

# BRIDGING THE STANDARDIZATION GAP AT ITU-T

***Lara Srivastava, PhD***

*Head, Bridging the Standardization Gap Programme (BSG), TSB/ITU*

The background of the slide features a light gray 3D scene with several stylized human figures. These figures are positioned around and interacting with large, three-dimensional puzzle pieces. Some pieces are already assembled into a larger shape, while others are being held by the figures, suggesting a collaborative effort to complete a task. The overall theme is teamwork and problem-solving.

| *Background*

# **Bridging the Standardization Gap at ITU**

Art. 17 ITU Constitution refers to “concerns of developing countries”

## *Functions and Structure of ITU-T*

### Telecommunication Standardization Sector

#### Art. 17 Constitution

#### ARTICLE 17

#### Functions and Structure

104  
PP-98

1 1) The functions of the Telecommunication Standardization Sector shall be, bearing in mind the particular concerns of the developing countries, to fulfil the purposes of the Union relating to telecommunication standardization, as stated in Article 1 of this Constitution, by studying technical, operating and tariff questions and adopting recommendations on them with a view to standardizing telecommunications on a worldwide basis.

## *ITU Strategic Plan: BSG a key strategic objective for ITU-T*

In the ITU Strategic Plan 2016-2019, one of the 5 overarching objectives of ITU-T is to:

Strategic  
Plan  
(PP Res. 71)  
T2

Promote **the active participation of the membership, in particular developing countries**, in the definition and adoption of non-discriminatory international standards (ITU-T Recommendations) with a view to **bridging the standardization gap**

Annex 2 to PP Resolution 71 (Rev. Busan 2014)

## *Since 2002, PP has a Resolution on BSG: Res. 123*

**PP-14 Resolution 123 (rev. Busan) resolves, *inter alia*, to instruct the Secretary General and the Directors of the 3 Bureaux to:**

- to provide developing countries with **assistance to enhance capacity building** in the standardization field
- to identify ways and means to **support the participation of representatives of developing countries** in the meetings of the three Sectors of ITU and the **dissemination of information** on standardization
- to further **collaborate with the relevant regional organizations** and support their work in this area...
- ...

PP  
Res. 123

*Since 2004, there is a WTSA Resolution on BSG: Res. 44*

*WTSA-12 Res. 44 on BSG recognizes that...*

*... Developing countries are still encountering multifarious difficulties in ensuring their efficient participation in the work of ITU-T, in particular engaging in and following up the work of the ITU-T study groups*

**WTSA  
Res. 44**

**Res. 44 includes (in its annex)  
an Action Plan to  
implement Resolution 123 of PP-10**

The background of the slide features a light gray surface with several 3D, stylized human figures in various poses, appearing to be working together to assemble large puzzle pieces. Some pieces are already connected, while others are being held or moved by the figures. The overall theme is teamwork and problem-solving.

| *ITU-T Mandate*

# **Key elements of Resolution 44 Action Plan**

# *About WTSA-12 Resolution 44 and its Action Plan*

## **ITU-T**

TELECOMMUNICATION  
STANDARDIZATION SECTOR  
OF ITU

WORLD TELECOMMUNICATION STANDARDIZATION  
ASSEMBLY

Dubai, 20-29 November 2012

---

**Resolution 44 – Bridging the standardization  
gap between developing and developed  
countries**

*Florianópolis, 2004  
Johannesburg, 2008  
Dubai, 2012s*

## *What Resolution 44 contains:*

- A number of resolutions (“resolves”) and instructions (“instructs”)
- In its annex, an **Action plan** is for the implementation of PP Resolution 123, which contains 4 programmes:
  1. “Strengthening standard-making capabilities”  
**(MAKING STANDARDS)**
  2. “Assisting developing countries with respect to the **application** of standards” **(APPLYING STANDARDS)**
  3. “Human resources **capacity building**”  
**(BUILDING CAPACITY)**
  4. “**Fundraising** for bridging the standardization gap”  
**(FUNDRAISING)**

### ANNEX (to Resolution 44)

#### Action plan for the implementation of Resolution 123 (Rev. Guadalajara, 2010) of the Plenipotentiary Conference

##### 1 Programme 1: Strengthening standard-making capabilities

###### 1) Objective

- To improve the standard-making capabilities of developing countries.

###### 2) Activities

- Developing guidelines to assist developing countries in their involvement in ITU-T activities, covering, but not limited to, ITU-T working methods, formulating draft Questions and making proposals.

