DISCLAIMER

This List is published by the International Telecommunication Union, based on information provided by the administrations of its Member States. The ITU expressly disclaims any responsibility, with respect to this List, for the accuracy of the information it contains, including any defects or failures of the stations described, or for any damage or loss related to use of this List.

1. Introduction

The List of Coast Stations and Special Service Stations (List IV) is issued every two years by the International Telecommunication Union (ITU) in accordance with provision No. **20.7** of the Radio Regulations. List IV is primarily distributed in a digital download format via internet connection. For ships without internet connectivity, List IV is also available on USB and CD-ROM. Users should note that some enhanced List IV features are only available with the digital downloadable version. Once installed and registered, the digital version can be used offline.

List IV contains a searchable database with the details of approximately two thousand five hundred coast stations as officially provided by administrations. It contains information such as operational frequencies and channels, hours and times of services, stations' call signs and Maritime Mobile Service Identities (MMSIs), geographical coordinates, Global Maritime Distress and Safety System (GMDSS) sea areas and comprehensive details of the services provided by coast stations. This information is required for operations in the GMDSS and for maritime general radiocommunications. List IV also contains explanatory reference tables which are described in Section 4.

List IV is an essential reference resource used by vessels and Search and Rescue (SAR) authorities during SAR operations and for day-to-day communications. The requirements for this List to be carried onboard ships are stipulated in **Appendix 16** to the Radio Regulations.

In view of the importance of the information contained in List IV, particularly regarding safety, updates are to be notified as soon as possible by administrations to the ITU Radiocommunication Bureau (BR), in accordance with provision No. **20.16** of the Radio Regulations. Any details observed which may require updating, should be brought to the attention of the administration having jurisdiction over the station(s) concerned, so that the appropriate amendments can be officially notified to the ITU.

In addition to List IV, ITU publishes two other maritime service publications: *the List of Ship Stations and Maritime Mobile Service Identity Assignments (List V)*, and *the Manual for Use by the Maritime Mobile and Maritime Mobile-Satellite Services (Maritime Manual)*. List V is an essential information resource for ships and the maritime industry. It contains details of approximately one million ship stations, the contact information of administrations and accounting authorities, details of coast stations with an MMSI, search and rescue (SAR) aircraft with an MMSI, and groups of ships with common identifiers. The Maritime Manual provides the maritime community with a description of the GMDSS and other maritime operational procedures. It also provides mariners with a compilation of the most relevant ITU treaty, regulatory, technical and operational texts that are relevant to the maritime radiocommunication services. It provides an accessible reference for the application of maritime radiocommunication procedures.

2. Coast Station search

To search for a Coast Station, enter a valid search parameter into one or more of the search fields. Complete or partial terms may be used to initiate a search. Searches can be refined or initiated by selecting from the drop-down filter menus.

Search fields

- Coast Station Name
- MMSI
- Call Sign

Search Filters

- Administration and Geographical Area
- Within a geographical range selected by the user

The screenshot displays the 'List IV 2025' page on the Maritime Publications website. The left sidebar contains navigation links: 'Coast Station search' (selected), 'Coast Station map', 'My List of Coast Stations', 'Aids to Navigation search', 'Reference Tables', and 'User Guide'. Below these links is a publication registration form with fields for ship name, call sign, and MMSI, along with an expiry date. The main content area is titled 'Coast Station search' and features a search form with the following elements:

- A text input field for 'Coast Station Name'.
- A text input field for 'MMSI'.
- A dropdown menu for 'Call Sign'.
- A dropdown menu for 'Administration' (currently showing 'AFS Argentina').
- A section for 'Max. Distance From' in 'NM' with input fields for 'Latitude' (00° 00' 00") and 'Longitude' (000° 00' 00").
- 'Clear' and 'Submit' buttons at the bottom right of the search form.

The bottom left of the page includes a 'Publications verification' section with a QR code and a 'Certificate' link.

2.1. Search field description and parameters

Coast Station Name:

The official name of the Coast Station.

- **Field parameters:** Maximum length of 50 characters. ASCII printable characters only.

Searches can be initiated by entering an incomplete or partial Coast Station name.

Maritime Mobile Service Identity (MMSI)

- Coast stations and other stations on land participating in the maritime radio services should be assigned a nine-digit unique coast station identity in the format $0_1 0_2 M_3 I_4 D_5 X_6 X_7 X_8 X_9$ where the digits 3, 4 and 5 represent the Maritime Identification Digit (MID) and X is any figure from 0 to 9. The MID reflects the administration having jurisdiction over the coast station or coast earth station.
- **Field parameters:** Digits only. Maximum input 9 digits beginning with 00.

Searches can be initiated by entering an incomplete or partial MMSI.

Call Sign

Call signs are assigned by the responsible administrations to stations of the maritime mobile service in accordance with

Article 19 of the Radio Regulations. Call signs are formed

following the international Call Sign series of **Appendix 42** to the Radio Regulations and, as indicated in provision No. **19.52** of the Radio Regulations, are as follows:

- two characters and one letter, or
two characters and one letter, followed by not more than three digits (other than the digits 0 and 1, in cases where they immediately follow a letter).
- Field parameters: Letters and digits only. Maximum length 6 characters.

Searches can be initiated by entering an incomplete or partial call sign.

2.2. Search filter descriptions

Administration and Geographical Area

The administration or geographical area with jurisdiction over the Coast Station. Identified by a designated one- or three-character symbol and the name of the administration or geographical area (see reference Table 1 - Administration Designated Symbol).

Search within a defined circular area

Enter the geographical coordinates of the centre point and the radius of the circle in nautical miles (NM). Coast Stations within the defined circular area will be listed.

