The Problem

Diabetic Retinopathy (DR)

Diabetic Retinopathy (DR) is the fastest growing cause of blindness worldwide

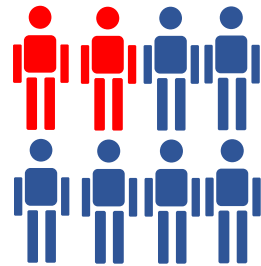

The Diabetes Epidemic

422m

ADULTS LIVING
WITH DIABETES

422 million people worldwide
suffer from diabetes

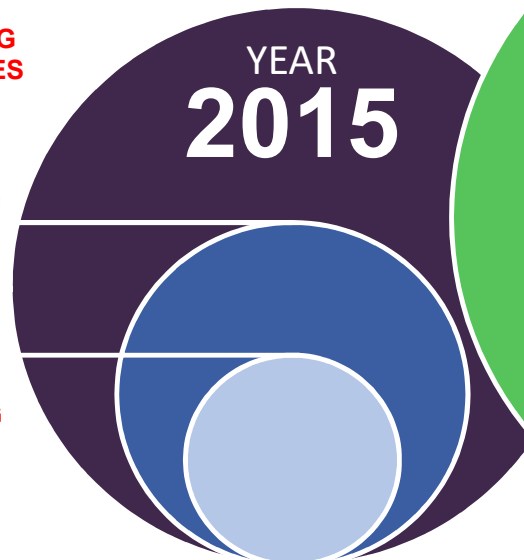

148m (35%)

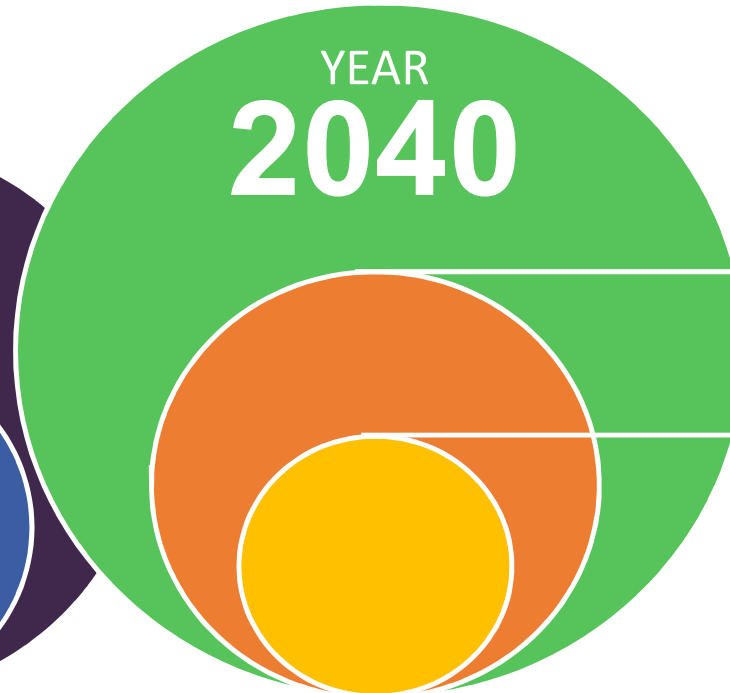

HAVE SOME
FORM OF DR

42m (11%)

