

REGIONAL STANDARDIZATION FORUM FOR BRIDGING THE STANDARDIZATION GAP (BSG)

Seoul, Korea (Rep. of), 24 October 2017

Name: Jigme Wangdi

Present Title: Chief Communications Office, Bhutan InfoComm and Media Authority,
Royal Government of Bhutan

PERSONAL & PROFESSIONAL PROFILE

A positive, proactive, multi-skilled electronics and communications engineer holding a masters degree in regulation of communication services, with a good track record in managing organizational activities including programmes and projects. Mr Wangdi has competence in managing stakeholders' expectations and willing to take responsibility for the delivery of programmes' objectives.

He has strong leadership skills, a good listener with excellent interpersonal and communication skills including liaising and negotiation skills. A thorough planner and intrinsically motivated to deliver, work hard and achieve. He enjoys building and being part of a team and believes in motivating and training successful and productive teams.

He has over 17 years of experience in radio spectrum policy and regulation, management, planning and implementation of programmes and he is also well versed in national and international matters related to radio communication. Currently, he is responsible for radio spectrum management, universal service projects and price regulation of telecom services in Bhutan.
