

Information Note

Subject: Review of findings for assignments to stations of terrestrial services recorded in the Master Register with favorable findings with respect to No. 11.32 and with the finding observation "Q".

Part IIB of this BRIFIC contains 14 030 frequency assignments to stations in the fixed, mobile and radionavigation services recorded in the MIFR with the finding observation "Q". The favorable findings for these assignments with respect to No. 11.32 were based on earth station information submitted to the Bureau under the provisions of No. 11.9 (after 31 December 1998) or under No. 1488 (before 1 January 1999). This review concerns the following Administrations: ARG, ARM, ARS, BEL, BUL, CAN, E, EGY, ERI, EST, F, FIN, G, I, IRL, IRN, J, JOR, KGZ, KWT, LTU, MDA, MRC, OMA, RUS, SEN, SEY, SNG, SRB, SUI, SYR, TUR, UAE, URG and USA

The Bureau had not received any comment from another administration, within three years following the date of notification of these assignments, with an indication that the concerned assignments were included in a coordination procedure initiated by this latter administration pursuant to Nos. 9.15, 9.17 and/or No. 9.17A in respect to its earth stations, and were not agreed to, or were agreed with different technical characteristics.

These assignments have been reviewed as follows:

The finding observation (13B2) "Q" was deleted.

All other parts of the findings were kept unchanged.

Information Note

Subject: GE06 Special Sections included in BR IFIC 2610

The Radiocommunication Bureau informs that the BR IFIC 2610 contains **Special Section GE06/9** related to broadcasting service in GE06 planning area and bands.

Following the special arrangements related to the processing and publication of notices concerning the **GE06 agreement**, please note that **Special Section GE06/9** is presented as follows:

- *Part A1: 44 digital broadcasting assignments* that can be consulted using the “GE06 Interface” software.
- *Part B1: 30 digital broadcasting assignments* that can be consulted using the “GE06 Interface” software.
- *Part A2: 11 analogue broadcasting assignments* that can be consulted using the “GE06 Interface” or “TerraQ” software.

In addition, BR IFIC 2610 contains the first **GE06L Special Section (GE06L/1)** related to other terrestrial primary services in GE06 planning area and bands. This Special Section GE06L/1 includes:

- *Part A: 4 assignments to other primary services* that can be consulted using the “GE06 Interface” software or “TerraQ” software.

In case of further clarification and/or assistance needed, please contact brtpr@itu.int.
