29TH WORLD RADIOCOMMUNICATION SEMINAR
30 November - 11 December 2020

ITU Maritime Service Publications and MARS (Maritime mobile Access and Retrieval System)

WORKSHOP (7-11 December 2020)

www.itu.int/go/wrs-20

#ITUWRS

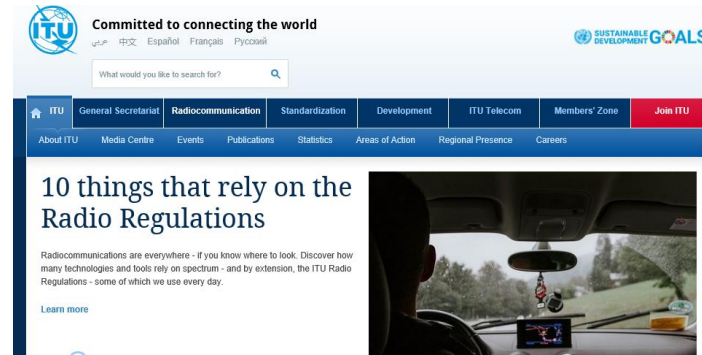

ITU Maritime Service Publications and MARS (Maritime Access and Retrieval System)

Retrieving information via MARS

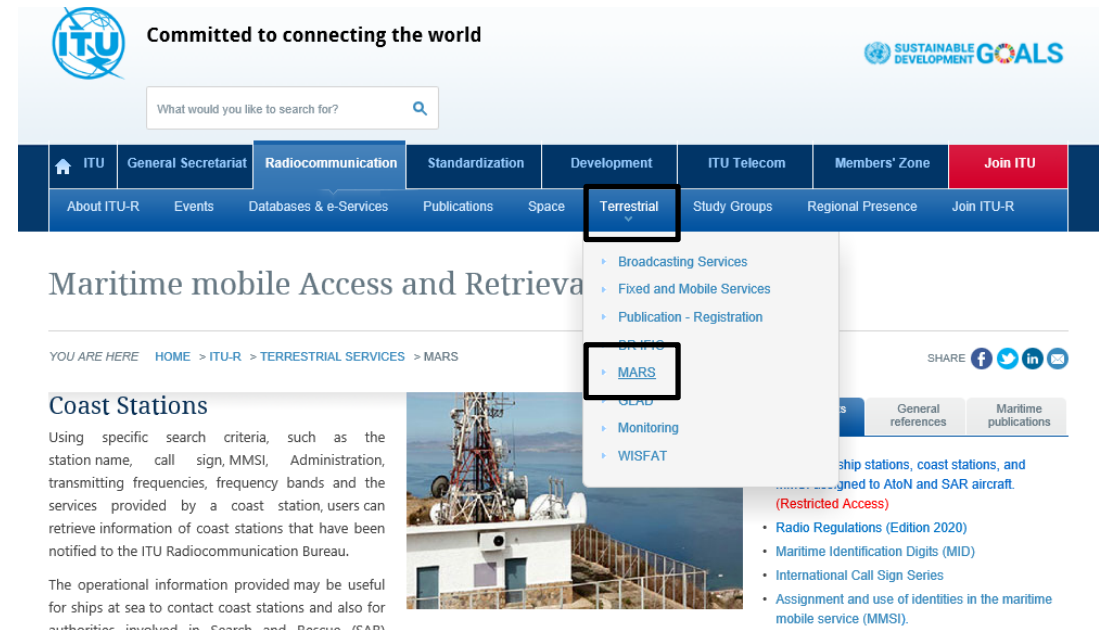

Connect to MARS

www.itu.int/itu-r/go/mars

On your web browser go to the ITU homepage

Click on the tab "Radiocommunication" and then from the Terrestrial menu select MARS

EXERCISE 1

Retrieving Ship Station information via MARS

Ship station (RR 1.77)

A mobile station in the maritime mobile service located on board a vessel which is not permanently moored, other than a survival craft station.

EXERCISE 1: STEP 1

Click on “Retrieval of information”

SHIP STATIONS

EXERCISE 3

Retrieving Accounting Authority (AAIC) information via MARS

An accounting authority acts as a billing intermediary between the maritime mobile station and service providers.

The role of an accounting authority may be undertaken by an Administration, a Recognized Operating Agency (ROA) or any other entity or entities designated for this purpose by the Administration.

Reference: [Recommendation ITU-T D.90](#) “Charging, billing, international accounting and settlement in the maritime mobile service”.

ITU Service Publications (maritime) and MARS (Maritime Access and Retrieval System

Notifying information to the BR

NOTIFYING INFORMATION TO THE BR - General -

Q: Who can notify ?