2.3. Coast Station search results

- Results can be displayed in a list or on the map. Click the Table or Map button to select between the results view.
- Results are listed by Coast Station Name and can be sorted or reorganised by clicking on any of the column headers.
- For searches by Coast Station Name, full or partial matching results are listed with the searched text highlighted in blue.
- The number of results is displayed at the bottom right of the page.
- Results can be further refined by searching within the list of results.
- To view the full details of a Coast Station, double-click on the relevant row within the list of results.

2.4. Coast Station details

- Coast Station details can be printed or saved as a PDF file using the buttons on the top right side of the screen.
- The service tab buttons can be used to select and view the details of each service provided by the Coast Station.

2.4.1. List of Coast Station services

Service	Description
DSC-WATCH	Coast stations participating in MF, HF and VHF watch-keeping using digital selective calling techniques
MED-ADVICE RCC(s)	Stations transmitting medical advice Rescue coordination centres (MRCC, RCC, MRSC, JRCC)
NAVINFO	Coast stations transmitting to ships navigational and meteorological warnings and urgent information (MSI) by means of narrow-band direct-printing techniques
METEO	Stations transmitting regular meteorological bulletins
NOTICE-NAV	Stations transmitting notices to navigators
UTC	Stations transmitting radio time signals
VTS	Vessel traffic services
PILOT	Pilot stations

CP	Coast stations providing a public correspondence service
PORTINFO	Port stations
CES	Coast earth stations
CES-CP	Systems in the maritime mobile-satellite service that provide a public correspondence service
NAVAREA	NAVAREA coordinators
AIS	Automatic Identification System
SAR	Search and rescue agency addresses and contact information

In addition, the following tabs are available:

– “INFO”

Main information about the Coast Station is displayed, including location on the map (if geographical coordinates have been notified by the Administration concerned)

– “Notes”

Contains explanatory notes related to all coast stations of the Administration concerned. The notes for a particular Coast Station service, if applicable, are indicated within the available information for the service.

The notes contain information relating to stations, services and specific radio channels. Notes relating to a particular stations and services have their corresponding alphanumerical reference in the service heading. The code prefix for alphanumerical notes is given by service as follows:

Service	Code
DSC-WATCH	DC
MED ADVICE	MD
RCC	RC
NAVINFO	IF
METEO	BM
NOTICE-NAV	NA
UTC	HR
VTS	VS
PILOT	FT
CP	CP
PORTINFO	FP
CES	CE
CES-CP	CS
NAVAREA	NV
AIS	AI
SAR AGENCY	SR

The notes concerning charges and accounting authorities include the land station charge, the landline charge and special charges applicable to international public correspondence in the Maritime Mobile Service, as well as the names and addresses of enterprises, governmental and non-governmental, responsible for the accounting of the stations. Where there is no uniform landline charge for the whole state, the rates shown for a territorial subdivision apply only to radiocommunications originating in or intended for places situated in that subdivision.

Information on charges, which do not appear in this List, may be obtained directly from the coast station.

In order to standardize the information existing in the List, notes referring to charges for a specific service are indicated by a unique letter as follows:

- A: name and address of the entity by whom the radio-maritime accounts are handled;
- B: ordinary private radiotelegrams;
- C: radio-maritime letters (SLT);
- D: meteorological radiotelegrams (OBS);
- E: press radiotelegrams;
- F: radiotelegrams concerning persons protected in time of war (RCT);
- G: radiotelex calls;
- H: radiotelephone calls;

- I: radiophoto telegrams;
- J: data transmissions;
- K: QTG transmissions;
- L: miscellaneous services;
- M: radio-maritime telex letters (RTL);
- N: composition of destination zones;
- O: radiotelexograms;
- P, Q, R, S, T, U, V, W, X, Y and Z have not yet been allocated.

If coast stations within a country apply different charges to the same service, the pertinent notes are indicated by a subscript added to the standard reference shown above (e.g. A1, A2, B1, B2, C1, C2, etc.). Unless otherwise indicated, the landline charge for urgent radiotelegrams is the same as for ordinary radiotelegrams in the same relation increased by 100%.

Priority/Operational indicator (Priority) – any of the following priority and operational indicators applying to the use of the radio channels:

A: indicating that the normal working frequency is also used by the coast station to answer calls made on 2182 kHz (radiotelephony), when requested to do so.

C: indicating a frequency used for DSC purposes other than distress and safety.

S: indicating the transmitting and receiving frequencies used by the coast station for calling and answering calls when 2182 kHz (radiotelephony) is occupied with distress or urgency traffic.

Y: indicating the coast station radio channel used only for SAR operations.

n: (n=1, 2, 3, etc.) indicating the normal sequence in which radio channels should be taken into use for each specific purpose.

GMDSS Sea Areas

- **Sea area A1** means an area within the radiotelephone coverage of at least one very high frequency (VHF) coast station in which continuous DSC alerting is available, as may be defined by a Contracting Government.
- **Sea area A2** means an area, excluding sea area A1, within the radiotelephone coverage of at least one medium frequency (MF) coast station in which continuous DSC alerting is available, as may be defined by a Contracting Government.
- **Sea area A3** means an area, excluding sea areas A1 and A2, within the coverage of a recognized mobile satellite service supported by the ship earth station carried on board, in which continuous alerting is available.
- **Sea area A4** means an area outside of sea areas A1, A2 and A3.

2.5. Coast Station map

A map of the world displaying those coast stations for which position data has been provided by administrations. By clicking on a location indicated on the map, the Coast Station's details described in section 2.4 are shown.

