pacific Evaluation Group (TPCEG)
 - Initialized in July 2017, and an international, nonprofit, technology-neutral study group formed by ITRI Inc.
 - An independent evaluation group with the aim of analyzing and evaluating IMT-2020 (S)RIT proposals.
- The mission is to promote growth of wireless broadband through collecting and disseminating information that increases public awareness of industry's products and services.

Organization

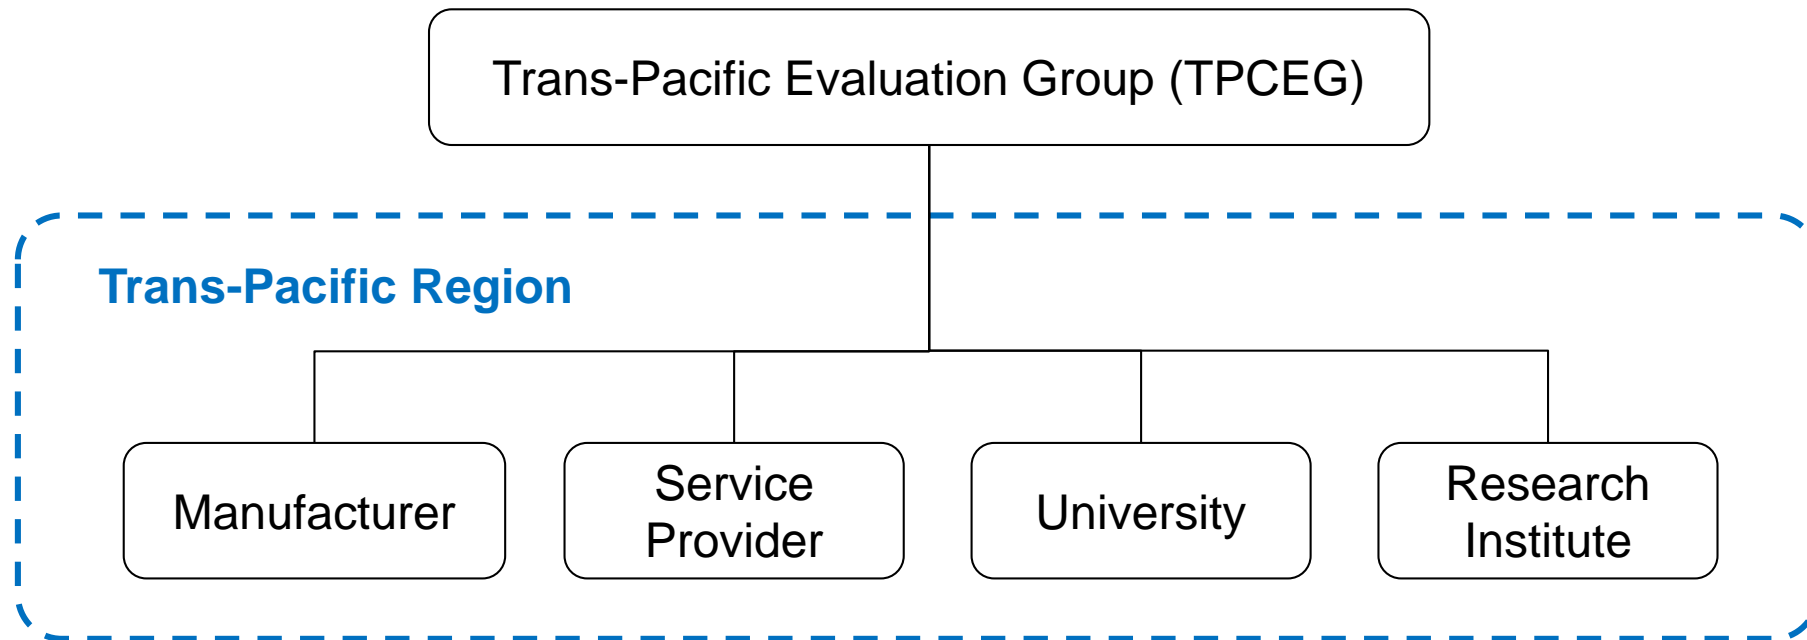

- TPCEG, which is open to the industry and academic units in the Trans-Pacific regions, welcomes joining in the IMT-2020 evaluation activities.
- Participants will be announced in the future

Structure

- TPCEG members are encouraged to submit contributions for IMT-2020 evaluation and other related study
- Individual member can share information and exchange views in equivalence

