

IEC-ISO-ITU

Joint Smart Cities Task Force (J-SCTF) Forum

21 June 2021

“ITU-T Study Group Working Methods”

Bilel Jamoussi

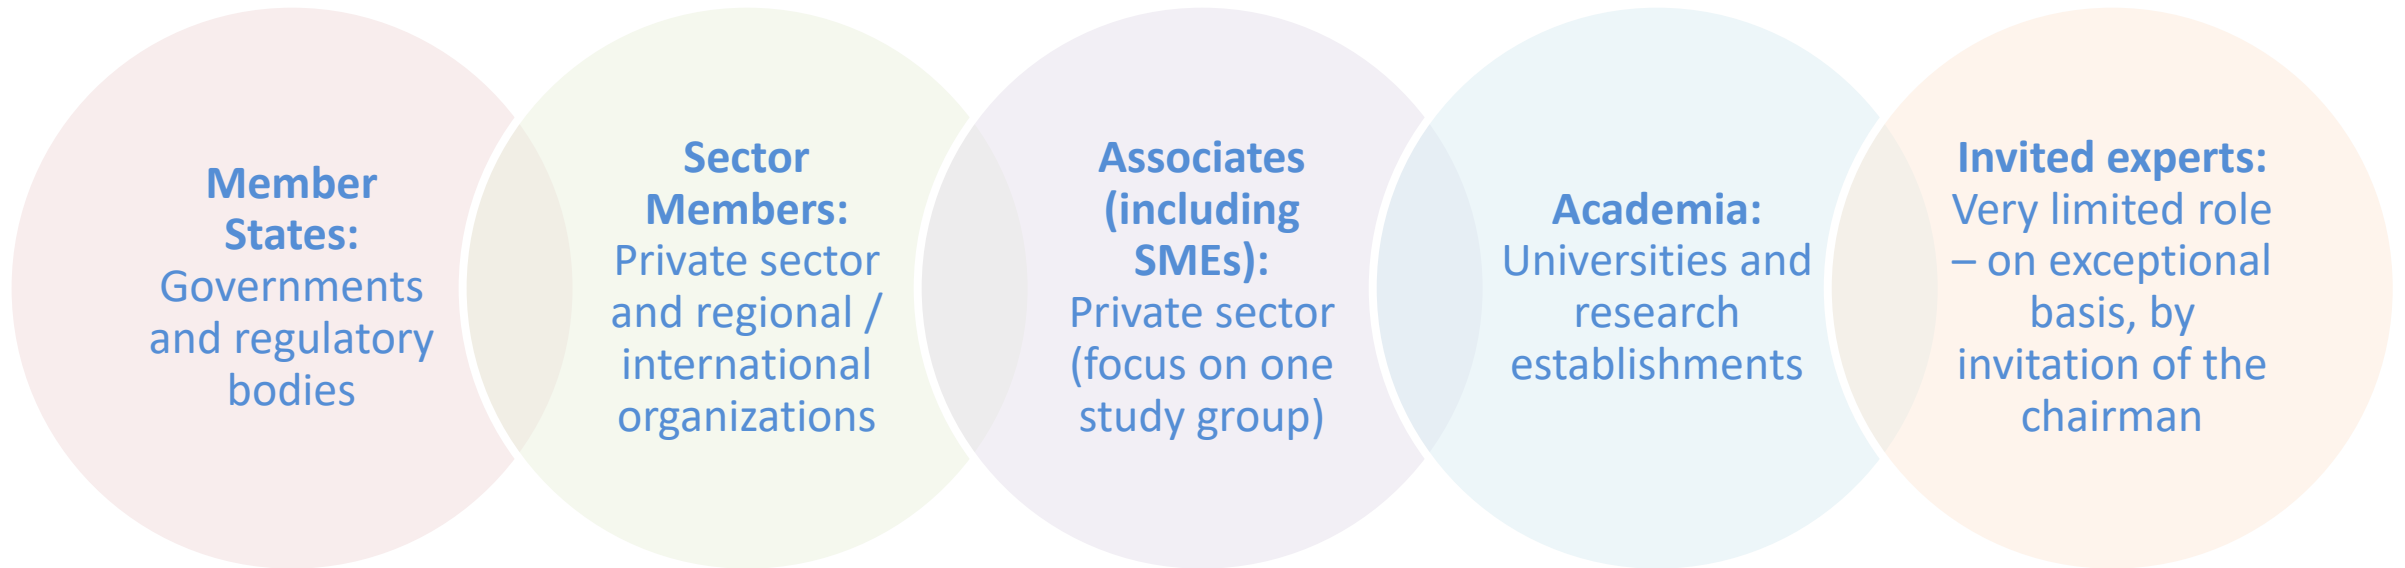

Chief of Study Groups Department

Telecommunication Standardization Bureau (TSB)