# *BSG towards 2020: Enhancing our value proposition*

*BSG for  
enhancing  
the value  
proposition  
of ITU-T*

*BSG for  
empowering  
participation  
and raising **the  
quality and  
acceptance** of  
standards*

BSG to ensure  
the international  
nature of  
ITU-T standards

**BSG = Benefits all through international  
dialogue and levelling the playing field:**

- Fuels and informs innovation, product design and business development
- Inclusive standard making process taking into account needs and requirements from established and emerging markets
- Wider implementation of standards with positive effects on industry development

ITU Regional Standardization Forum for  
Bridging Standardization Gap (BSG) -  
Arab Region

Tunis, Tunisia  
26 July 2016

---

ITU Regional Standardization Forum for  
Bridging Standardization Gap (BSG) -  
Asia Pacific Region

Da Nang City, Vietnam  
22 August 2016

# *Know-How: Skills development through hands-on sessions*

## *Between January and early July 2016:*

**142**

**DELEGATES  
REPRESENTING**

**32**

**COUNTRIES  
FROM**

**60**

**DIFFERENT  
ORGANIZATIONS  
IN**

**7**

**DEDICATED  
HANDS-ON  
SESSIONS**

*Trainings in Geneva  
before SG Meetings for  
SG2, SG9, SG11, SG12,  
SG13, SG17*