Objective

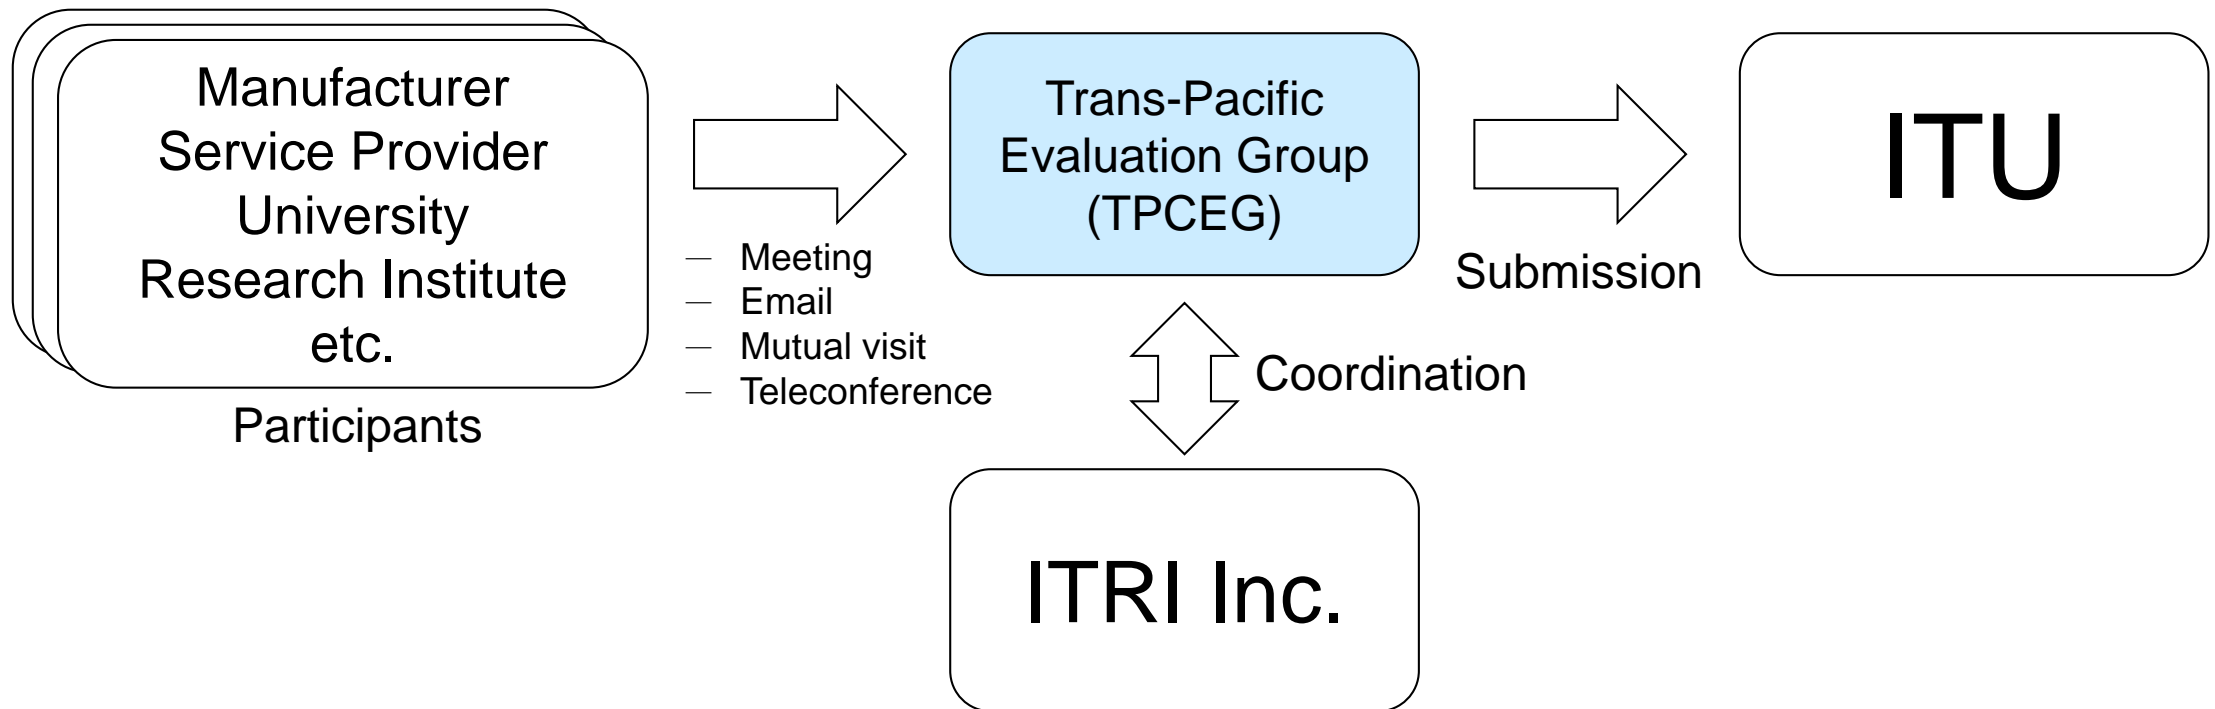

- To encourage and collaborate the development of IMT-2020 industries
- With the procedures guided by ITU-R Doc. IMT-2020/2, the group targets on:
 - Evaluating candidate IMT-2020 technologies against ITU-R criteria
 - Coordinating and sharing information and results with proponents and other evaluation groups
 - Examining and verifying simulation results
 - Preparing evaluation reports for candidate (S)RITs

