Introduction to ITU and ITU-T activities

ITU-T, the Standardization Sector of ITU.

About ITU

- The United Nations Specialized Agency for Information and Communication Technologies (ICTs)
- □ Founded in Paris in 1865 as the International Telegraph Union
- 2015 marks 150 years of experience and innovation

ITU's Regional Offices

ITU's Membership

193 Member States and Regulatory Bodies

700 Companies, Business Associations, NGOs

+90 Universities & Research Establishments

ITU's Structure

Radiocommunication

Coordinates global wireless communication

Standardization

Produces interoperable technical ICT standards

Development

Provides assistance to the un-connected

The General Secretariat provides intersectoral coordination

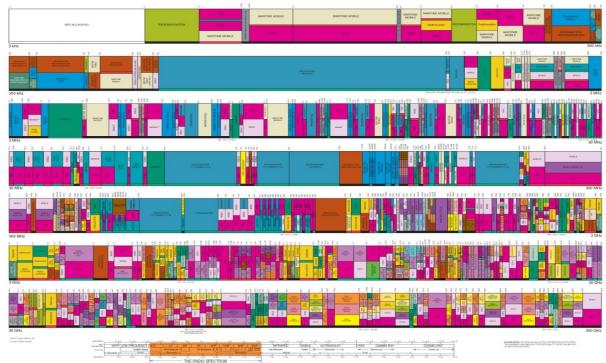

ITU-R: Radiocommunication Sector

Manages the radio-frequency spectrum and satellite orbits

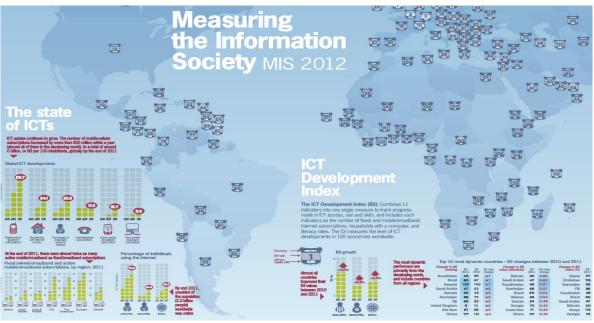

ITU-D: Development Sector

Assists the development of ICTs in the developing world

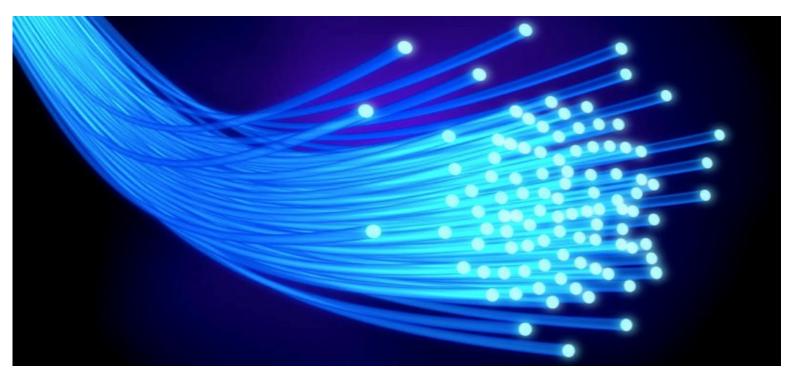

ITU-T: Standardization Sector

Produces standards covering all fields of telecommunications on a worldwide basis, and defines tariff and accounting principles for international telecommunication services

About ITU-T

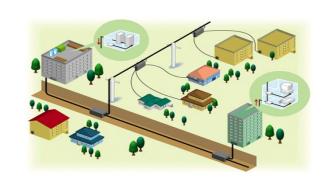

ITU-T Key Topics

- □ **Internet Broadband Access** (xDSL, G.fast, Fiber to the x, Powerline communication)
- □ Transport and Optical Fiber
- □ **Multimedia** (video coding: ITU-T H.264 and H.265)
- □ IPTV, Smart Cable Television
- Numbering and Identification Resources
- □ Conformance and Interoperability Testing
- □ Bridging the Standardization Gap

ITU-T Key Topics

- □ Software-defined Networking (SDN)
- Cloud Computing
- □ Big Data
- M2M and Internet of Things (IoT)
- □ Cybersecurity, Identity Management, Child Online Protection
- □ Performance, Quality of Service (QoS) and Quality of Experience (QoE)

ITU-T Key Topics

- □ Intelligent Transport Systems
- Smart Grid
- □ ICT and Climate Change, Smart Sustainable Cities, Smart
 Water Management
- □ E-Health
- □ ICT Accessibility and Human factors
- □ Emergency Communications, Disaster Relief Systems, Network Resilience and Recovery

ITU-T Study Groups

- SG2 Operational aspects
- SG3 Economic and policy issues
- SG5 Environment and climate change
- SG9 Broadband cable and TV
- □ SG11 Protocols and test specifications

- □ SG12 Performance, QoS and QoE
- SG13 Future networks
- SG15 Transport, Access and Home
- □ SG16 Multimedia
- SG17 Security

SG 20 - Internet of Things: incl. M2M communications and ubiquitous sensor networks

ITU-T Focus Groups

- Augment the Study Group system
- Way to quickly react to ICT standardization needs
- Great flexibility of working methods
- Open to non-member participants

- Current Focus Groups:
 - □ 5G/IMT-2020 Wireline
 - Aviation applications of cloud computing for flight data monitoring
 - Digital financial services
- Recently completed:
 - Smart sustainable cities
 - Bridging the gap: from innovation to standards
 - Smart water management

Membership Benefits

Become part of a world class community and collaborate with key ICT players

ITU-T, the only global intergovernmental ICT standards development organization in the world

Brings together the private sector, governments and academia

- ✓ experts from ministries and regulatory agencies of 193 countries
- executives of fast growing and largest ICT companies worldwide
- ✓ researchers from most reputable universities and research centers

Gain visibility and build up your brand

Build a strong reputation as a reliable, forward-looking organization

- ✓ Win CLIENTS' trust by integrating ITU-T standards in your technology, guaranteeing your products are trust-worthy, safe and interoperable
- ✓ Get involved in the development of technical norms for innovative products and attract INVESTORS as a leading-edge ICT player

Raise your profile and enjoy brand exposure as an ITU-T member

- ✓ Be referenced in ITU's MEMBERS DIRECTORY and get in touch with prominent ITU members
- ✓ Have your research and new products AVERTISED in ITU publications
- ✓ HOST or SPONSOR an ITU-T event related to your technology and reach out to your full ecosystem
- ✓ SHOWCASE your work and company's activities at ITU-T meetings.
