

ITUWRS
ONLINE2020

29TH WORLD RADIOCOMMUNICATION SEMINAR
30 November - 11 December 2020

Terrestrial Workshop WRS - 20

Online validation

www.itu.int/go/wrs-20

#ITUWRS

Online validation

- Electronic notice files that are submitted to the Bureau for recording in the Master Register or for the modification of Plans, must be complete and valid, if not the Bureau will return;
- Web interface that performs an exhaustive validation on electronic notice files;
- Simply upload the file. The results are not only displayed on the interface, they are also sent by e-mail;
- No special registration is required other than the ITU login
- To request an ITU login: <http://www.itu.int/TIES/index.html>
- Approval from your focal point is required

How to use the online validation tool

<https://www.itu.int/en/ITU-R/terrestrial/tpr/Pages/Submission.aspx>

Submission of Notices for Terrestrial Services

YOU ARE HERE [HOME](#) > [ITU-R](#) > [TERRESTRIAL SERVICES](#) > [TERRESTRIAL PUBLICATION AND REGISTRATION DIVISION](#) > [SUBMISSION OF NOTICES FOR TERRESTRIAL SERVICES](#)

SHARE    

Submission of frequency assignment/allotment notices for terrestrial services to the BR for the update of the Master International Frequency Register (MIFR) and/or for the modification of Plans shall be made via the secured web interface WISFAT (Web Interface for Submission of Frequency Assignments/allotments for Terrestrial Services).

As stipulated in [BR Circular-letter CR/297 dated 20 January 2009](#), only notices received via WISFAT, are considered as official submissions.

Access to this interface is restricted to registered notifiers, therefore administrations shall appoint notifier(s) for their administration and inform the BR by sending an official e-mail to brmail@itu.int giving the TIES username, name, position and official e-mail address.

Before submitting notices via WISFAT, administrations are strongly recommended to validate their submissions using the [Online Validation](#) tool. Please note that incomplete notices will be returned to the notifying administration in accordance with provision No. 11.27 of the Radio Regulations.

In addition, administrations are encouraged when submitting many files on the same day, to compress their files into one single file by using for example WinZip or WinRaR.

To use Online validation

The screenshot shows the ITU Online Validation web application. The browser address bar displays the URL: <http://www.itu.int/ITU-R/terrestrial/OnlineValidation/MemberPages/OnlineValidation.aspx>. The page header includes the ITU logo and navigation links: ITU Sectors, Newsroom, Events, Publications, Statistics, and About ITU. A search bar is located on the right side of the header.

The main content area is titled "OnlineValidation". It indicates that the processing system is currently **ONLINE** and provides the contact email: brtr_dp@itu.int. Below this, there are two buttons: "New Validation" and "Logout". A blue arrow points to the "Logout" button with the text "New Validation".

Below the buttons is a "Refresh" button and a section titled "Jobs History for user: pinnago". This section includes a link to "Test Packages: click to hide all".

Job Id	Filename	Job Status	Date of Request	Date of Completion	Elapsed Time (minutes)