*Tailored Hands-on  
sessions on request in  
Tunisia and India*

# BSG training at the regional level

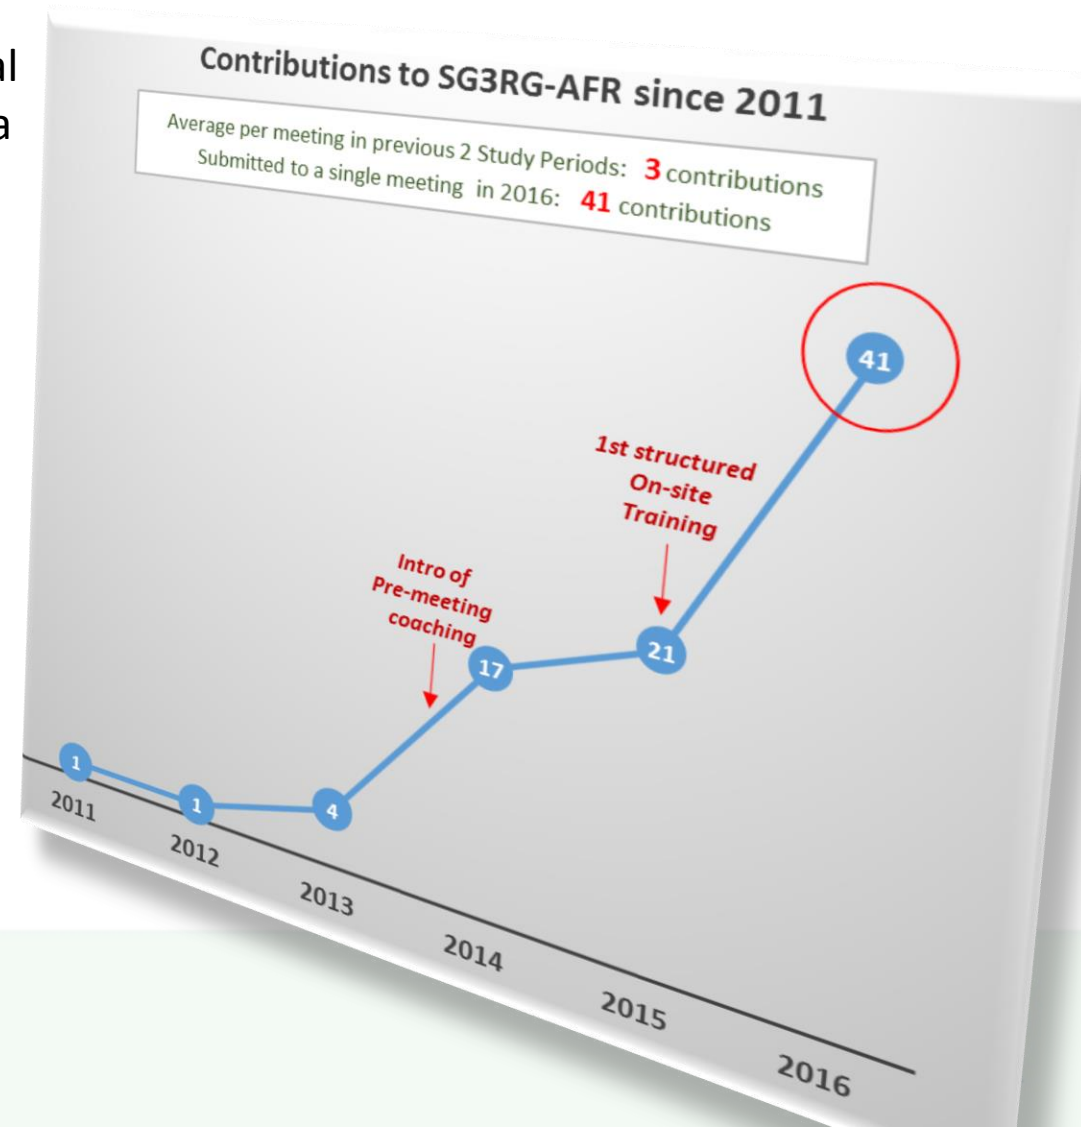

These **hands-on BSG hands-on sessions** are based on the successful model implemented starting in 2013 in the Regional Groups of ITU-T Study Group 3 starting in late 2013/2014. As a result of the training in SG3, the number and quality of contributions **increased exponentially**.

## Example: 2015 SG3-AFR Meeting:

**Increase in contributions:** **10-fold** increase compared to 2012-13, **13-fold increase** over average number since 2004

**Diversity of sources:** **23 unique contributors**, compared to average of 4 unique contributors since 2005

**Quality of contributions:** More than **95%** serve to move the work forward of SG3 & more than **50%** relate to Draft Recs, or are proposals for New WIs or New Qs.

# *Impact of the BSG training at the global level*

These **tailored hands-on BSG capacity-building & training** have also had a clear and tangible effect on the (Parent) Study Group 3 (SG3):

- The last meeting of SG3 in February 2016 received **141** contributions, representing **more than a 900% increase** in contributions over the average, with the vast majority from developing countries.

**Over 12% submitted from members of ARB!**

## ITU-T SG3 Contributions per meeting from 2000-2016

Average per meeting 2002-2014: **15 contributions**

2016 meeting: **141 contributions** received

# ITU-T BSG Hands-On Sessions and Role-Play

The BSG Hands-On SG effectiveness training is a new ITU-T training programme under **Resolution 44 (WTSA-12)** for delegates from developing countries. The training focuses on the development of practical skills to maximize effectiveness in ITU-T Study Groups in the following areas:

## Strategy

**Choosing** the right strategy in line with key objectives is an essential part of preparing for ITU-T Study Group meetings.

## Contribution

**Drafting** well structured and effective contributions including concrete proposals is a vital skill for maximizing effectiveness in ITU-T Study Groups.

## Communication

**Communicating** and presenting effectively is a key skill for any delegate and the programme shares tips and techniques for presentations through interactive sessions.

## Collaboration

**Learning** how to discuss proposals in a spirit of collaboration to achieve objectives is further covered in the training programme.

## Consensus

**Gaining support** and building international consensus is a vital part of the ITU-T standards-making process and the training also covers these aspects.

# The Hands-on SG Effectiveness Training in 10 modules

**Note: The full training takes 1.5 days – 2 days depending on number of interactive exercises**

# The winning ITU-T Standards Contribution Road Map

## Hands-on sessions: Feedback from our BSG Alumni

“Although this is my third time participating in ITU meetings, I feel this training brought me focus and helped me to better myself.”

“This training prepares you for whatever meeting!”

“It has boosted my confidence .... Now I am confident on how to contribute and write proper proposals and most importantly how to work on gaining support.”

# Know-how: E-learning courses

Think about taking the ITU-T A.1 E-learning course and getting certified!

The screenshot shows the ITU Academy website interface. At the top, there is a search bar and links for 'LOGIN' and 'CREATE AN ACCOUNT'. Below the navigation bar, the main heading reads 'Recommendation ITU-T A.1: Working Methods of ITU-T Study Groups'. Underneath, there are tabs for 'Course Details', 'Syllabus', 'Tutors', and 'Fees'. The 'Course Details' tab is active, displaying a small image of a laptop with a red apple on top. To the right of the image, the text states: 'This is the first e-Learning course develop by ITU-T addressed to the sector members.' Below this, it specifies 'Course Type: Distance Learning', 'Region:', and 'Language: English (UK)'. A blue button labeled 'View This Course' is positioned at the bottom left of the course details section. On the bottom right, the 'Start Date' is listed as 'Monday, 30 December 2013'.

# Partnership Opportunities

**Let's work together! Our BSG partnership opportunities include:**

1. Hosting a hands-on training session for a specific developing region, or country
2. Sponsoring a hands-on tutorial or related event on ITU-T standards
3. Sponsoring content to facilitate standards-making for developing countries
4. Financial contributions to the BSG fund

**Do you have any other ideas?**