ITU

Membership

ITU-T collaboration with other organizations

World Standards Cooperation ISO-IEC-ITU

- Common patent policy & joint events
- Some common or twinned texts with ISO/IEC JTC 1

Global Standards Collaboration

- Supports ITU as preeminent global ICT standards organization

Other ICT standards related organizations:

- Formal liaison relationships
- A.4: Forums and consortia
- A.5: References to documents of organizations outside ITU
- A.6: National and regional standards development organizations

ITU-T: Structure and organization

SG2 - Operational aspects

SG3 - Economic and policy issues

SG5 - Environment and climate change

SG9 - Broadband cable and TV

SG11 - Protocols and test specifications

SG12 - Performance, QoS and QoE

SG13 - Future networks

SG15 - Transport, Access and Home

SG16 - Multimedia

SG17 - Security

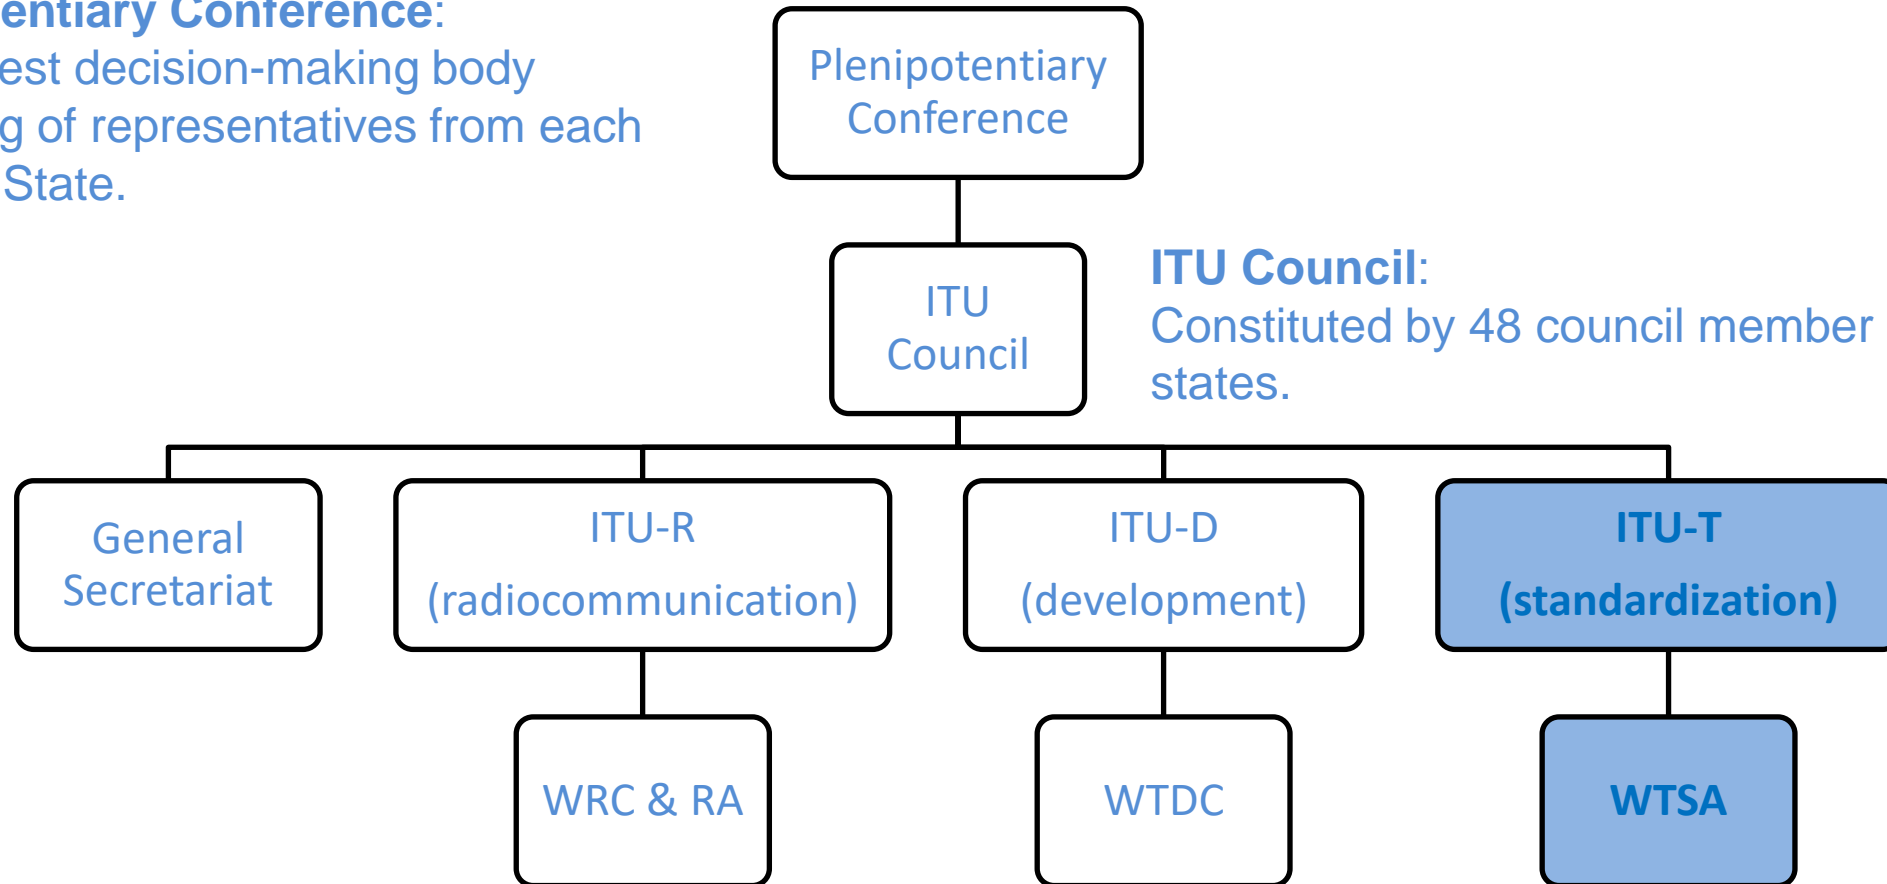

SG20 - Internet of Things and smart cities⁴ & communities

ITU-T: Structure and organization (1/4)

Plenipotentiary Conference:

The highest decision-making body consisting of representatives from each Member State.

ITU Council:

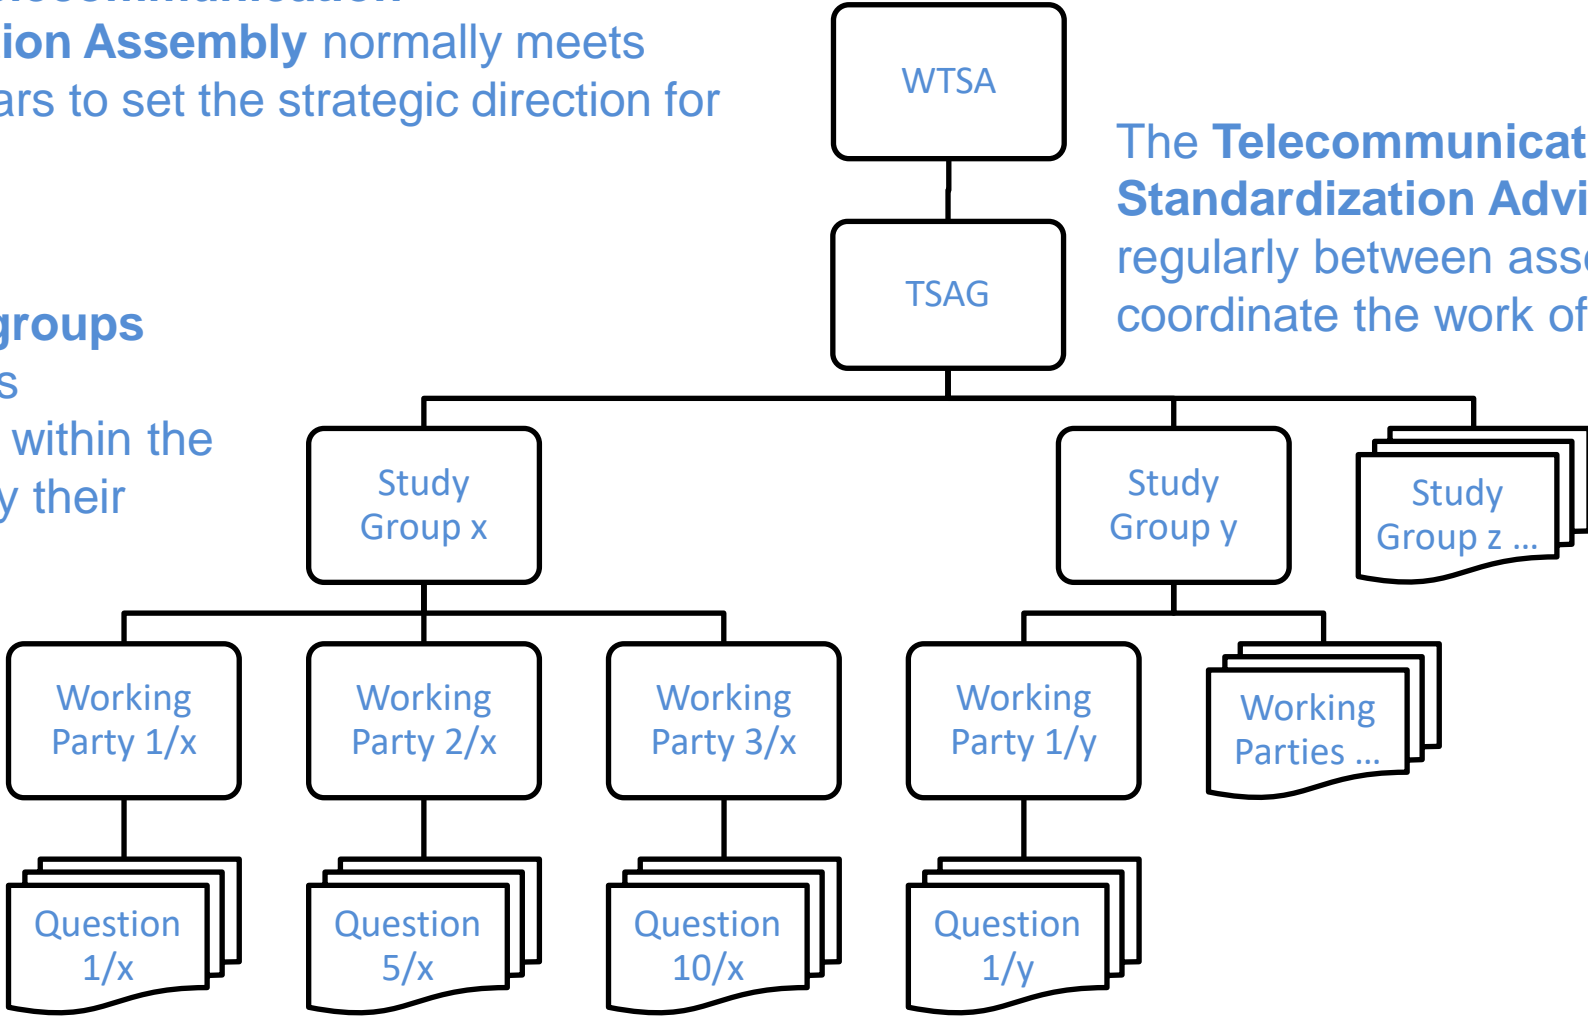

Constituted by 48 council member states.

ITU-T: Structure and organization (2/4)

The **World Telecommunication Standardization Assembly** normally meets every four years to set the strategic direction for ITU-T's work.

The **ITU-T study groups** carry out standards development work within the topics described by their mandates.

The **Telecommunication Standardization Advisory Group** meets regularly between assemblies to coordinate the work of the Sector.

