

Local Map of the Venue for Delegates

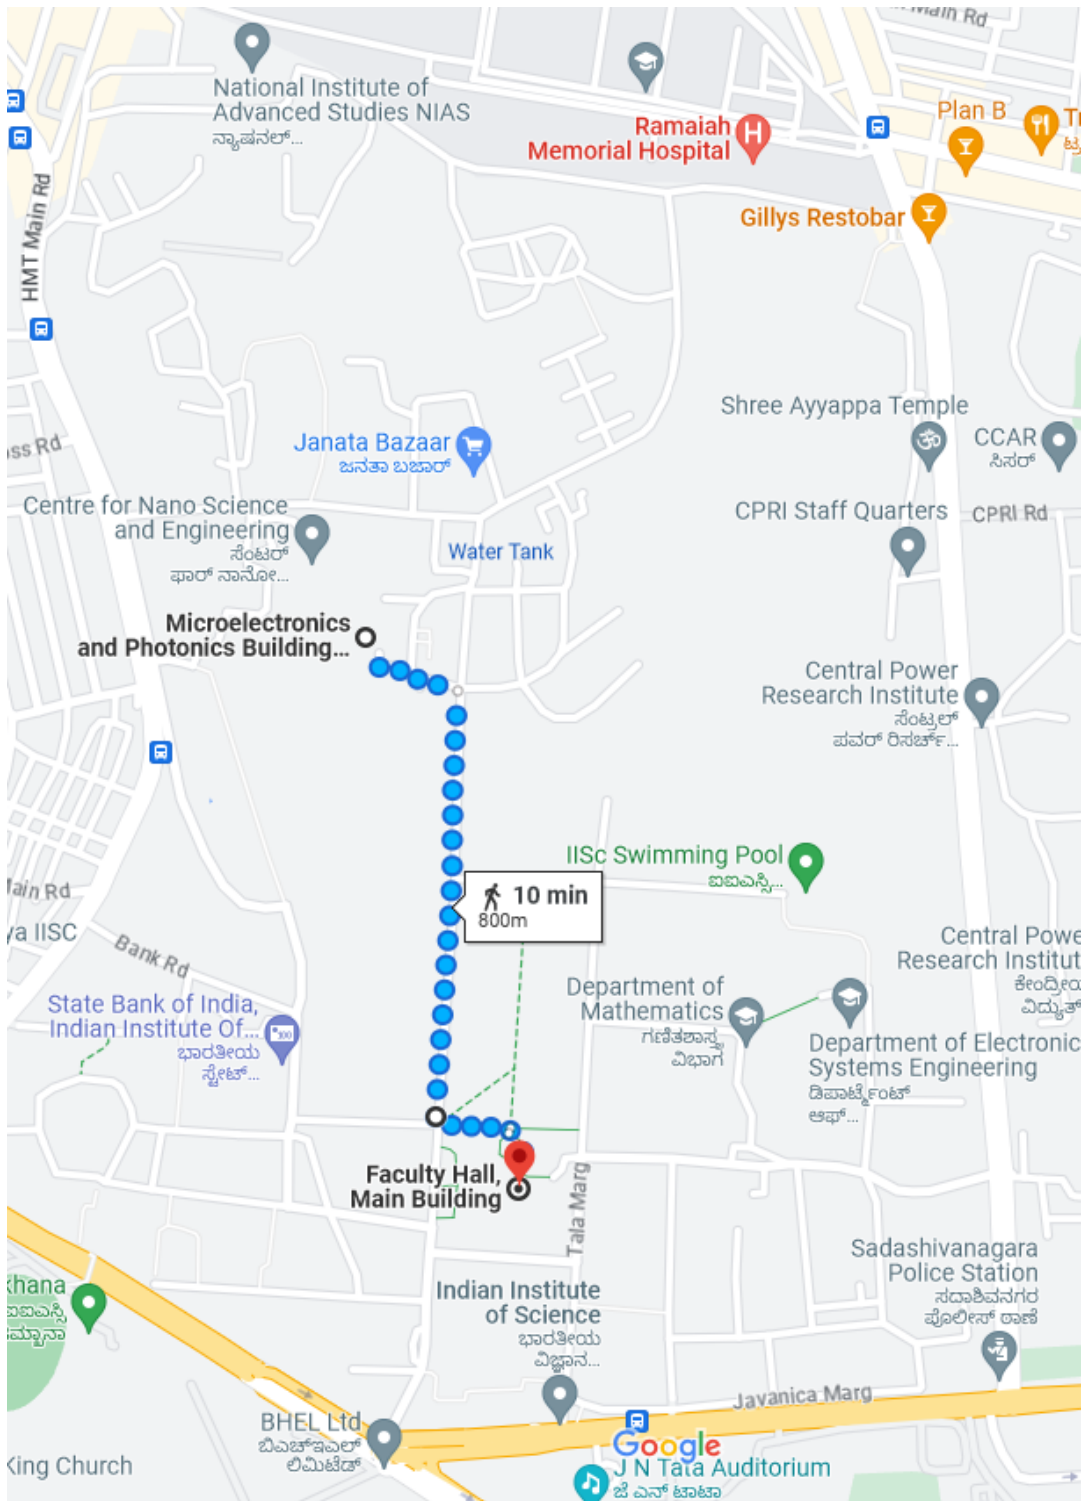

The ITU SG9 meetings during 9-18 May 2023 will be held in the Microelectronics and Photonics (MP) building of the Electrical Communication Engineering Department, Indian Institute of Science (IISc). The meetings will be held in rooms MP 20 and MP 30. The maps location of the building is [here](#).

Once at the main entrance of IISc, follow the directions given below to reach the MP building.