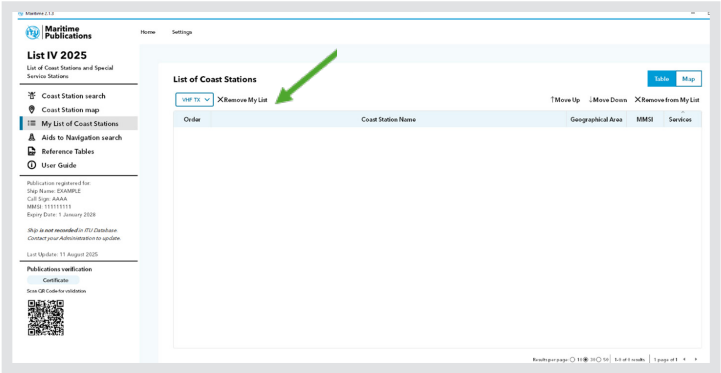

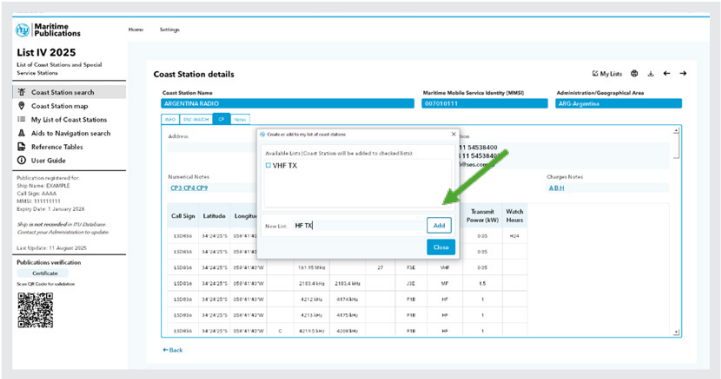

2.6. Managing your List of Coast Stations (digital download version)

The My List of Coast Stations feature provides users with quick access to coast station records that may be frequently required.

Creating My List of Coast Stations

- Use the Coast Station search function to create your lists.
- Search and select a Coast Station.
- Click on the My Lists button at the upper right of the Coast Station details screen.
- Create lists by typing the list's title and clicking "Add". The dropdown menu containing your lists is created automatically in "My List of Coast Stations" section.

List IV - 2025 edition - User Guide

Adding Coast Station to your list

- Use the Coast Station search function to find the station that you want to add to your lists.

- Click on the My Lists button at the upper right of the Coast Station details screen.
- Add the Coast Station to the list by ticking the box corresponding to the appropriate list and clicking “Add”.

The screenshot shows the 'Coast Station details' page for 'ARGENTINA-RADIO'. A modal window titled 'Create or add to my list of coast stations' is open. It contains a table with columns 'Available Lists (Coast Station will be added to checked lists)', 'HF TX', and 'VHF TX'. The 'VHF TX' checkbox is checked. A green arrow points to the 'Add' button at the bottom right of the modal.

Call Sign	Latitude	Longitude	Frequency (MHz)	Power (W)	Mode	Transmit Power (kW)	Watch Hours
LD000	34°24'25"S	056°41'40"W	111.15 MHz	27	F1E	0.05	N24
LD000	34°24'25"S	056°41'40"W	2103.4 kHz	2103.4 kHz	F1E	0.05	
LD000	34°24'25"S	056°41'40"W	4212.5 kHz	4212.5 kHz	F1E	0.05	
LD000	34°24'25"S	056°41'40"W	4213.5 kHz	4213.5 kHz	F1E	0.05	
LD000	34°24'25"S	056°41'40"W	4215.5 kHz	4215.5 kHz	F1E	0.05	
LD000	34°24'25"S	056°41'40"W	4217.5 kHz	4217.5 kHz	F1E	0.05	
LD000	34°24'25"S	056°41'40"W	4219.5 kHz	4219.5 kHz	F1E	0.05	

Removing Cost Station from your list

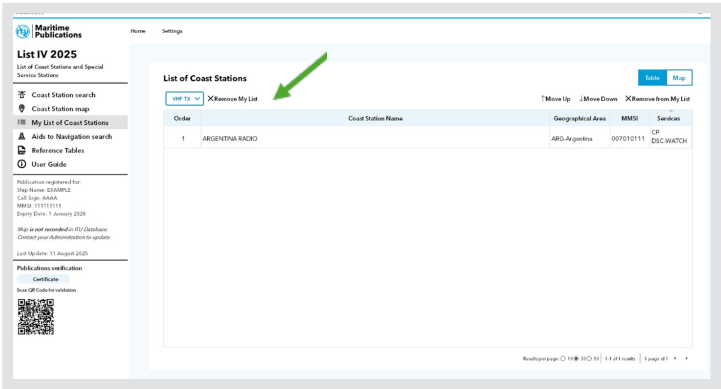

- Coast Station can be removed from the list by selecting the row (one click) and clicking “Remove from My List”.

The screenshot shows the 'List of Coast Stations' page. A table lists the stations. A green arrow points to the 'X Remove from My List' button in the top right corner of the table.

Order	Coast Station Name	Geographical Area	MMSI	Services
1	ARGENTINA-RADIO	ARG Argentina	007010111	CP DSC-WATCH

Removing your list of coast stations

– The list can be removed completely by clicking Remove My List.

3. AIS: Aids to Navigation Search

To search for AIS Aids to Navigation (AtoN), enter a valid search parameter into one or more of the search fields. Complete or partial terms may be used to initiate a search. Searches can be refined or initiated by selecting from the drop-down filter menus.

Search fields

- AtoN name
- MMSI

Search Filters

- Administration and Geographical Area
- Within a geographical area limited by circle

3.1. Search field description and parameters

AtoN Name:

The official name of the AtoN.

