

WISFAT 2.0

What is new?

- Update of the technology
- User interface
 - ✓ No change to the login credentials
 - ✓ Dynamic screens (*Screen options change based on selection*)
 - ✓ Possibility to validate the notice file during submitting
 - ✓ Works with any screen size
 - ✓ Web accessible compliant (*WCAG 2.0*)

WISFAT 2.0

- Select the type of submission
 - ✓ Under the Radio Regulations
 - ✓ Plan modification
- Depending on the type of submission
 - ✓ If eValidation handles the selected type of submission, the option to validate is provided.
 - ✓ eValidation does not handle *.zip files. Therefore, the option is not available.

WISFAT 2.0

➤ Option: With eValidation

✓ File is uploaded and eValidation is activated in the background

✓ An e-mail is sent with status: *“Pending validation”*

ITU-R WISFAT Submission ADM_ART11_20230821170417 - Pending validation

✓ Validation result: **No errors and no warnings**

• No further action is needed, and an e-mail is sent with status: *“Completed”*

ITU-R WISFAT Submission ADM_ART11_20230821170417 – Completed

✓ Validation result: **Has errors or warnings**

• Action is needed, and an e-mail is sent with the status: *“Your action is required”*

ITU-R WISFAT Submission ADM_ART11_20230821170417 - Your action is required

• The e-mail contains:

• JobID of the eValidation with a link to view the validation result

• The possibility to select either:

• To cancel the submission and resubmit later (after correction); or

• To continue with the submission.

• An e-mail will be sent to confirm the selected option.

WISFAT 2.0

➤ Option: Without eValidation

- ✓ File is uploaded
- ✓ An e-mail is sent with status: “*Completed*” to inform that the submission was successful.

ITU-R WISFAT Submission ADM_ART11_20230821170021 – Completed