For inclusion in the:

- List of Ship Stations and Maritime Mobile Service Identity Assignments (List V);
- List of Coast Stations and Special Service Stations (List IV); and
- Maritime mobile Access and Retrieval System (MARS)

A: ONLY ADMINISTRATIONS OF ITU MEMBER STATES that have jurisdiction over the concerning stations or EVENTUALLY, companies officially designated by Administrations to act on their behalf (i.e. official points of contact registered in ITU).

Q: Where to send the notification ?

A: BR accepts for processing only the notifications received from official points of contact and addressed to:

- the attention of “the Director of the Radiocommunication Bureau”
- email: brmail@itu.int

NOTIFYING INFORMATION TO THE BR - General -

Radio Regulations provision 20.16

- Administrations **shall** take all appropriate measures to **notify** the Radiocommunication Bureau **immediately** of any changes in the operational information contained in **List IV** (Coast stations) and **List V (Ship stations)**, in view of the importance of this information, particularly with regard to safety.
- In the case of the data published in **List V**, which is also made available online through **MARS**, administrations shall communicate those changes **at least once a month**.
- In the case of other publications, administrations shall communicate changes to the information contained in them as soon as possible.

MARITIME OPERATIONAL INFORMATION NOTIFIED BY ADMINISTRATIONS

Ship stations

A mobile station in the maritime mobile service located on board a vessel which is not permanently moored, other than a survival craft station.

Coast stations

A land station in the maritime mobile service.

MMSI assigned to Search and Rescue (SAR) aircraft

Aircraft stations for the purpose of search and rescue operations

MMSI assigned to AIS Aids to Navigation (AtoN)

AtoN: a device or system external to vessels designed and operated to enhance safe and efficient navigation of vessels and/or vessel traffic

Contact information of Accounting Authorities (AAIC)

Contact information of Notifying Administrations

COLLECT AND VALIDATE THE NOTIFICATION

Data notified by Administrations

using the relevant paper forms or in an electronic format

Validation of the data received

In case of any anomalies:
Revert back to administrations for clarification

ITU maritime database

NOTIFICATION OF INFORMATION

Relevant information to guide the notification process is available in MARS. You may access this information via the “How to notify” link of the concerning type of station:

- Coast Stations
- Ship Stations
- MMSI assigned to Search and Rescue (SAR) Aircraft
- MMSI assigned to AIS Aids to Navigation (AtoN)

NOTIFICATION OF INFORMATION - Ship Stations -

- To facilitate the submission of ship station data, the Bureau has developed:
 - ✓ A paper notification form;
 - ✓ Data elements for electronic submission
- The above as well as **detailed explanations, concerning the fields to be notified**, is to be found in [BR Circular Letter CM/24](#) dated 20 October 2015
- The Preface to List V contains information that is helpful for completing these forms. [Information is available on the MARS webpage.](#)

The Bureau recommends the use of the electronic submission, as these offer distinct advantages.

ITUWRS
ONLINE2020

SHIP STATIONS NOTIFICATION: Electronic format - Which format to use -

ASCII text file , UTF-8 format.

Only “ASCII printable characters” are accepted in the ship name field.

- Field delimiter: Semicolon (;)
- Occurrence separator: Comma (,)
- Record delimiter: New line

Example of a notification line (1 ship station):

```
A;DIVA MARIA;MPBP2;;235039142;;;G;;;PL;YAT;;;;;;;;;GRAHAM;;;235039142;;8;MRS D PELHAM BURN,FLAT 5,35 ELM PARK GARDENS,SW10;0207 3514845;;;3;VHFPORT,RADAR,EPIRB406,VHFDSC;9D0D481E70000C5;982359000
```

Administrations may opt for:

Option 1: “**Batch file**” - updates to the database are notified by the “Action Codes” A (Addition), M (Modification) and S (Suppression) accordingly; or

Option 2: “**Re-load file**” - the complete list of ship stations for a flag is notified. Therefore, the new list completely replaces the old one. For Option 2 the “Action Code” is always A (Addition).

SHIP STATIONS NOTIFICATION: Electronic format

- Which format to use -

SHIP NAME

CALL SIGN

MMSI

NOTIFIER
ADMINISTRATION

ACTION CODE:

SHIP STATIONS NOTIFICATION

- Mandatory fields -

For both paper and electronic notifications the following mandatory fields shall always be notified: AC, 1, 2, 4, 7

- Action Code
- Field 1 - Ship (vessel) name
- Field 2 - Call sign
- Field 4 - MMSI (if assigned)
- Field 7 - Notifying Administration

- Field AC - Action Code
 - Code to indicate what action is to be taken by the BR with respect to a notified ship station
 - A to add a new ship station
 - M to modify information concerning a previously notified ship station
 - S to suppress a previously notified ship station
- Field 2 - Call sign
 - The formation of a call sign for a ship station is as follows (RR Article 19):