- **Field parameters:** Maximum length of 50 characters. ASCII printable characters only.

Searches can be initiated by entering an incomplete or partial AtoN name.

Maritime Mobile Service Identity (MMSI)

A unique nine-digit MMSI in the format $9_1 9_2 M_3 I_4 D_5 X_6 X_7 X_8 X_9$ is used to identify an AIS AtoN, where the digits 3, 4 and 5 represent the MID and X is any figure from 0 to 9. The MID represents the administration having jurisdiction over the call identity for the navigational aid.

- **Field parameters:** Digits only. Maximum input 9 digits leading with 99.

Searches can be initiated by entering an incomplete or partial AIS AtoN MMSI.

3.2. Search filter descriptions

Administration and Geographical Area

The administration or geographical area with jurisdiction over the AIS AtoN. Identified by a designated one- or three-character symbol and the name of the administration or geographical area (see reference Table 1 - Administration Designated Symbol)

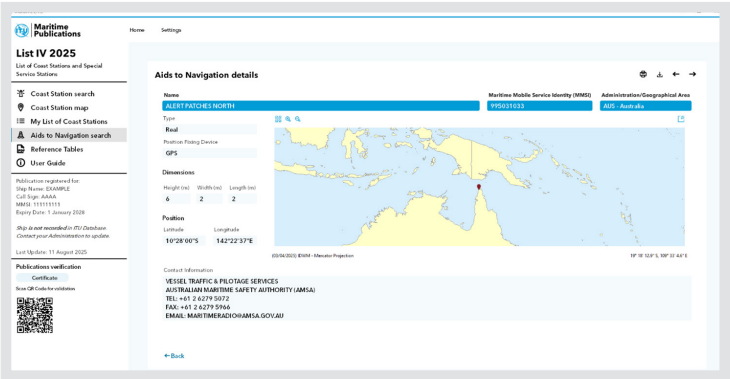

Search within a defined circular area

Enter the geographical coordinates of the centre point and the radius of the circle in nautical miles (NM). Coast Stations within the defined circular area will be listed.

3.3. Aids to Navigation search results

- Results can be displayed in a list or on the map. Click the Table or Map button to select between the results view.
- Results are listed by AIS AtoN Name and can be sorted or reorganised by clicking on any of the column headers.
- For searches by AIS AtoN Name, full or partial matching results are listed with the searched text highlighted in blue.
- The number of results is displayed at the bottom right of the page.
- Results can be further refined by searching within the list of results.

- To view the full details of the AIS AtoN, double-click on the relevant row within the list of results. +

3.4. AIS Aids to Navigation details

- AIS AtoN details can be printed or saved as a PDF file using the buttons on the top right side of the screen.

4. Reference Tables

Explanatory reference information is provided in five searchable PDF tables. To access these tables, click on “Reference Tables” and select the table from the drop-down menu at the upper right of the page.

Table 1 - Administration Designated Symbol

Designation of administrations/Geographical areas (in alphabetical order of symbols).

Table 2 - Abbreviations used in the List

Definition of the acronyms and abbreviation used in the List.

Table 3 - Administration Identity Allocations

Consolidated allocation list of Maritime Identification Digits (MID), call sign series, blocks of coast station identification numbers, blocks of selective call numbers for Ship Stations and groups of Ship Stations allocated to administrations and/or geographical areas.

Table 4 - Coast Stations participating in the NAVTEX Service

Worldwide list of all the stations which provide NAVTEX Service.

Table 5 - Allotment plans for DSC National channels

Allotment plans in accordance with Resolution No.5 of the Final Acts of the Regional Administrative Conference for the Planning of the MF Maritime Mobile and Aeronautical Services (Region 1) (Geneva 1985).

**5. Updating database
(digital download version)**

Updates to Coast Station and Aids to Navigation database information are available to download via the internet. The date of the last publication database update is indicated on the left of the screen. New updates are released on the first day of each month.

The Update Database refresh button is displayed when an update is available. To update the database, click on the Update Database refresh button. Users are recommended to maintain their database updates when possible. Updates are made available by ITU at no cost to users, however data charges may be applied by communication service providers.

6. Publication verification and authentication

6.1. Verifying digital download version

The ship station details entered by the user during the registration of the publication are displayed on the left side of the screen, along with the publication expiry date. The availability

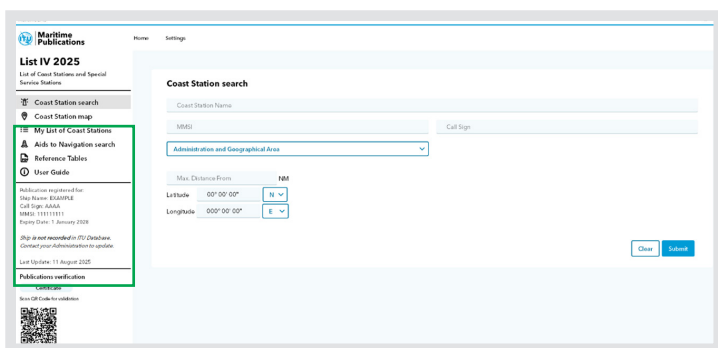

of these details allows users to easily demonstrate compliance with ship publication carriage requirements stipulated in **Appendix 16** to the Radio Regulations. It also assists ship inspectors, e.g. radio surveyors, or port state control officers to confirm that publications are valid and assigned to a particular ship.