Main publications: ITU-T Recommendations

Normative texts; **Approved** by members:

- Recommendations (international standards)
- Grouped into themed series
- Compliance only mandatory after adoption in law
- Developed at the request of membership
- Maintained through amendments, corrigenda and revisions

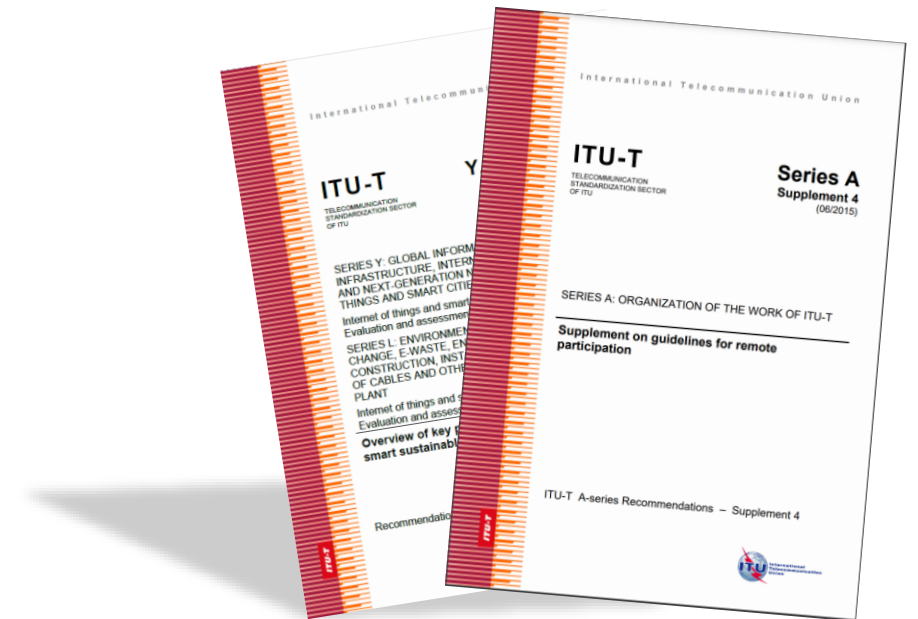

The published versions of most Recommendations are available to everyone, free of charge.

Other publications (non-normative)

Non-normative texts; **Agreed** by members:

- Supplements
- Implementers' guides
- Technical reports and technical papers
- Focus group deliverables
- Ad-hoc publications

Most texts undergo editorial review by TSB prior to publication.
In the meantime, the unedited versions are pre-published for ITU-T experts only.