HAVE VISION-
THREATENING
DR

YEAR
2015

YEAR
2040

642m

ADULTS LIVING
WITH DIABETES

(35%) **225m**

HAVE SOME
FORM OF DR

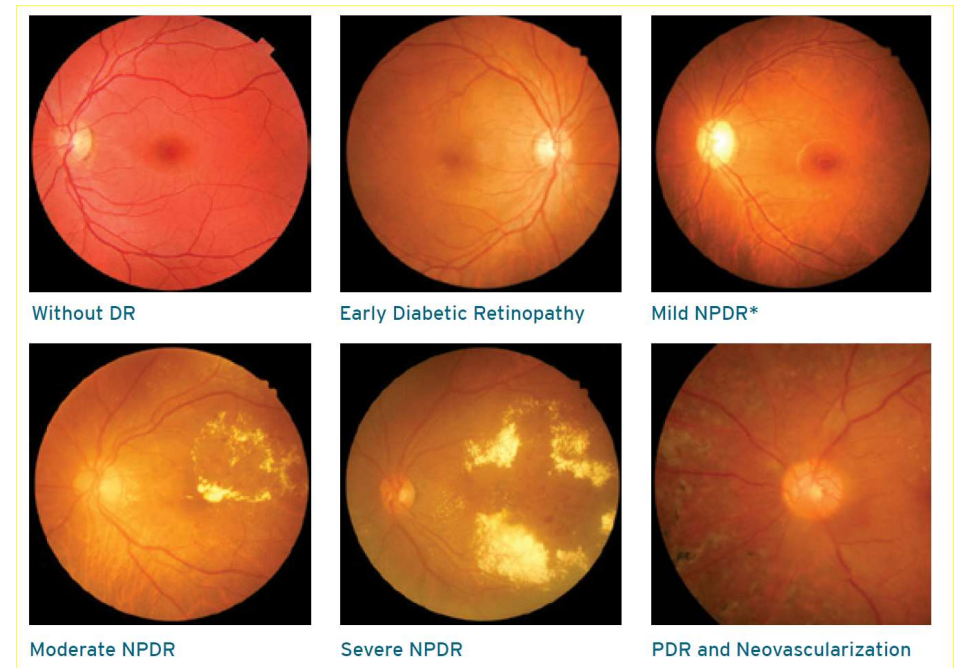

(11%) **64m**

HAVE VISION-
THREATENING DR

Detection & Diagnosis of DR

Eye Exam by a trained eye-care specialist using Fundus Camera

Diagnosis by manual examination of images for DR

Acute Shortage of Ophthalmologists

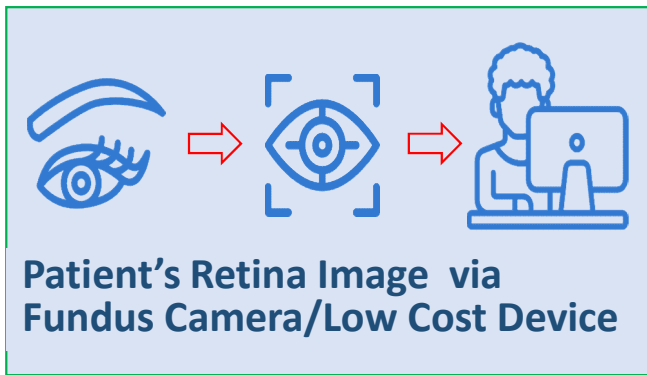

200,000 total
ophthalmologists
worldwide

Ophthalmologists per Million Population		Countries
	0 to 0.99	23
	1 to 3.99	30
	4 to 24.9	48
	25 to 99.9	74
	100+	18

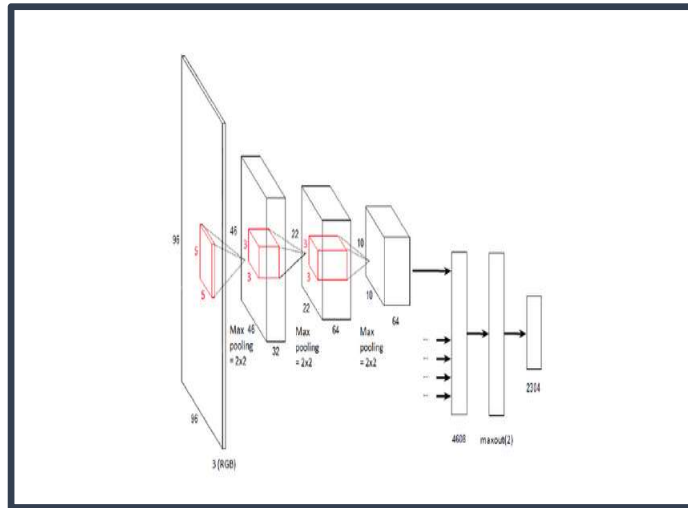

- Somalia: 4 for 17.5M ; Niger 7 for 20M;
Angola : 15 for 28M
- India : 15,000 for 1.3B = 9 per million

Resnikoff S, Felch W, Gauthier T-M, et al. *Br J Ophthalmol* (2012). doi:10.1136/bjophthalmol-2011-301378

How AI Can Help

Input Images From Low-cost Device

AI Deep Learning CNN Model

Diagnosis probabilities

Mild DR (96.2 %)
Moderate DR (2.8 %)
Severe DR (0.7 %)
Normal (0.3 %)

Output Diagnosis with Probabilities

In 2016, Google's DR Detection AI model had an accuracy score of 0.95 - on par/better than median of 8 ophthalmologists at 0.91

Overview of Proposed Solution

Low Cost
Easy to use
AI based
Deploy Remotely

Cloud Based AI Server

Image Uploaded to Cloud & Processed

Validate images to improve model

AI Diagnosis

Clinics / Screening Kiosks

Diagnosis Report sent to patient

Remote Ophthalmologist
Verify/Validate Diagnosis

Pilot in partnership with tele-ophthalmology group in India with over 150 centers

Next Steps

Challenges:

- Curated Datasets
- Low Cost + High Accuracy
- Remote Deployment
- Privacy & Regulations

What We Need:

- Partners for collaboration
- Resources for scale-up and deployment

***“We believe that It is feasible to use AI to solve the global healthcare challenge of detecting Diabetic Retinopathy and prevent blindness for millions globally.
And that would truly be AI for good!”***

Thank you!