Publication verification

- Confirm that the publication has not passed its expiration date (is in date).
- Confirm that the Ship Name, Call Sign, and MMSI correspond to those of the ship.
- Scan the QR code on the lower left of the screen to confirm the publication authenticity, expiry date, and registered ship information.
- A digital certificate is also available by clicking on the Certificate button. It includes details of the registration status for the ship regarding the three ITU maritime publications which are stipulated in **Appendix 16** to the Radio Regulations. The certificate can be downloaded in PDF format by clicking on the download button at the top right of the screen.
- If it is indicated that your ship is not currently in the ITU database, it should be noted that it does not affect the use and functionalities of the Publication and/or the provision of the Certificate. However, for search and rescue purposes, it is recommended that you contact the ship's flag Administration

(the issuer of your ship station licence), so that an appropriate notification regarding your ship can be sent by the Administration to ITU. Details of administrations are available within the Administration search section of List V.

If/when an appropriate notification is received by ITU from your Administration, your ship's details will be added to the ITU database. Following this, the indication "your ship is not currently in the ITU database" will no longer be displayed on screen after your publication database is next updated.

6.2. Verifying CD-ROM or USB version

Publication verification

- The publication CD-ROM or USB and its original cover must be provided onboard the ship and available for inspection.

- Confirm publication authenticity, expiry date, and registered ship information by scanning the QR code on the back of the publication cover. Verify that the Ship Name and identities correspond to those of the ship and that the publication is in date. If the publication is not yet registered, it is strongly recommended it be registered to the ship.

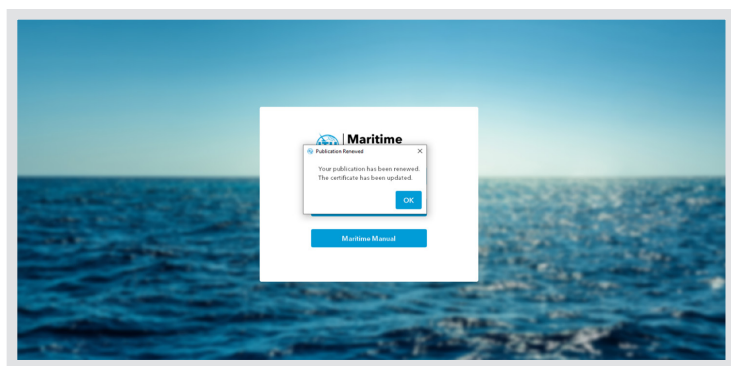

6.3. Publication expiration

- If the expiry date has passed, the publication is no longer valid.
- Publication expired will be indicated on the screen and the expired status will also be indicated if the QR code is scanned.
- Expired content may remain accessible to users. However, as the publication edition is expired, the content no longer fulfils the carriage requirements of **Appendix 16** to the Radio Regulations. Therefore, update of the publication to the latest edition is required.

The screenshot shows the Maritime Publications website interface. At the top, there is a red banner with the text "Publication Expired" and a warning: "This edition is no longer valid and contains superseded information. Please contact an authorized GLE member or sales@gle.ca". Below this, the left sidebar contains the "List IV 2025" section with links to "List of Coast Stations and Special Service Stations", "Coast Station search" (selected), "Coast Station map", "Aids to Navigation search", and "Preface PDF". The main content area is titled "Coast Station search" and contains a form with the following fields: "Coast Station Name" (text input), "MMSI" (text input), "Call Sign" (text input), "Administration and Geographical Area" (dropdown menu), "Max. Distance From" (text input) with a unit selector set to "NM", "Latitude" (text input) with a unit selector set to "N", and "Longitude" (text input) with a unit selector set to "E". At the bottom right of the form are "Clear" and "Submit" buttons. A footer note states: "Expiry Date: 14 February 2025" and "To confirm that this publication is valid scan the QR code on the CD/USB box".

7. Publication online renewal (digital download version)

Upon the purchase of a new edition of List IV, a Publication License ID will be sent to the email address provided, if this email is the same address used to register previous publication editions, List IV will automatically be renewed when the publication is next accessed. The following confirmation message will be displayed:

If a different email address is provided during the purchase of the publication, the user should access their settings and click on the <Register> button in the publication renewal column. The user should enter their new Publication License ID and the e-mail, address registered during the purchase.

Maritime Publications

List IV

The application can be used to search and access the ITU official worldwide directory of coast station radio communication operational information. It contains details of global maritime distress and safety system (GMDSS) shore installations, search and rescue agencies, medical advice, and other relevant maritime communication services such as maritime safety information (MSI) broadcasts and vessel traffic service (VTS) stations. This application also provides access to a list of Aids to Navigation using Automatic Identification System (AIS) technology (AtoNs).

Note: Appendix 16 to the Radio Regulations (RR), provides details concerning the carriage requirements for this Publication.

Use of this station and Maritime Mobile Service Identity Assignment, (See V7) and the Manual for Use by the Maritime Mobile and Maritime Mobile-Satellite Services (Interim M and M publications, which are also stipulated within RR Appendix 16, are available separately.

8. Accessing other ITU maritime publications (digital download version)

- To change between ITU maritime publications (List IV), (List V) and (Maritime Manual), click on the Home button at the top of the screen and select the required publication.
- New publications can be registered by selecting the required publication and entering the License ID and email address which was provided during the purchase of the publication.

The screenshot displays the ITU Maritime Publications app interface. At the top, there are 'Home' and 'Settings' buttons. The 'Home' button is highlighted with an arrow. Below the app title, the 'List V 2024' section is visible, showing a list of ship stations and maritime mobile service identity assignments. A sidebar menu on the left includes options like 'Ship Station search', 'My List of Ships', 'Administration search', 'Accounting Authority search', and 'Preface PDF'. The main content area shows a registration form for 'List IV' with fields for 'License ID' and 'Email'. The 'License ID' field contains the value '287654321' and the 'Email' field contains 'EIA3000'. Below these fields, there is a checkbox for 'Registration other than a ship' and a 'Back' button. At the bottom right, there are 'Clear' and 'Submit' buttons. The background of the app is a blue ocean scene.