Decision-making in ITU-T

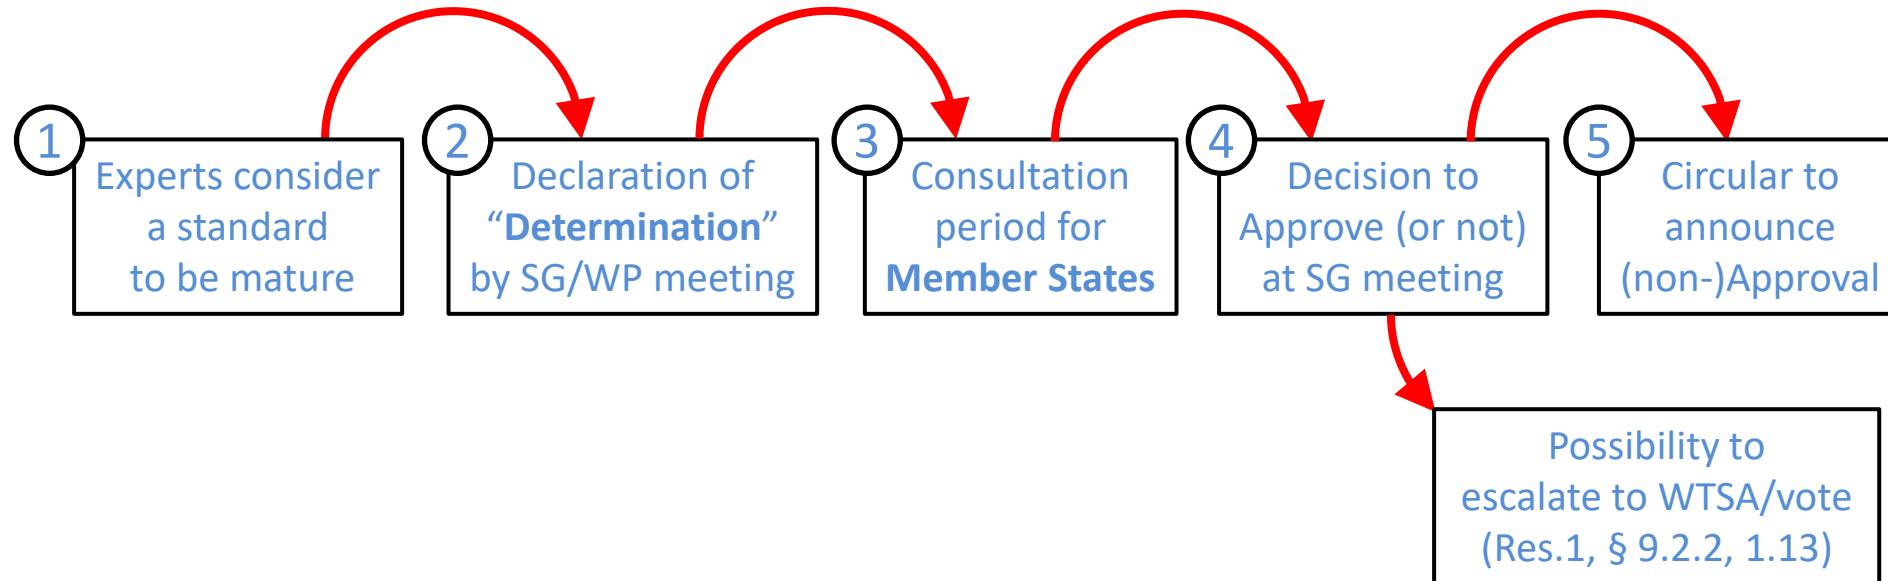

1. Consensus-building ensures win-win decisions
2. Avoid voting (limited to Member States)
3. Soft decisions (agreement, determination, etc.)
4. Definitive decisions are often quantifiable
(70% affirmation of Member State consultation, etc.)
5. Approval processes:
 - a) Traditional Approval Process (**TAP**): Policy or regulatory standards
 - b) Alternative Approval Process (**AAP**): Technical standards
 - c) World Telecommunication Standardization Assembly (**WTSA**):
Sensitive or difficult standards
 - d) Study group **Agreement** of other (non-normative) texts