19.54 *Ship stations*

19.55 § 24

- two characters and two letters, *or*
- two characters, two letters and one digit (other than the digits 0 or 1), *or*
- two characters (provided that the second is a letter) followed by four digits (other than the digits 0 or 1 in cases where they immediately follow a letter), *or*
- two characters and one letter followed by four digits (other than the digits 0 or 1 in cases where they immediately follow a letter). (WRC-07)

SHIP STATIONS NOTIFICATION

- Mandatory fields (cont.)-

For both paper and electronic notifications the following mandatory fields shall always be notified: AC, 1, 2, 4, 7, 19 (see note below)

Field 4 – MMSI - The formation of a MMSI for a ship station is as follows (Recommendation ITU-R M.585-8):

Section 1

Assignment of identification to ship station

1 Ships participating in the maritime radio services mentioned in recommends 1 should be assigned a nine digit unique ship station identity in the format $M_1I_2D_3X_4X_5X_6X_7X_8X_9$ where in the first three digits represent the Maritime Identification Digits (MID) and X is any figure from 0 to 9. The MID denotes the administration having jurisdiction over the ship station so identified.

2 Restrictions may apply with respect to the maximum number of digits, which can be transmitted on some national telex and/or telephone networks for the purpose of ship station identification.

3 The maximum number of digits that could be transmitted over the national networks of many countries for the purpose of determining ship station identity was six. The digits carried on the network to represent the ship station identity are referred to as the “ship station number” in this text and in the relevant ITU-R Recommendations. The use of the techniques described below should have made it possible for the coast stations of such countries to engage in the automatic connection of calls to ship stations.

To obtain the required nine digit ship station identity a series of trailing zeros would have to be added automatically to the ship station number by the coast station in order to complete a shore-originated telephone call, for example, carried over the public switched telephone network:

Ship station number

$M_1I_2D_3X_4X_5X_6$

Ship station identity

$M_1I_2D_3X_4X_5X_6070809$

Field 7 – Notifying administration – Administration responsible for the registration of the ship

Note: Field 19 - AAIC used for Satellite Communications

This is a mandatory field if the ship station provides maritime mobile-satellite service.

SHIP STATIONS NOTIFICATION

Other recommended fields, considering information that may be useful for Rescue Coordinators Centres (RCC)

- **Field 10** - **Radio Beacons (EPIRBs)**
- **Field 11** - **General classification (i.e. PL, MM, FV..)**
- **Field 12** - **Individual classification (i.e. YAT, PH, OIL, CA, ..)**
- **Field 23** - **EPIRB Identification code (if programmed with MMSI)**
- **Field 24** - **Vessel Identification Number (IMO number)**
- **Field 25** - **Gross Tonnage**
- **Fields 26 to 29** - **Emergency contact information**
- **Field 30** - **Capacity of persons on board**
- **Field 32** - **EPIRB HEX ID Code (if programmed with Cospas-Sarsat designated code)**
- **Field 33** - **MMSI assigned to craft associated with a parent ship**
- **Field 34** - **Identities for handheld VHF transceivers**

NOTIFICATION OF INFORMATION

- Coast Stations -

- To facilitate the submission of Coast station data, the Bureau has developed:
 - ✓ A table containing the links to extract the complete data corresponding to each Administration.
 - ✓ A table containing one notification form per service.

COAST STATIONS

[Retrieval of information >](#)

[How to notify >](#)

NOTIFICATION OF INFORMATION

- Coast Stations -

The formation of a call sign and MMSI for a coast station is as follows:

Call
sign

19.51 *Land and fixed stations*

19.52 § 23 1)

- two characters and one letter, *or*
- two characters and one letter followed by not more than three digits (other than the digits 0 and 1 in cases where they immediately follow a letter).

19.53 2) However, it is recommended that, as far as possible, the call signs of fixed stations consist of:

- two characters and one letter followed by two digits (other than the digits 0 and 1 in cases where they immediately follow a letter).

MMSI

1 Coast stations and other stations on land participating in the maritime radio services mentioned in *recommends* 3 should be assigned a nine-digit unique coast station identity in the format $0_10_2M_3I_4D_5X_6X_7X_8X_9$ where the digits 3, 4 and 5 represent the MID and X is any figure from 0 to 9. The MID reflects the administration having jurisdiction over the coast station or coast earth station.

3 The administration may use the sixth digit to further differentiate between certain specific uses of this class of MMSI, as shown in the example applications below:

- a) 00MID1XXX Coast radio stations
- b) 00MID2XXX Harbour radio stations
- c) 00MID3XXX Pilot stations, etc.

NOTIFICATION OPTIONS

DATA FOR REVIEW

This link allows administrations to download station and special service stations under its jurisdiction in case any administrations wanted to review

[Data for review](#)

NOTIFICATION FORMS

This table contains the forms to be used by administrations to notify Coast stations updates or amendments to the List IV.