This application can be used to search and access the ITU official worldwide directory of coast station radiocommunication operational information. It contains details of global maritime distress and safety system (GMDSS) shore installations, search and rescue agencies, medical advice, and other relevant maritime communication services such as maritime safety information (MSI) broadcasts and vessel traffic service (VTS) stations. This application also provides access to a list of Aids to Navigation using Automatic Identification System (AIS) Technology (AIS-VES).

Note: Appendix 16 to the Radio Regulations (RR) provides details concerning the carriage requirements for this Publication. The List of Ship Stations and Maritime Mobile Service Identity Assignments (List V) and the Manual for Use by the Maritime Mobile and Maritime Mobile-Satellite Services (Maritime Manual) publications, which are also stipulated within RR Appendix 16, are available separately.

9. Registering CD-ROM or USB version

It is strongly recommended that CD-ROM or USB version be registered where possible, as this assists users to demonstrate compliance with ship publication carriage requirements stipulated in **Appendix 16** to the Radio Regulations. It also assists ship inspectors, e.g. radio surveyors, or port state control officers to confirm that publications are valid and assigned to a particular ship.

- CD-ROM or USB version is registered by scanning the QR code on the back of the publication cover, or by using the URL inside the publication cover. The QR code or URL provide a link to the publication registration page where the ship's details should be registered.
- If it is indicated that your ship is not currently in the ITU database, it should be noted that it does not affect the use and functionalities of the Publication and/or the provision of the Certificate. However, for search and rescue purposes, it is recommended that you contact the ship's flag Administration (the issuer of your ship station licence), so that an appropriate notification regarding your ship can be sent by the Administration to ITU. Details of administrations are available within the Administration search section of List V.

АББРЕВИАТУРА, ИСПОЛЬЗУЕМАЯ В СПИСКЕ

Symbol	English	عربي	中文	Español	Français	Русский
AAIC	Accounting Authority Identification Code	رمز تعرف هوية السلطة المكلفة بالمحاسبة	结算机构识别码	Código de identificación de la autoridad encargada de la contabilidad	Code d'identification de l'autorité comptable	Опознавательный код расчетной организации
ADM	Administration	إدارة	主管部门	Administración	Administration	Администрация
AIS	Automatic Identification System	نظام أوتوماتي تعرف الهوية	自动识别系统	Sistema de identificación automática	Système d'identification automatique	Автоматическая система опознавания
BR	Radiocommunication Bureau	مكتب الاتصالات الراديوية	无线电通信局	Oficina de Radiocomunicaciones	Bureau des radiocommunications	Бюро радиосвязи (БР)
CES	Coast earth station	محطة أرضية ساحلية	海岸地球站	Estación costera terrena	Station terrienne côtière	Береговая земная станция
CES-CP	Coast earth station providing public correspondence	محطة أرضية ساحلية توفر خدمة المراسلة العمومية	提供公众通信的海岸地球站	Estación terrena costera que proporciona correspondencia pública	Station terrienne côtière assurant la correspondance publique	Береговая земная станция, обеспечивающая общественную корреспонденцию
CP	Coast station providing public correspondence	محطة ساحلية توفر خدمة المراسلة العمومية	提供公众通信的海岸电台	Estación costera que proporciona correspondencia pública	Station côtière assurant la correspondance publique	Береговая станция, обеспечивающая общественную корреспонденцию
DSC	Digital selective calling	مناداة رقمية انتقائية	数字选择性呼叫	Llamada selectiva digital	Appel sélectif numérique	Цифровой избирательный вызов (ЦИВ)
DSC-WATCH	Coast station participating in MF, HF, VHF watch-keeping using DSC techniques	محطة ساحلية تشارك في خدمة مداومة المراقبة العامة على الترددات HF و MF باستخدام تقنيات المناداة الرقمية الانتقائية	采用DSC方法参与MF、HF、VHF值守的海岸电台	Estación costera que participa en la escucha en las bandas de ondas hectométricas, decamétricas y métricas utilizando técnicas de llamada selectiva digital	Station côtière participant à la veille en ondes hectométriques, decamétriques et métriques et utilisant les techniques ASN	Береговая станция, участвующая в осуществлении наблюдений в СЧ-, ВЧ- и ОВЧ-диапазонах с использованием ЦИВ
GMDSS	Global Maritime Distress and Safety System	النظام العالمي للإستغاثة والسلامة في البحر	全球水上遇险和安全系统	Sistema mundial de socorro y seguridad marítimos	Système mondial de détresse et de sécurité en mer (SMDSM)	Глобальная морская система для случаев бедствия и обеспечения безопасности (ГМСББ)
HF	High frequency (3 to 30 MHz)	الترددات العالية (من 3 إلى 30 MHz)	高频 (3-30 MHz)	Ondas decamétricas (3 a 30 MHz)	Ondes décamétriques (3 à 30 MHz)	Высокая частота (3–30 МГц) (ВЧ)
ITU	International Telecommunication Union	الاتحاد الدولي للاتصالات	国际电信联盟	Unión Internacional de Telecomunicaciones	Union internationale des télécommunications	Международный союз электросвязи (МСЭ)
ITU-R	ITU Radiocommunication Sector	قطاع الاتصالات الراديوية بالاتحاد الدولي للاتصالات	国际电联无线电通信部门	Sector de Radiocomunicaciones de la UIT	Secteur des radiocommunications de l'UIT	Сектор радиосвязи МСЭ (МСЭ-Р)
ITU-T	ITU Telecommunication Standardization Sector	قطاع تقييس الاتصالات الدولي للاتصالات	国际电联电信标准化部门	Sector de Normalización de las Telecomunicaciones de la UIT	Secteur de la normalisation des télécommunications de l'UIT	Сектор стандартизации электросвязи МСЭ (МСЭ-Т)