Approvals in numbers

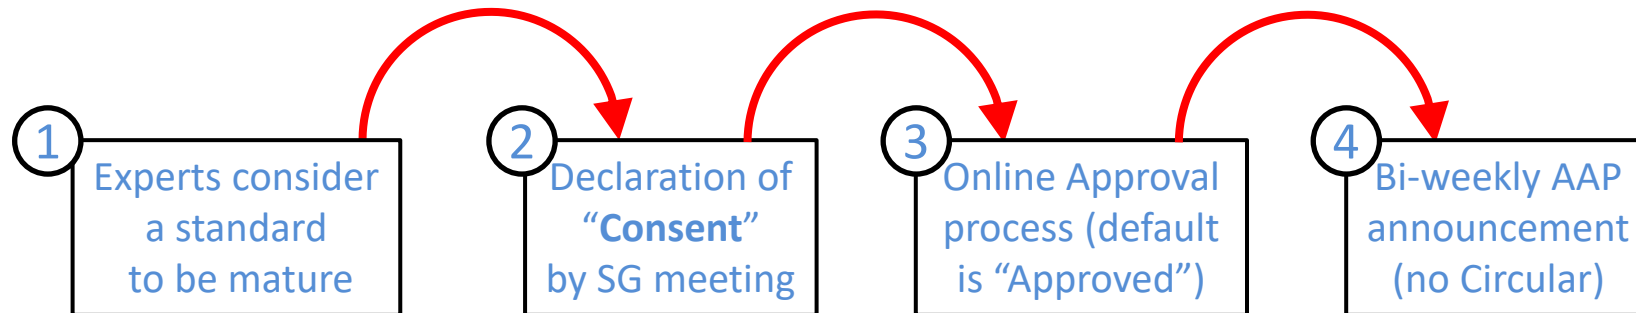

Approved Recommendations and Supplements since the 1st Jan 2001

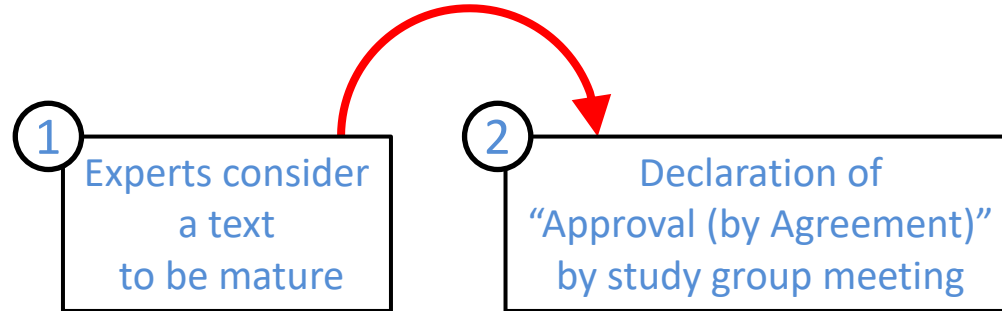

Traditional Approval Process (TAP): Regulatory and policy issues

Alternative Approval Process AAP: Quick and flexible

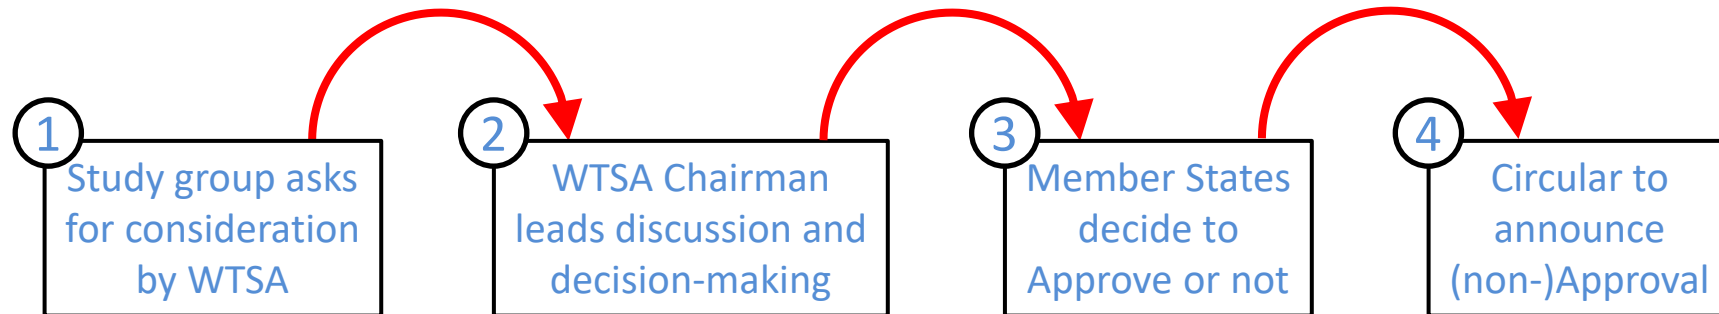

Agreement: For non-normative texts

Non-normative (or "informative") texts include:

1. Supplements
2. Implementers' guides
3. Handbooks
4. Technical reports
5. Technical papers
6. Appendices

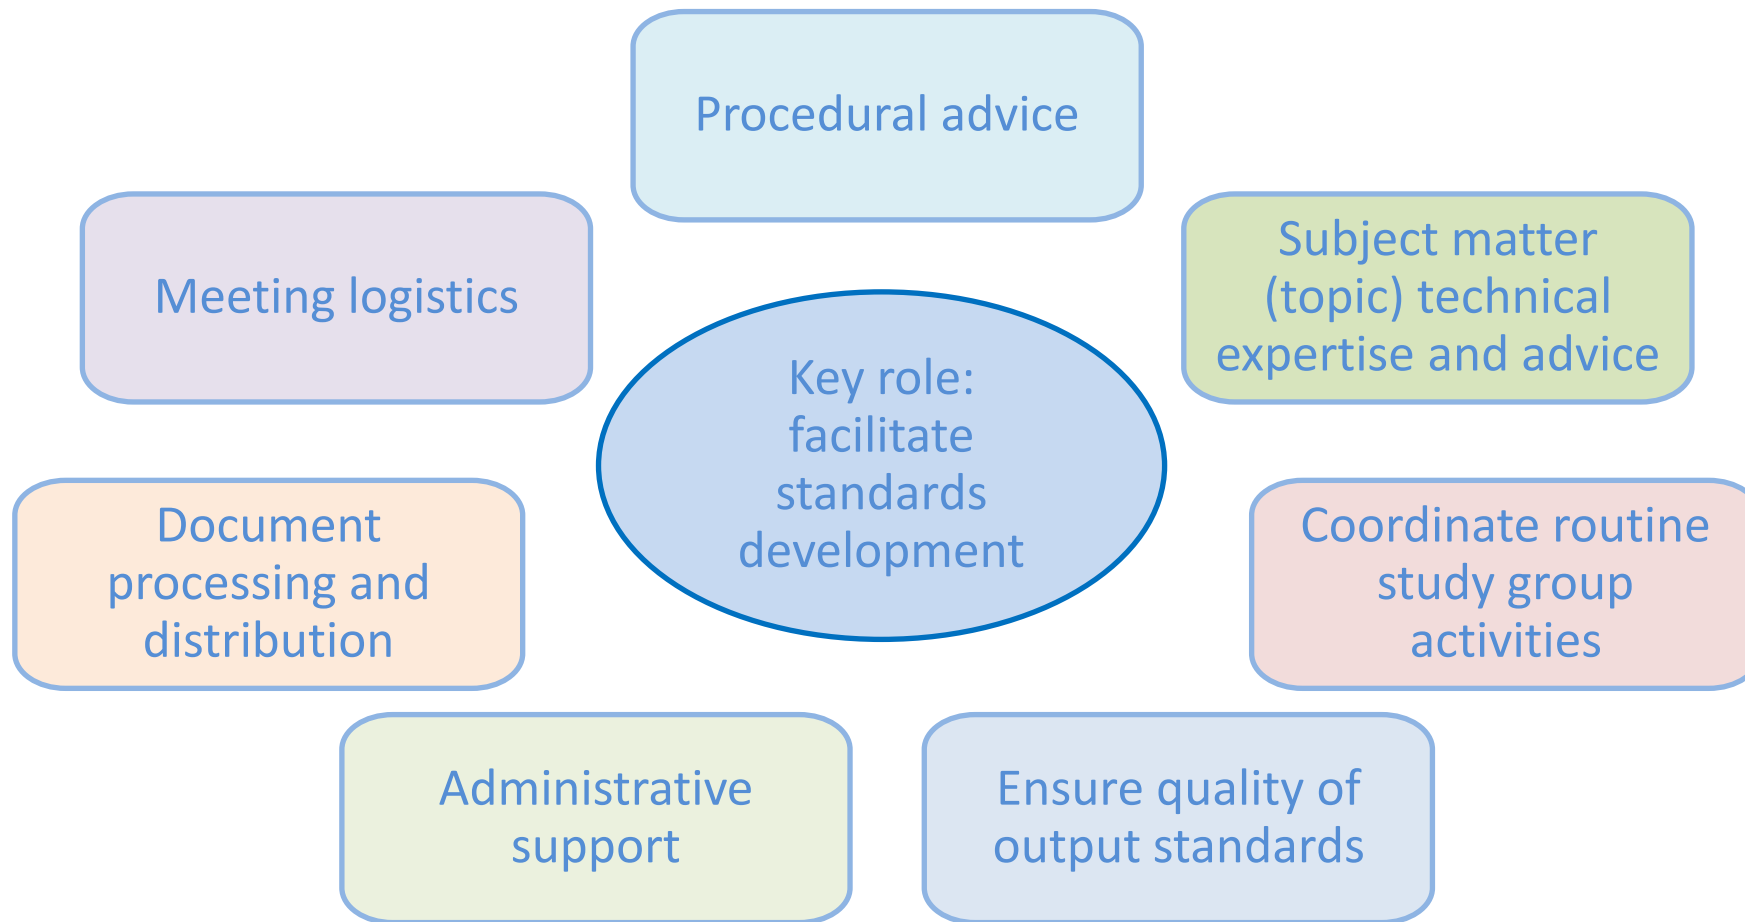

WTSA: Full decision-making power

Key leadership roles

1. Study group Chairmen / Vice-chairmen
2. Working party Chairmen / Vice-chairmen
3. Rapporteurs
4. Liaison representatives
5. Editors
6. TSB Secretariat

Secretariat services