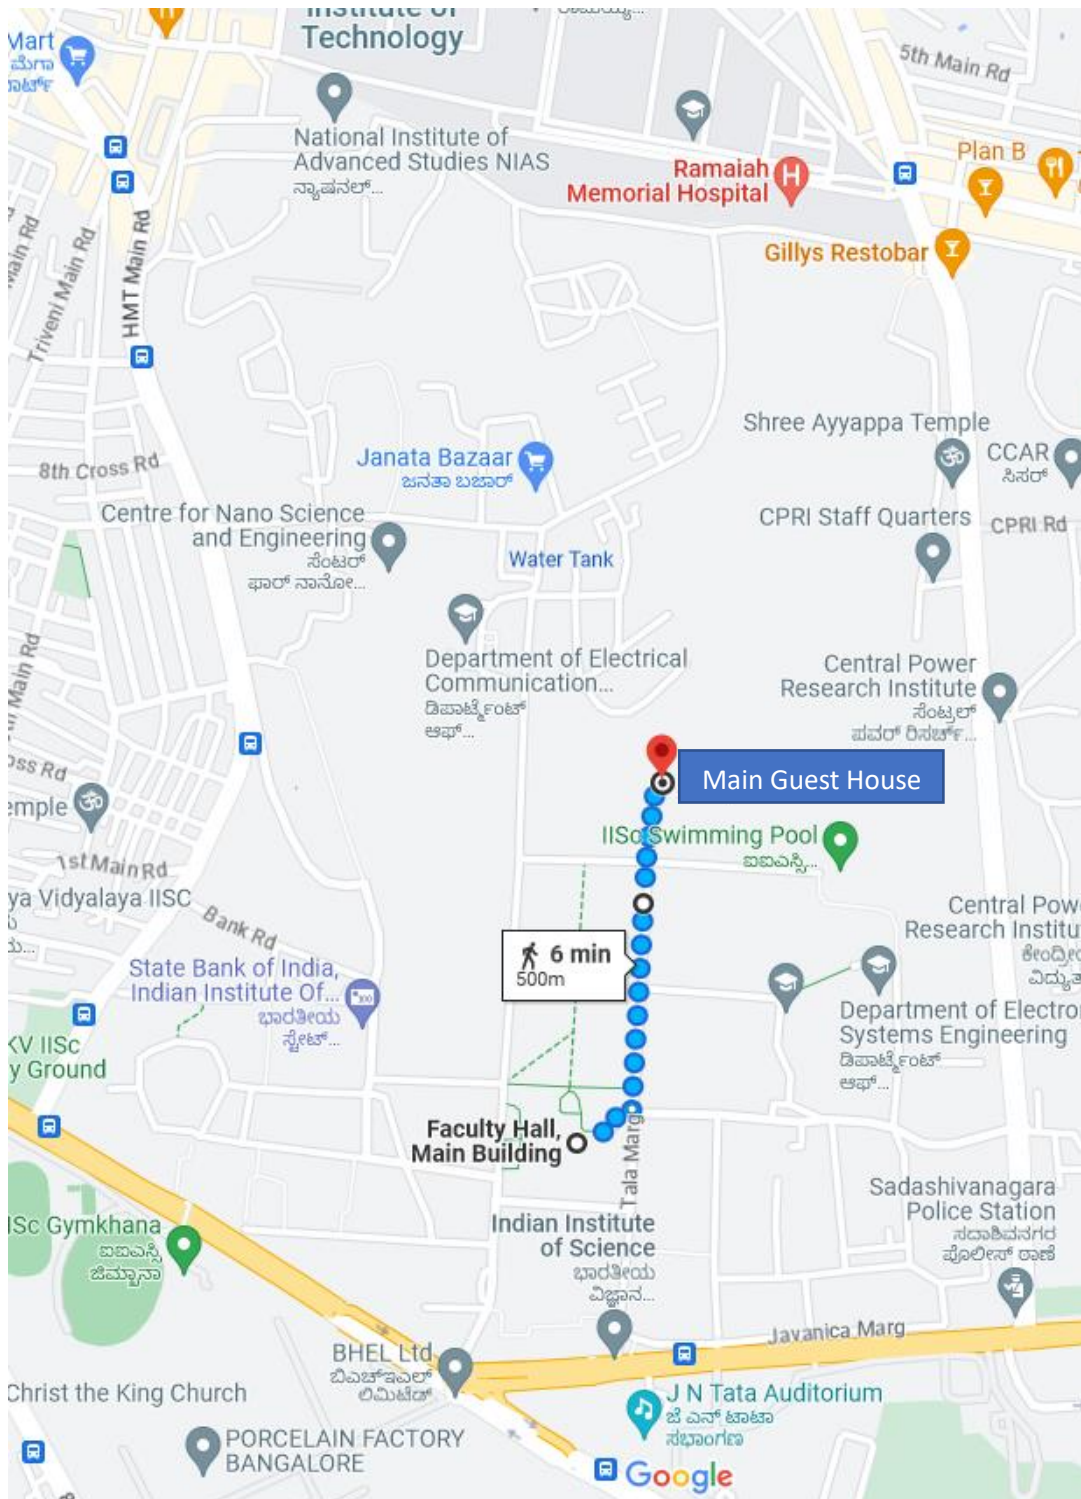

Main entrance to the Indian Institute of Science

The ITU Workshop on "The Future of Television for South Asia, Arab and Africa Regions" on 11 May 2023 will be held at the Faculty Hall, Main Building, Indian Institute of Science. The maps link to this building is [here](#). From the ITU SG9 venue, it is a short 10-minute walk as given in the map below.

On 11 May 2023, the day of the ITU Workshop on "The Future of Television for South Asia, Arab and Africa Regions", lunch will be served at the Main Guest House, which is a short walk away from the workshop venue. Follow the map to go to the lunch venue from the Faculty Hall. Return to the Faculty Hall to attend the rest of the workshop after lunch.

This is the entrance to the building where the ITU SG9 meetings will take place. Maps link: click [here](#).

You can see below the entrance, viewed from the inside. There will be a reception table in front of the three chairs next to the fire hydrant and close to the entrance. The notice board will carry information about the ITU events in the two rooms. The two rooms MP 20 and MP 30 entrances are marked by the arrows.

MP 20

MP 30

Below is the MP 20 once you enter the room.

View of MP30 from the entrance to the room.

This is the place where lunch and coffee/tea will be served. As you will see, it is very close to the entrance and the two meeting rooms.