Symbol	English	عربي	中文	Español	Français	Русский
JRCC	Joint Rescue Coordination Centre	مركز تنسيق عمليات الإنقاذ المشتركة	联合救援协调中心	Centro de coordinación de salvamento conjunto	Centre de coordination des opérations de sauvetage	Объединенный центр координации спасательных операций
List IV	List of Coast Stations and Special Service Stations	قائمة المحطات الساحلية ومحطات الخدمات الخاصة	海岸电台和特殊业务台站目录	Nomenclátor de las estaciones costeras y de las estaciones que efectúan servicios especiales	Nomenclature des stations côtières et des stations effectuant des services spéciaux	Список береговых станций и станций специальной службы (Список IV)
List V	List of Ship Stations and Maritime Mobile Service Identity Assignments	قائمة محطات السفن وتخصيصات هويات الخدمة المتنقلة البحرية	船舶电台和水上移动业务识别码分配目录	Nomenclátor de las estaciones de barco y de las identidades del servicio móvil marítimo	Nomenclature des stations de navire et des identités dans le service mobile maritime assignées	Список судовых станций и присвоений опознавателей морской подвижной службы (Список V)
Manual	Manual for use by the Maritime Mobile and Maritime Mobile-Satellite Service	كتيب للاستعمال من جانب الخدمة المتنقلة البحرية والساتلية	用于水上移动和卫星水上移动业务的手册	Manual para uso de los servicios móvil marítimo y móvil marítimo por satélite	Manuel à l'usage des services mobile maritime et mobile maritime par satellite	Руководство для использования в морской подвижной и морской подвижной спутниковой службах
MARS	Maritime mobile Access and Retrieval System	نظام النفاذ إلى قاعدة بيانات الخدمة المتنقلة البحرية والبحث فيها (MARS)	水上移动访问和检索系统	Sistema de acceso y extracción en el Servicio Móvil Marítimo de la UIT	Système d'accès et de consultation de la base de données du service mobile maritime	Система доступа и поиска морской подвижной службы
MED-ADVICE	Stations transmitting medical advice	محطات إرسال المشورة الطبية	传达医疗建议的电台	Estaciones que transmiten consejos médicos	Stations émettant des avis médicaux	Станции, передающие рекомендации врача
METEO	Stations transmitting regular meteorological bulletins	محطات إرسال نشرات الأرصاد الجوية المنتظمة	传输定期气象公报的电台	Estaciones que transmiten regularmente boletines meteorológicos	Stations émettent des bulletins météorologiques réguliers	Станции, передающие регулярные метеосводки
MF	Medium frequency (300 to 3000 kHz)	الترددات المتوسطة (من 300 إلى 3 000 kHz)	中频 (300-3000 kHz)	Ondas hectométricas (300 a 3000 kHz)	Ondes hectométriques (300 à 3000 kHz)	Средняя частота (300-3000 кГц) (СЧ)
MID	Maritime Identification Digit	رقم تعرف هوية بحرية	水上识别数字	Cifras de identificación marítima	Chiffre d'identification maritime	Цифра морского опознавания
MMSI	Maritime Mobile Service Identity	هوية الخدمة المتنقلة البحرية	水上移动业务识别码	Identidad del servicio móvil marítimo	Identité dans le service mobile maritime	Опознаватель морской подвижной службы
MRCC	Maritime Rescue Coordination Centre	مركز تنسيق عمليات الإنقاذ البحرية	水上救援协调中心	Centro de coordinación de salvamento marítimo	Centre de coordination des opérations de sauvetage en mer	Центр координации спасательных операций на море
MRSC	Maritime Rescue Sub-Centre	مركز فرعي لعمليات الإنقاذ البحرية	水上救援分中心	Subcentro de salvamento marítimo	Sous-centre des opérations de sauvetage en mer	Вспомогательный центр спасательных операций на море
MSI	Maritime Safety Information	معلومات بشأن السلامة البحرية	水上安全信息	Información sobre seguridad marítima	Renseignements concernant la sécurité en mer	Информация безопасности на море

Symbol	English	عربي	中文	Español	Français	Русский
NAVINFO	Stations providing navigational information	محطات توفير معلومات ملاحية	提供导航信息的电台	Estaciones que proporcionan informes sobre la navegación	Stations fournissant des renseignements sur la navigation	Станции, предоставляющие навигационную информацию
NAVTEX	Navigational telex	خدمة تلکس ملاحية	导航电传	Télex de navegación	Télex relatif à la navigation	Навигационный телекс
NBDP	Narrow-Band Direct Printing	طباعة مباشرة بضيق النطاق	窄带直接印字电报	Impresión directa de banda estrecha	Impression directe à bande étroite	Узкополосная буквопечатающая телеграфия (УБПТ)
NOTICE-NAV	Stations transmitting notice to navigators	محطات إرسال إشعار للملاحين	向领航员传递通知的电台	Estaciones que transmiten avisos a los navegantes	Stations émettant des avis aux navigateurs	Станции, передающие сообщения мореплавателям
PILOT	Pilot station	محطة دليلية	领航电台	Estación de practica	Station pilote	Лощманская станция
PORTINFO	Port station	محطة مينائية	港口电台	Estación portuaria	Station portuaire	Портовая станция
RR	Radio Regulations	لوائح الراديو	《无线电规则》	Reglamento de Radiocomunicaciones	Règlement des radiocommunications	Регламент радиосвязи (РР)
RCC	Rescue Coordination Centre	مركز تنسيق عمليات الإنقاذ	救援协调中心	Centro de coordinación de salvamento	Centre de coordination des opérations de sauvetage	Центр координации спасательных операций
SAR	Search and Rescue	ابحث والإنقاذ	搜救	Búsqueda y salvamento	Recherche et sauvetage	Поиск и спасание
SART	Search and Rescue Radar Transponder	مرسل-مستجيب راداري للبحث والإنقاذ	搜救雷达应答器	Transpondedor de radar de búsqueda y salvamento	Répéteur de recherche et de sauvetage	Спасательный радиолокационный ответчик
SAT	Satellite numbers	أرقام السواتل	卫星号码	Números de satélite	Numéros de satellite	Спутниковые номера
SOLAS	International convention of the Safety of Life at Sea, 1974, as amended	الاتفاقية الدولية لحماية الحياة البشرية في البحر، 1974، بصيغتها المعدلة	《国际海上生命安全公约》(1974年及修订版)	Convenio Internacional para la Seguridad de la Vida Humana en el Mar	Convention internationale sur la détresse et la sécurité en mer (1974), telle qu'amendée	Международная конвенция по охране человеческой жизни на море 1974 года, с внесенными в нее поправками
UTC	Stations transmitting radio time signals	محطات إرسال إشارات توقيت راديوية	发送无线电信号时间的电台	Estaciones que transmiten señales horarias	Stations émettant des signaux horaires	Станции, передающие радиосигналы точного времени
VHF	Very-high frequency (30 to 300 MHz)	الترددات العالية جداً (من 30 إلى 300 MHz)	甚高频 (30-300MHz)	Ondas métricas (30 a 300 MHz)	Ondes métriques (30 à 300 MHz)	Очень высокая частота (30-300 МГц) (ОВЧ)
VTS	Vessel Traffic Service stations	محطات خدمة حركة السفن	船舶交通管理电台	Estaciones del servicio de gestión del tráfico de navíos	Stations de trafic maritime	Станции служб движения судов
WRC	World Radio Conference	المؤتمر العالمي للاتصالات الراديوية	世界无线电通信大会	Conferencia Mundial de Radiocomunicaciones	Conférence mondiale des radiocommunications	Всемирная конференция радиосвязи (ВКР)

TABLE 4

COAST STATIONS PARTICIPATING IN THE NAVTEX SERVICES

Coordinated by the International Maritime Organization (IMO) —
GMDSS.1/Circ.23 (04/03/2019)

الجدول 4

المحطات الساحلية المشاركة في خدمات NAVTEX
تقوم بالتنسيق المنظمة البحرية الدولية (IMO) - النظام العالمي للاستغاثة
والسلامة في البحر (GMDSS) - (GMDSS.1/Circ.23) - (2019/03/04)

表4

参加NAVTEX系统、提供服务的海岸电台
由国防海事组织（IMO）协调—GMDSS.1/通函. 23 (04/03/2019)

CUADRO 4

ESTACIONES COSTERAS QUE PARTICIPAN EN LOS SERVICIOS NAVTEX

Coordinados por la Organización Marítima Internacional (OMI) —
GMDSS.1/Circ.23 (04/03/2019)

TABLEAU 4

STATIONS CÔTIÈRES PARTICIPANT AUX SERVICES NAVTEX

Coordonnés par l'Organisation maritime internationale (OMI) —
GMDSS.1/Circ.23 (04/03/2019)

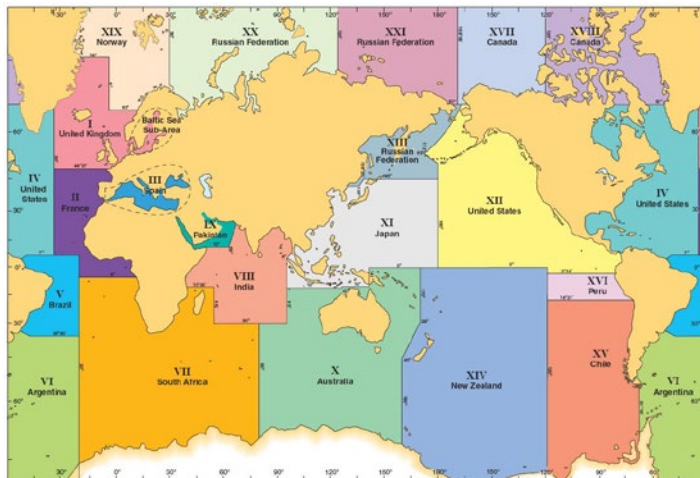

ТАБЛИЦА 4

БЕРЕГОВЫЕ СТАНЦИИ, УЧАСТВУЮЩИЕ В СЛУЖБАХ НАВТЕКС

Координируется Международной морской организацией (ИМО) —
ГМСББ.1/Цирк. 23 (04/03/2019 г.)

TABLE 4

GEOGRAPHICAL AREAS FOR COORDINATING AND PROMULGATING RADIO-NAVIGATIONAL WARNINGS

The delimitation of such areas is not related to and shall not prejudice
the delimitation of any boundaries between States

Coast Stations participating in the NAVTEX Service

NAV/MET Area (490 kHz)	Country	NAVTEX Coast Station	Position of Antenna	Range (NM)	B1 Character	Transmission times (UTC)	Language	Status of implementation	Other information
I	Belgium	Oostende Radio	51° 10.95' N 2° 48.47' E	55	B	0010,0410,0810,1210,1610,2010		Operational