The following forms are available in PDF format, in English only.

AIS - Automatic Identification System service	CES - Coast earth stations	CES-CP - Systems in the maritime mobile satellite service that provide a public correspondence service	CP - Public correspondence service
DSC-WATCH - Watch-keeping	MED-ADVICE - Transmitting	METEO - Meteo bulletins	NAVAREA Navarea

NOTIFICATIONS SHOULD BE ADDRESSED TO

The Director of Radiocommunication Bureau
CH-1211 Geneva 20, Switzerland.
Direct Telefax. No.: +41 22 730 5785,
Email: brmail@itu.int

An administration can review the complete information existing in the ITU maritime database, concerning its coast stations.

It is possible to download it from the MARS website and amend it, using the track changes function of the MS Word and send it back to brmail@itu.int

Each service has a particular form.

[Data for review link](#)

The screenshot shows a web browser window displaying the ITU website page titled "Data for review by administrations". The page includes a navigation menu, a breadcrumb trail, and a main content area with sections for "Administrations with entries currently registered in the list of coast stations and special service stations (List IV)", "Download current data notified by Administrations/Geographical area", and "Disclaimer". A table lists various countries and their corresponding symbols. The browser's address bar shows the URL "www.itu.int/en/ITU-R/terrestrial/ma".

Data for review by administrations

YOU ARE HERE: HOME > ITU-R > TERRESTRIAL SERVICES > MARS > DATA FOR REVIEW BY ADMINISTRATIONS

ADMINISTRATIONS WITH ENTRIES CURRENTLY REGISTERED IN THE LIST OF COAST STATIONS AND SPECIAL SERVICE STATIONS (LIST IV)

The Bureau invites administrations to review their information and to notify the relevant amendments (i.e. additions, deletions and modifications), using the "Track Changes" function in MSWORD.

Note: Only notifications submitted by the responsible Administration will be accepted.

Disclaimer

The data retrievable on this WEB site is based on information provided by the Administrations of ITU Member States. The ITU expressly disclaims any responsibility with respect to the use of this data and for the accuracy of the information contained in the database, including any defects, failures and omissions of the stations and auxiliary equipment described therein.

Submission of data | **Address for submission**

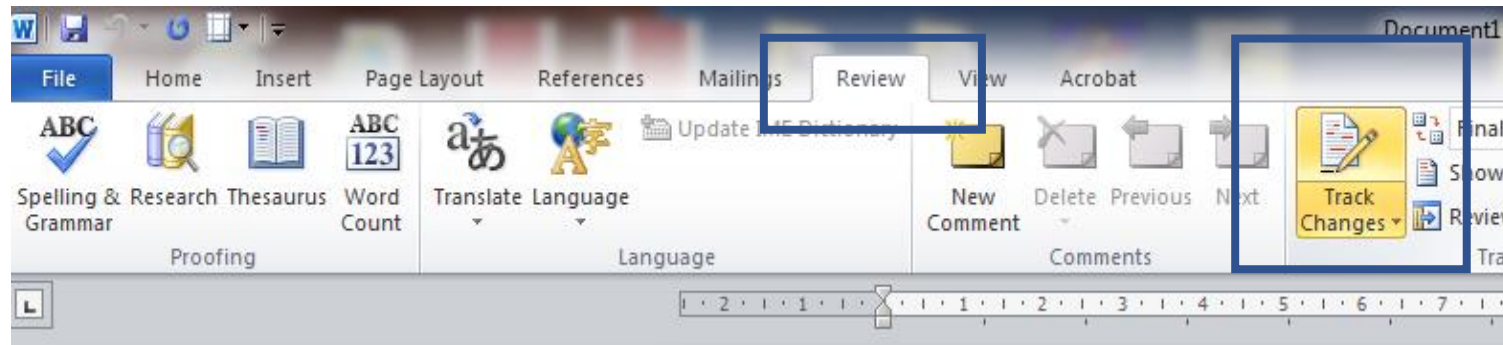

What is a TIES Account?
A TIES account provides personalized access (through a username and password) to a number of services. TIES services are provided to support the participation of members in the activities of the ITU. In each organization/company there is a TIES Focal Point responsible for accepting/refusing requests to create TIES Accounts, maintaining the list of TIES Accounts and granting/limiting access rights to documents.

How can I get a TIES account?
1. Submit your request through the online application form
2. The Focal Point of your organization or company will receive an email for authorization

STEP 2

Amend the document using track changes option in MS Word
Select Review tab and then click on track changes

STEP 3

“Save and send the notification”

The document will keep the original text with different marks in order to identify all the changes made as “A” additions, “S” suppression, etc.