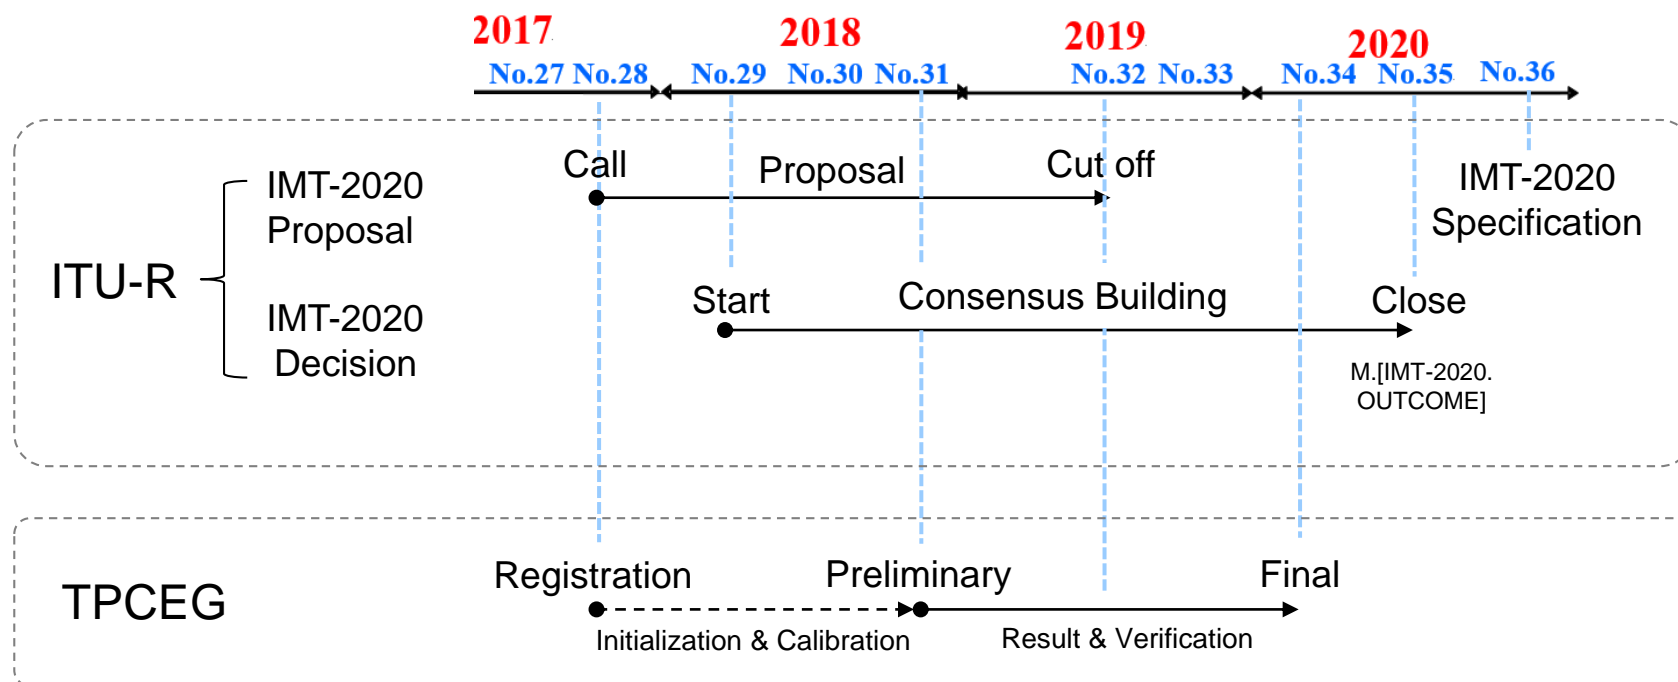

Process

- Contributions are expected from participating organizations
- Study results are discussed with the coordination of ITRI Inc.
- Evaluation will be provided to ITU after internal harmonization

Future Activities and Plan

Milestones		
1	Preliminary evaluation report for IMT-2020	WP5D #31
2	Final evaluation report for IMT-2020	WP5D #34
