3) Software tools

TerRaNV: As from BR IFIC edition 2861 of 9 January 2018, the BR has discontinued the distribution of the notice validation program TerRaNV, since all functions of this validation software were fully implemented in TerRaNotices, which is included in the BR IFIC package since 2009. For the validation of notices before their submission to the BR via WISFAT, you may also use the Online Validation tool available at:

<https://www.itu.int/ITU-R/terrestrial/OnlineValidation/Login.aspx>. This tool provides more validation functionalities than TerRaNotices.

BR IFIC installation: If you encounter any problem during installation and usage of the BR IFIC DVDs, please consult the document located at:
